Haynes Manuals

"One of the most enduring American urban myths concerns the death of the Red Car Trolley, an extensive and equitable system in Los Angeles County that some say was weakened and then eradicated by US car manufacturers. Yet as Nicholas Dagen Bloom shows, an array of larger yet less tangible forces together interacted to practically murder public transportation of all kinds in cities nationwide. Most centrally, public transit collapsed because essentially we wanted it

to-no conspiracy necessary. Detailing the histories of transportation in Atlanta, Baltimore, Boston, Chicago, Detroit, and San Francisco, Bloom seeks to set all of our transit myths to rest for the sake not only of accuracy but in order to enrich our conversations about public transportation funding today"--
