Your guide to achieving success through optimizing strengths and reducing performance risks Scarecrow Press

• A guide to achieving success through optimising strengths and reducing performance risks • Written by experienced business professionals who founded a professional business strength assessment and development strategy • The book links research with a wealth of business expertise to help employees at various levels and capacities – employees, leaders, managers, coaches, facilitators, HR professionals and consultants. During the past two decades, research has linked personality strengths to a wide range of positive work and life outcomes, including wellbeing and stress management, motivation, creative problem-solving and improved relationships, self-confidence, career success and teamwork. It has also shown the importance of addressing performance risk areas to achieve the best possible outcomes. Risk areas such as overuse or inappropriate use of strengths, or weaker areas that can disrupt/derail performance, should also be addressed to optimise success. This handbook is a practical guide

to translating awareness from the Strengthscope® profile into behaviour change and successful results. It will also help readers improve their relationships with others through a better understanding of their strengths and performance risk areas. This book has been based on Brook's and Brewerton's Strengthscope® suite, an innovative strengths profiling system that helps improve performance. Backed by over 10 years of research, it is used by many leading organisations. The strategy helps people optimise their performance and energy by improving their understanding of:

- Unique strengths and how to optimise these to achieve exceptional results
- Risk areas to peak performance, together with powerful ways to reduce the impact of these
- Positive ways of working that will improve confidence, motivation and success in any situation
- How to strengthen relationships and work more better with people whose strengths are different from yours

By understanding and optimising their strengths, energising them and enabling them to do their best work, will help supercharge readers' performance. Harper Collins

This behind-the-scenes glimpse into the lives and accomplishments of fifty extraordinary actors of the silver screen, including Buster Keaton, Rudolph Valentino, Cary Grant, and

Chapters: 12 *Angry Men* (1957 film), *12 Angry Men* (1997 film), *200 Cigarettes*, A.I. Artificial Intelligence, *Annie Hall*, *An American Tail: The Treasure of Manhattan Island*, *Ash Wednesday* (2002 film), Chapter 27, *Crimes and Misdemeanors*, *East Side, West Side* (1949 film), *El Delivery*, *Exiled: A Law & Order Movie*, *Fall* (1997 film), *Hannah and Her Sisters*, *Keeping the Faith*, *La Soga*, *Life Is Hot in Cracktown*, *Life Without Soul*, *Manhattan* (film), *Melinda and Melinda*, *No Picnic*, *Orchids and Ermine*, *Park Row* (film), *Paternity* (film), *Peter and Vandy*, *Rockabye* (1986 film), *The Cats of Mirikitani*, *Tiny Furniture*. Excerpt: *Annie Hall* is a 1977 American romantic comedy directed by Woody Allen from his screenplay co-written with Marshall Brickman and produced by Charles H. Joffe. The director co-stars as Alvy Singer, who investigates the reasons for the failure of his relationship with the film's eponymous female lead (Diane Keaton). Allen has described the film as "a major turning point," which, unlike the farces and comedies that were his work to that point, introduced a level of seriousness where, he says, he "had the courage to abandon ... just clowning around and the safety of complete broad comedy. I said to myself, 'I think I will try and make some deeper film and not be as funny in the same way. And maybe there will be other values that will emerge, that will be interesting or nourishing for the audience.'" The film met widespread critical acclaim and, along with the 1978 Academy Award for Best Picture, won Oscars in three other categories: two for Allen (Best Director and, with Brickman, Best Original Screenplay), and Keaton for Best Actress. Its North American box office receipts of \$38,251,425 are fourth-best in the director's oeuvre when not adjusted for inflation. Often listed among the...

Counselor and The Group Chronicle Books

The first biography of a great television writer and the story of his magnum opus In early 1957, a low-budget black-and-white movie opened across the United States. Consisting of little more than a dozen men arguing in a dingy room, it was a failure at the box office and soon faded from view. Today, *12 Angry Men* is acclaimed as a movie classic, revered by the critics, beloved by the public, and widely performed as a stage play, touching audiences around the world. It is also a favorite of the legal profession for its portrayal of ordinary citizens reaching a just verdict and widely taught for its depiction of group dynamics and human relations. Few twentieth-century American dramatic works have had the acclaim and impact of *12 Angry Men*. Reginald Rose and the Journey of "12 Angry Men" tells two stories: the life of a great writer and the journey of his most famous work, one that ultimately outshined its author. More than any writer in the Golden Age of Television, Reginald Rose took up vital social issues of the day—from racial prejudice to juvenile delinquency to civil liberties—and made them accessible to a wide audience. His 1960s series, *The Defenders*, was the finest drama of its age and set the standard for legal dramas. This book brings Reginald Rose's long and successful career, its origins and accomplishments, into view at long last. By placing *12 Angry Men*

in its historical and social context—the rise of television, the blacklist, and the struggle for civil rights—author Phil Rosenzweig traces the story of this brilliant courtroom drama, beginning with the chance experience that inspired Rose, to its performance on CBS's Westinghouse Studio One in 1954, to the feature film with Henry Fonda. The book describes Sidney Lumet's casting, the sudden death of one actor, and the contribution of cinematographer Boris Kaufman. It explores the various drafts of the drama, with characters modified and scenes added and deleted, with Rose settling on the shattering climax only days before filming began. Drawing on extensive research and brimming with insight, this book casts new light on one of America's great dramas—and about its author, a man of immense talent and courage. Author royalties will be donated equally to the Feerick Center for Social Justice at Fordham Law School and the Justice John Paul Stevens Jury Center at Chicago-Kent College of Law.

Academy Award-winning director William Friedkin (b. 1935) is best known for his critically and commercially successful films *The French Connection* and *The Exorcist*. Unlike other film school-educated filmmakers of the directors' era, Friedkin got his start as a mailroom clerk at a local TV station and worked his way up to becoming a full-blown Hollywood filmmaker by his thirties. His rapid rise behind the camera from television director to Oscar winner came with self-confidence and unorthodox methods. Known for his gritty and auteurist style, Friedkin's films tell the story of a changing America upended by crime, hypocrisy, the occult, and amorality. Although his subsequent films achieved varying levels of success, his cultural impact is undeniable. *William Friedkin: Interviews* collects fifteen articles, interviews, and seminars spanning Friedkin's career. He discusses early influences, early successes, awards, and current projects. The volume provides coverage of his directorial process, beliefs, and anecdotes from his time serving as the creative force of some of the biggest films of the 1970s and beyond—from his early days in Chicago to his run-ins with Alfred Hitchcock to firing guns on set and witnessing an actual exorcism in Italy. Through previously unpublished and obscure interviews and seminars, the story of William Friedkin's work and life is woven together into a candid and concise impression for cinephiles, horror junkies, and aspiring filmmakers alike. Readers will gain insight into Friedkin's genius from his own perspectives and discover the thoughts and processes of a true maverick of American cinema.

The Next Generation The New Press

William Friedkin's film *Sorcerer* (1977) has been subject to a major re-evaluation in the last decade. A dark re-imagining of the French Director H.G. Clouzot's *Le Salaire de la Peur* (*The Wages of Fear*) (1953) (based on George Arnaud's novel); the film was a major critical and commercial failure on its initial release. Friedkin's work was castigated as an example of directorial hubris as it was a notoriously difficult production which went wildly over-budget. It was viewed at the time as the end of New Hollywood. However, within recent years, the film has emerged in the popular and scholarly consciousness from enjoying a minor, cult status to becoming subject to a full-blown critical reconsideration in which it has been praised a major work by a key American filmmaker.

This cutting-edge edited collection brings together 17 scholarly essays on two of cinema and television's most enduring and powerful themes: law and crime. With contributions by many of the most prominent scholars in law, sociology, criminology, and film, *Framing Law and Crime* offers a critical survey of a variety of genres and media, integrating descriptions of technique with critical analysis, and incorporating historical and socio-political critique. The first set of essays brings together accounts of the history of the Law and Cinema Movement; the groundbreaking genre of "post-apocalyptic fiction;" and the policy-setting genesis of a Canadian documentary. The second section of the book turns to the examination of a range of international or global films, with an eye to assessing the strengths, frailties, and possible functions of law, as depicted in fictional cinema. After an international focus in the second section, the third section focuses on law and crime in American film and television, inclusive of both fictional and documentary modes of narration. This section's expansion beyond film narratives to include television series attempts to broaden the scope of the edited collection, in terms of media discussed; it is also a nod to how the big screen, although still a dominant force in American popular culture, now has to compete, to some extent, with the small screen, for influence over the collective American popular cultural imaginary. The fourth section, titled brings together various chapters that attempt to instantiate how a "Gothic Criminology" could be useful, as an interpretative framework in analyzing depictions of law and crime in film and television. The fifth and final section covers issues of pedagogy, epistemology, and ethics in relation to moving images of law and crime. Merging wide-ranging analyses with nuanced scholarly interpretations, *Framing Law and Crime* examines key concepts and showcases original research reflecting the latest interdisciplinary trends in the scholarship of the moving image. It addresses, not only scholars, but also fans, and will heighten the appreciation of connoisseurs and newcomers to these topics alike.

Killing as punishment in the USA, whether ordained by lynch mob or by the courts, reflects a paradox of the American nation: liberal, pluralistic, yet prone to lethal violence. This book examines the encounter between the legal history of the death penalty in America and its cinematic representations, through a comprehensive narrative and historical view of films dealing with this genre, from the silent era to the present. It addresses central issues including racial prejudice and attitudes towards the execution of women, and discusses how cinema has chosen to deal with them. It explores how such films as Michael Curtiz's *20,000 Years in Sing Sing* and Fritz Lang's *The Fury*, Errol Morris's documentary *The Thin Blue Line*, John Singleton's *Rosewood* and Frank Darabont's death-row movie *The Green Mile*, have helped

to shape real historical developments and public perceptions by bringing into sharper relief the legal, social and cultural tensions associated with capital punishment. In the process, Yvonne Kozlovksy-Golan provides the reader with a superb understanding of the complexities of the death penalty through US history.

This book is a fresh approach to a calculus based, first course in probability and statistics, using R throughout to give a central role to data and simulation. The book introduces probability with Monte Carlo simulation as an essential tool. Simulation makes challenging probability questions quickly accessible and easily understandable. Mathematical approaches are included, using calculus when appropriate, but are always connected to experimental computations. Using R and simulation gives a nuanced understanding of statistical inference. The impact of departure from assumptions in statistical tests is emphasized, quantified using simulations, and demonstrated with real data. The book compares parametric and non-parametric methods through simulation, allowing for a thorough investigation of testing error and power. The text builds R skills from the outset, allowing modern methods of resampling and cross validation to be introduced along with traditional statistical techniques. Fifty-two data sets are included in the complementary R package *fosdata*. Most of these data sets are from recently published papers, so that you are working with current, real data, which is often large and messy. Two central chapters use powerful tidyverse tools (*dplyr*, *ggplot2*, *tidyr*, *stringr*) to wrangle data and produce meaningful visualizations. Preliminary versions of the book have been used for five semesters at Saint Louis University, and the majority of the more than 400 exercises have been classroom tested.

Containing over 200 films, this resource is ideal for students, teachers, and other viewers who are interested in using films to enhance their knowledge of American historical events and periods. Along with traditional historical categories, such as the two World Wars, the Civil War, and the Great Depression, the book emphasizes immigrant, multicultural, and women-centered films to portray the fullness of the American experience. It also analyzes representations of people and events across different films for a variety of viewpoints, and considers how films reconfigure a past era through the issues of the day in which they were produced. For ease of use, the book is organized into time periods. Each entry contains: •the setting •director •cast •credits •the year of production •distributor Ratings are supplied to identify audience-appropriateness. The detailed narrative supplies a brief plot summary along with a thesis supported by strong examples from the film, such as excerpts of dialogue and factual details from history. The entries encourage readers to view the film through the lens of history and to consider it within the larger nexus of films listed in that particular chapter. Frequently, the historical focus considers both the time period depicted in the film and the time period in which it was made. The running times provide readers with a quick access to key scenes for further study. Each entry also concludes with sources

for further reading, and indexes identify those films with multicultural and women's themes.

A Prince and a Pauper Jemmy, once a poor boy living on the streets, now lives in a castle. As the whipping boy, he bears the punishment when Prince Brat misbehaves, for it is forbidden to spank, thrash, or whack the heir to the throne. The two boys have nothing in common and even less reason to like one another. But when they find themselves taken hostage after running away, they are left with no choice but to trust each other.

William Friedkin CRC Press

"Beautifully written, painfully honest" first-person accounts of racial profiling, as experienced by twelve black men from all over America (Michelle Alexander, author of *The New Jim Crow*). In an era of contentious debate about controversial police practices and, more broadly, the significance of implications of race throughout American life, *12 Angry Men* is an urgent, moving, and timely book that exposes "a serious impediment to the collective American Dream of a colorblind society" (Pittsburgh Urban Media). In this "extraordinarily compelling" book, a dozen eloquent authors tell their own personal stories of being racially profiled. From a Harvard law school student tackled by a security guard on the streets of Manhattan, a federal prosecutor detained while walking in his own neighborhood in Washington, DC, and a high school student in Colorado arrested for "loitering" in the subway station as he waits for the train home, to a bike rider in Austin, Texas, a professor at a Big Ten university in Iowa, and the head of the ACLU's racial profiling initiative (who was pursued by national guardsmen after arriving on the red-eye in Boston's Logan airport), here are true stories of law-abiding Americans who also happen to be black men (Publishers Weekly).

The third edition of this text is expanded and embellished by the addition of chapters by noted group experts. It is logically organized into chapters that present the merits, rationale, dynamics, process and developmental tasks of group counseling. It discusses leader and member dynamics in depth, provides technical guidance for organizing and running groups, and gives special emphasis to the use of structured activities in groups and the relevance of family theory as a resource to group leaders. Readers will not only learn about groups but will learn how to lead groups. The group process model presented is explained clearly using language and diagrams that are easy to follow. The activities at the end of each chapter provide an experiential extension to the content so that readers can internalize and apply concepts. The book is intended to be a hands-on tool that will give credence to groups as a helping process in which clients learn to solve personal and interpersonal problems, learn and grow in personally meaningful ways.
