Crisi di impresa e autonomia contrattuale nei piani attestati e negli accordi di ristrutturazione Maggioli Editore

This book depicts the cultural imagination of the Italian-Jewish minority from the unification of the country to the end of the First World War. The creation of an Italian nation-state introduced new problems and new opportunities for its citizens. What did it mean for the Jewish minority? How could members of the minority combine and redefine Jewishness and Italianness in a radically new political and legal framework? Key concepts such as family, religion, nation, assimilation and – later – Zionism are observed as they shift and change over time. The interaction between the public and private spheres plays a pivotal role in the analysis, and the self-fashioning of Italian Jewish élites is read alongside the evolution of the cultural stereotypes typical of the time.

Reinterpreting the Italian national patriotic narrative through the eyes of the Jews, Carlotta Ferrara degli Uberti is able to unveil its less known layers and articulations, while at the same time offering a new perspective from which to read the modern Jewish experience in the Western World.

Sustainable Public Food Procurement (PFP) represents a key game changer for food systems transformation. It can influence both food consumption and food production patterns. It can deliver multiple social, economic and environmental benefits towards sustainable food systems for healthy diets. This publication aims to contribute to the improved understanding, dissemination and use of PFP as a development tool in particular in the case of school meals programmes. In Volume 1, researchers, policymakers and development partners can find evidence on how PFP can be used as a development tool and deliver multiple benefits for multiple beneficiaries. It argues that PFP can provide a market for local and smallholder farmers,

promote the conservation and sustainable use of agrobiodiversity, and improve the nutrition and health of children and communities. Volume 2 of this publication, available at <https://doi.org/10.4060/cb7969en>, presents further analysis of the instruments, enablers and barriers for PFP implementation. It also provides case studies with local, regional and national experiences from Africa, Asia, Europe and North and South America.

La pubblicazione ha lo scopo di offrire al lettore, nel complesso scenario della Pubblica Amministrazione, da un lato una panoramica ampia ed aggiornata della normativa vigente relativamente al tema delle “società in house” e, dall’altro, il “caso” di una società (Noveservizi S.r.l.) costituita da un’Azienda Sanitaria della Regione del Veneto. Dalla teoria alla pratica: in questa logica la pubblicazione assume la specificità di un manuale operativo di supporto a chi intendesse dare vita, specie nell’ambito della sanità pubblica, ad una organizzazione con le caratteristiche proprie di una “società in house”, intesa come società strumentale alla Pubblica Amministrazione. Ciò premesso, ben si comprende come questo lavoro, frutto della collaborazione fra avvocati esperti in diritto amministrativo e professionisti che hanno assistito il management di Noveservizi S.r.l. fin dal momento della sua costituzione, intenda catturare l’interesse di chi ricopre posizioni di responsabilità nell’ambito della Pubblica Amministrazione in generale e della sanità pubblica in particolare. La struttura del volume: PARTE PRIMA – PARTE GIURIDICO-NORMATIVA - I dati normativi e giurisprudenziali di base comunitaria e nazionale - La situazione attuale delle società in house per gli Enti locali - Le società strumentali. L’art. 13 del d.l. n. 223/2006 convertito in L. n. 248/2006 - Gli Amministratori delle società pubbliche - Le regole giuridiche dell’operato delle società in house PARTE SECONDA – IL CASO AZIENDALE - Lo statuto della società e il funzionamento del Consiglio di Amministrazione - La gestione delle risorse umane - Il funzionamento e l’organizzazione dell’Azienda

New Perspectives on Power and Political Representation from Ancient History to the Present Day offers a unique perspective on political communication between rulers and ruled from antiquity to the present day by putting the concept of representation center stage. It explores the dynamic relationship between elites and the people as it was shaped by constructions of self-representation and representative claims. The contributors to this volume – specialists in ancient, medieval, early-modern and modern history – move away from reductionist associations of political representation with formal aspects of modern, democratic, electoral, and parliamentary politics. Instead, they contend that the construction of political representation involves a set of discourses, practices, and mechanisms that, although they have been applied and appropriated in various ways in a range of historical contexts, has stood the test of time.

UNCITRAL Notes on Organizing Arbitral Proceedings Maggioli Editore

This second volume of ReConFort, published open access, addresses the decisive role of constitutional normativity, and focuses on discourses concerning the legal role of constitutional norms. Taken together with ReConFort I (National Sovereignty), it calls for an innovative reassessment of constitutional history drawing on key categories to convey the legal nature of the constitution itself (national sovereignty, precedence, justiciability of power, judiciary as constituted power). In the late 18th and early 19th centuries, constitutional normativity began to complete the legal fixation of the entire political order. This juridification in one constitutional text resulted in a conceptual differentiation from ordinary law, which extends to alterability and justiciability. The early expressions of this 'new order of the ages' suggest an unprecedented and irremediable break with European legal tradition, be it with British colonial governance or the French ancien régime. In fact, while the shift to constitutions as a hierarchically 'higher' form of positive law was a revolutionary change, it also drew upon old liberties. The American constitutional discourse, which was itself heavily influenced by British common law, in turn served as an inspiration for a variety

of constitutional experiments - from the French Revolution to Napoleon's downfall, in the halls of the Frankfurt Assembly, on the road to a unified Italy, and in the later theoretical discourse of twentieth-century Austria. If the constitution states the legal rules for the law-making process, then its Kelsenian primacy is mandatory. Also included in this volume are the French originals and English translations of two vital documents. The first - Emmanuel Joseph Sieyès' *Du Jury Constitutionnaire* (1795) - highlights an early attempt to reconcile the democratic values of the French Revolution with the pragmatic need to legally protect the Revolution. The second - the 1812 draft of the Constitution of the Kingdom of Poland - presents the 'constitutional propaganda' of the Russian Tsar Alexander I to bargain for the support of the Lithuanian and Polish nobility. These documents open new avenues of research into Europe's constitutional history: one replete with diverse contexts and national experiences, but above all an overarching motif of constitutional decisiveness that served to complete the juridification of sovereignty. Christos Yannaras Asian Development Bank

Basilio Petrà sees Christos Yannaras (b. 1935) as a philosopher and theologian whose refiguring, on the one hand, of Heidegger's refusal to define being in ontic terms and, on the other, of Wittgenstein's willingness to admit the inexpressible character of the mystical has led him to articulate a powerful vision of true human existence. This bold interpretation outlines the passage from an ontic 'mode of nature' governed by necessity to a 'mode of self-transcendence and self-offering' beyond the limitations of decay and death. In his native Greece, Yannaras revolutionised the way theology had been done for much of the twentieth century. This book examines the trajectory of Yannaras' thought from his initial encounter with Heidegger's philosophy to his formulation (via the tradition of the Greek Fathers) of a modern critical ontology. It is for both advanced students of philosophy and the growing scholarly audience interested in Yannaras' work. Written in accessible language that does not compromise intellectual rigour, it is the only survey of the development of Yannaras' philosophical thought as a whole.

Il Codice dei contratti pubblici annotato con la giurisprudenza è stato concepito come importante strumento di agevole consultazione per gli operatori che intendono individuare, per ciascuna disposizione del D.Lgs. 163/2006, la preziosa, ricca ed articolata interpretazione fornita dai giudici amministrativi. L'oggettiva complessità di questa materia, il suo peculiare tecnicismo, la consistenza degli interessi economici coinvolti ed i rilevanti profili di responsabilità per i soggetti impegnati nel ciclo della commessa pubblica, rendono oramai ineludibile la conoscenza non solo delle norme scritte ma pure del "diritto vivente". L'opera, che si presenta arricchita da utili richiami alle corrispondenti disposizioni attuative contenute nel Regolamento di cui al DPR 207/2010, in questa terza edizione tiene conto della più recente produzione giurisprudenziale e delle numerose ed importanti modifiche al Codice intervenute con la spending review (L.94/2012, L.135/2012), la legge anticorruzione (L.190/2012), i decreti "del fare" (L.98/2013), "destinazione Italia" (D.L. 145/2012) e la legge di stabilità 2014 (L.147/2013). L'indice analitico ragionato e, in appendice, il citato Regolamento e la prassi amministrativa completano il volume.

Governments, companies, environmental associations and citizens all over the European Union (EU) are struggling with large scale projects. On the one hand large scale projects can contribute to economic development, on the other hand they often also raise environmental concerns. Because of their size and potential impact, large scale projects usually lead to heavy debates and quickly become of great symbolic value. Consequently, large scale projects are excellent examples of the difficulty to balance economic development with environmental protection. The types of large scale projects, planned as well as 'under construction' in the EU, are very diverse. One can think of all kinds of infrastructure projects (motorways, railways, waterways, stations, ports, airports, ...), building projects (offices, housing projects, sports stadiums, redevelopment of brownfields, ...), waste projects (incineration, landfill, ...), energy projects (electricity and gas networks, wind farms, biogas installations, heat networks, extraction projects, ...), climate projects (CDM projects, ...), water projects, etc. In order to promote the legal thinking about all kinds of environmental and planning law

aspects of large scale projects, Hasselt University and KU Leuven, Campus Brussels jointly hosted from 10 to 12 September 2014 the second European Environmental Law Forum (EELF) Conference, with as central topic *Environmental and Planning Law Aspects of Large Scale Projects*". The conference focused more specifically on the following aspects: -The role of spatial and environmental planning -Permitting and review procedures - Critical sectoral regimes -Horizontal measures. This book offers a selection of the contributions presented at the EELF Conference. They have all been submitted to two double-blind peer reviews. The book is subdivided into six main themes: 1. General 2. Public participation 3. Environmental impact assessment 4. Water 5. Nature 6. Land use."

La guida fa il punto della situazione sulle diverse novità introdotte nell'ambito dei Dichiarativi 2012. Nel Modello UNICO PF si va dalla cedolare secca sugli affitti nel Quadro RB, alle modifiche del 36% e alla proroga del 55% nel Quadro RP. Nel Modello UNICO SP 2012, invece, vanno sottolineati i diversi interventi normativi nei quadri RF, RQ, RS, RU. Per quanto concerne il Modello UNICO SC 2012, troviamo diversi interventi normativi, ad esempio, in merito alla riportabilità delle perdite di esercizio e alle imposte sostitutive sulla riorganizzazione dei fondi comuni d'investimento immobiliare chiusi. Le maggiori novità del Modello Irap 2012, derivano dalle modifiche legislative introdotte con il D.L. n. 98/2011 e, tra queste, un certo rilievo è assunto anche dalla previsione di nuove aliquote di settore applicabili nella fase della concreta liquidazione dell'imposta regionale sulle attività produttive, le quali vanno a cumularsi con una serie di specificità cui vanno incontro, da qualche anno, i contribuenti in relazione all'ambito regionale. Per quanto riguarda il Modello Dichiarazione IVA, sono state indicate le novità inerenti i contribuenti minimi, nonché la nuova Sezione 3 del Quadro VA, dal rigo VA20 al rigo VA26 che è riservata all'indicazione, facoltativa, degli estremi identificativi dei rapporti finanziari con banche o poste da imprese o professionisti. Detta sezione, accoglie dunque la novella prevista dall'art. 2, comma 36-vicies ter, del D.L. n. 138/2011. Lo stesso Modello Unico ENC ed equiparati ha visto l'introduzione di alcune modifiche, incominciando dal frontespizio del Modello sino ai quadri RQ, RF, RM, RT. In ultimo, anche per i soggetti che

compilano il Modello 730, è stata fornita una panoramica delle diverse novità che hanno interessato l'aggiornamento per il periodo di imposta 2011, tratteggiando con casi pratici la redazione dello stesso. This interim report of the OECD/G20 Inclusive Framework on BEPS is a follow-up to the work delivered in 2015 under Action 1 of the BEPS Project on addressing the tax challenges of the digital economy. It sets out the Inclusive Framework's agreed direction of work on digitalisation and the international tax rules through to 2020. It describes how digitalisation is also affecting other areas of the tax system, providing tax authorities with new tools that are translating into improvements in taxpayer services, improving the efficiency of tax collection and detecting tax evasion.

Reconsidering Constitutional Formation II Decisive Constitutional Normativity Maggioli Editore

This book investigates one concrete compounding pattern in present-day Italian within a larger overview of Italian compounding. Various accounts and classifications of Noun + Noun combinations in Italian are reviewed, with special focus on the status of the lexical integrity hypothesis. The author sets out to propose an integrated approach to the Noun + Noun compounding pattern, rigorously based on large representative data sets that were extracted from the Italian web corpus ItWaC as both automatically and manually post-processed frequency lists. On the basis of such data, it is aimed to show the behaviour of various subtypes of Noun + Noun compounds. Starting out with the Bisetto-Scalise classification, the author carefully examines the status of coordinate compounds, ATAP compounds (i.e., the group comprising attributive and appositive structures) and subordinate compounds (comprising verbal-nexus and grounding compounds), discussing both theoretical and empirical implications of this classification scheme. Moreover, the original Bisetto-Scalise model is supplemented with further classification levels in order to capture specific compounding types such as relational (i.e. inherently trinominal) compounds. A major merit of the present study lies in the quantitative dimension of the data it deals with. In light of this data, the author emphasizes the gradient nature of the traditional dichotomy between syntax and compounding. The book will thus appeal not only to the linguists interested specifically in Italian word-formation, but also to a larger community of scholars who seek a more general view of the word-formation phenomena.
