Less than a decade after the advent of democracy in South Africa, tabloid newspapers have taken the country by storm. One of these papers -- the Daily Sun -- is now the largest in the country, but it has generated controversy for its perceived lack of respect for privacy, brazen sexual content, and unrestrained truth-stretching. Herman Wasserman examines the success of tabloid journalism in South Africa at a time when global print media are in decline. He considers the social significance of the tabloids and how they play a role in integrating readers and their daily struggles with the political and social sphere of the new democracy. Wasserman shows how these papers have found an important niche in popular and civic culture largely ignored by the mainstream media and formal political channels.

Assessment results that improve institutional effectiveness, heighten student learning, and better align resources serve to make institutions stronger for the benefit of their students, and those results also serve the institution or program well during the holistic evaluation required through accreditation." -- from the foreword by Heather Perfetti, President of the Middle States Commission on Higher Education Colleges and universities struggle to understand precisely what is being asked for by accreditors, and this book answers that question by sharing examples of success reported by schools specifically recommended by accreditors. This compendium gathers examples of assessment practice in twenty-four higher education institutions: twenty-three in the U.S. and one in Australia. All institutions represented in this book were suggested by their accreditor as having an effective assessment approach in one or more of the following assessment focused areas: assessment in the disciplines, co-curricular, course/program/institutional assessment, equity and inclusion, general education, online learning, program review, scholarship of teaching and learning, student learning, or technology. These examples recommended by accrediting agencies makes this a unique contribution to the assessment literature. The book is organized in four parts. Part One is focused on student learning and assessment and includes ten chapters. The primary focus for Part Two is student learning assessment from a disciplinary perspective and includes four chapters. Part Three has a faculty engagement and assessment focus, and Part Four includes four chapters on institutional effectiveness and assessment, with a focus on strategic planning. This book is a publication of the Association for the Assessment of Learning in Higher Education (AALHE), an organization of practitioners interested in using effective assessment practice to document and improve student learning.

Based on Mr Hudson's identity, the book is featuring destinations for gays, but not necessarily gay destinations. It is about travelling in style for everyone who is looking for something different and special - no matter if men or women, travelling solo or as a couple. Mr Hudson Explores shows that every part of a trip is an incredible experience. The core content of the book will consist of 20 cities in the Northern Hemisphere and showcases the very best the destination has to offer. Each guide will give a general introduction to the city and, if applicable, its relevance for the gay community. It showcases various locations on culture and art, the most inspiring museum to visit, traditional and upcoming food places, best shopping experiences, music and nightlife: Where to go out, which bars do have the best drinks, and clubs you can have the most fun at the city's best parties and concerts.

Depending on the location, day trips and activities can be included. Luxury accommodations and places to stay complete the range. The book will not just give descriptions of the places but also background information, telling the story of the owner, history or anecdotes.

Presenting more than two hundred of the greatest haiku ever written about the game. There are moments in every baseball game that make fans catch their breath: the pause while a pitcher looks in for the sign, the moment a cocksure rookie gets picked off first, or the instant a batter lashes a game-winning homer into the night sky, just before the sell-out crowd explodes onto its feet. Haiku captures these moments like no other poetic form, and Baseball Haiku captures the sights, the sounds, the smells, and the emotions of the game like no previous collection. Some of the most important haiku poets of both America and Japan are featured in this anthology; including Jack Kerouac, a longtime baseball fan who pioneered English-language haiku; Alan Pizzarelli, one of the top American haiku and senryu poets of the last thirty years; and Masaoka Shiki, one of the four great pillars of Japanese haiku—a towering figure—who was instrumental in popularizing baseball in Japan during the 1890s. With over two hundred poems spanning more than a century of ball playing, Baseball Haiku reveals the intricate ways in which this enduring and indelible sport—which is played on a field, under an open sky—has always been linked to nature and the seasons. And just as a haiku happens in a timeless now, so too does Baseball Haiku evoke those unforgettable images that capture the actions and atmospheres of the national pastime: each poem resonates like the lonely sound of cleats echoing in the tunnel as a grizzled veteran leaves his final game. The largest collection of haiku and senryu on baseball ever assembled, Baseball Haiku is an extraordinary treasure for any true baseball fan.

This annual report examines the major sectoral and geographical changes in the pattern of foreign direct investment (FDI) flows, particularly with regards to developing countries. After three years of decline in global investment flows, there are signs of revival in FDI, particularly in the services sector which makes up the largest economic sector in many countries. The 2004 edition looks at the shift towards services and examines the development challenges and opportunities likely to arise. The report is divided into three parts and considers a variety of issues including: regional FDI trends in Central and Eastern Europe, developing and developed countries; changing patterns of FDI in services, key players and driving forces, and the impact on host countries; the offshoring of

corporate service functions; national and international policy challenges both for host and home countries.

Successful economic development depends on a country's ability to attract foreign investment and mobilize its own resources. Success stories in an unforgiving global market are few, but this report examines a generation of investment promotion strategies, and shows how international production networks could point the way forward.

At the very start of South Africa's constitutional democracy, openness and transparency had a special place. Reacting against the secrecy of apartheid, the veils would be lifted in a newly open society. And indeed South Africa's access to information law--the Promotion of Access to Information Act, a direct result of the constitutional negotiations--is without parallel in the world. But bureaucracies and their cultures do not change easily. Habits of secrecy die hard and perhaps hardest where institutional capacity is low and organizational resources are scarce. Working against such obstacles, a few valiant organizations including the South African History Archive (SAHA) have been working to push back the entrenched modes of secrecy and instantiate the realm of open democracy. This book, edited by Kate Allan, tells and reflects upon that story. Drawing on the experience of SAHA, the chapters of Paper Wars will be the place to start for any serious scholar or dedicated activist seeking to understand the experience and place of South Africa in the global diffusion of freedom of information regimes. Despite having the law on their side, this book details the difficulties the information activists and requesters have encountered as they have attempted to put South Africa's constitutional right of access to information into practice. Containing essays and

case studies, the volume will stand as the record of the initial implementation (or lack thereof) of South Africa's right to know law.

Crik United Nations Publications

With the end of apartheid and the exciting, but elusive, advent of a new nation, South Africa is witness to the emergence of a new generation of oral historians whose aim is to develop a broader, more inclusive, and culturally sensitive understanding of the South African past. In a country still wounded by a legacy of racial discrimination, the retrieving of oral memories is a task more urgent than ever. Oral History in a Wounded Country shows how the cultural, political, socio-economic, and intellectual evolutions that gave birth to South Africa as we know it today affect the oral history process. It will help practitioners, whether they use oral history as one technique among others to gain a better knowledge of the past or envisage oral history as an academic discipline in its own right, to reflect critically on their practice and find better ways of handling the interview process. The challenge is to appreciate the complexity of South Africa's diverse histories, while being attentive to the dynamics of the interview and their effect on both interviewers' and interviewees' sense of identity.

Revised and updated, this second edition discusses first-line supervisors' management principles from a general management perspective. Covering a variety of topics—including fairness, business culture, leadership, and planning—the book acknowledges that all levels of management must be part of a strategic framework, but that responsibilities differ at various levels. Employment relations, as well as some contemporary issues that influence operational managers, are also discussed. ReadHowYouWant.com

Though Elvis Presley's music is widely credited as starting a sea change in American popular culture, his films are often dismissed as superficial. Beyond the formulaic plotlines and the increasingly weaker songs, however, the films are rich with resonance to the changing times in which they were produced (roughly 1955–1970). They were also a means by which Elvis communicated deeply felt autobiographical material to his fan base, although in the guise of lighthearted escapist fare. This work takes a new stand, maintaining that Elvis's 31 Hollywood features and two documentaries reveal a profound statement from the star and auteur. Analyzing each film in detail and exploring the body of work as a whole, Brode reveals the Elvis persona as a contemporary Candide, attempting to navigate an ever changing social and political landscape.
