'A brilliant, unlikely book' Spectator How can we celebrate, challenge and change our remarkable world? In 2012, the world arrived in London for the Olympics...and Ann Morgan went out to meet it. She read

her way around all the globe's 196 independent countries (plus one extra), sampling one book from every nation. It wasn't easy. Many languages have next to nothing translated into English; there are tiny, tucked-away places where very little is written down; some governments don't like to let works of art escape their borders. Using Morgan's own quest as a starting point, *Reading the World* explores the vital questions of our time and how reading across borders might just help us answer them. 'Revelatory... While Morgan's research has a daunting range...there is a simple message: reading is a social activity, and we ought to share books across boundaries' Financial Times

Americans precede anything negative with three nice comments; French, Dutch, Israelis, and Germans get straight to the point; Latin Americans and Asians are steeped in hierarchy; Scandinavians think the best boss is just one of the crowd. It's no surprise that when they try and talk to each other, chaos breaks out. In *The Culture Map*, INSEAD professor Erin Meyer is your guide through this subtle, sometimes treacherous terrain in which people from starkly different backgrounds are expected to work harmoniously together. She provides a field-tested model for decoding how cultural differences impact

The acclaimed debut novel by the author of *Little Fires Everywhere* and *Our Missing Hearts* “A taut tale of ever deepening and quickening suspense.” —O, the Oprah Magazine “Explosive . . . Both a propulsive mystery and a profound examination of a mixed-race family.” —Entertainment Weekly “Lydia is dead. But they don’t know this yet.” So begins this exquisite novel about a Chinese American family living in 1970s small-town Ohio. Lydia is the favorite child of Marilyn and James Lee, and her parents are determined that she will fulfill the dreams they were unable to pursue. But when Lydia’s body is found in the local lake, the delicate balancing act that has been keeping the Lee family together is destroyed, tumbling them into chaos. A profoundly moving story of family, secrets, and longing, *Everything I Never Told You* is both a gripping page-turner and a sensitive family portrait, uncovering the ways in which mothers and daughters, fathers and sons, and husbands and wives struggle, all their lives, to understand one another.

World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine “smart factories” in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution,

says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress. **Everything I Never Told You** Penguin NATIONAL BOOK AWARD WINNER • “Altogether gripping, shocking, and brilliantly told, not just a tour de force in its stylistic range, but a great American novel, as powerful a reading experience as nearly any in our literature.”—Michael Dirda, *The New York Review of Books* *Killing Mister Watson*, *Lost Man’s River*, and *Bone by Bone*—Peter Matthiessen’s great American epic about Everglades sugar planter and notorious outlaw E. J. Watson on the wild Florida frontier at the turn of the twentieth century—were originally conceived as one vast, mysterious novel. Now, in this bold new rendering, Matthiessen has marvelously distilled a monumental work while deepening the insights and motivations of his characters with brilliant rewriting throughout. Praise for *Shadow Country* “Magnificent . . . breathtaking . . . Finally now we have [this three-part saga] welded like a bell, and with *Watson’s* song the last sound, all the elements fuse and resonate.”—Los Angeles Times “Peter Matthiessen has done great things with the *Watson* trilogy. It’s the story of our continent, both land and people, and his writing does every justice to the blood fury of his themes.”—Don DeLillo “The fiction of Peter Matthiessen is the reason a lot of people in my generation decided to be writers. No doubt about it. *Shadow Country* lives up to anyone’s highest expectations for great writing.”—Richard Ford “*Shadow Country*, Matthiessen’s distillation of the earlier *Watson* saga, represents his original vision. It is the quintessence of his lifelong concerns, and a great legacy.”—W. S. Hanna Walsh's husband is found murdered in Charleston, South Carolina. His failed land deal leaves her family and finances in ruins. The FBI thinks she knows more than she's letting on and a dangerous crime family thinks she's hiding several million dollars they want back. An old letter and journal found in the attic of the family's beach house on Pawleys Island reveals her distant grandmother, who owned the same house as a young widow during the Civil War, suffered a similar path of emotional loss, crushing betrayal and financial hardship. Her grandmother's story chronicles the tragic loss of her husband in a senseless battle fought weeks after the war had ended and a mysterious stranger who has returned to tell of her husband's needless death. Hanna finds their hopes for deliverance both depend on those they still hold close, but betrayal and ultimate salvation come in many unexpected forms. Michael Lindley's new fourth novel continues his tales of love and life struggles with parallel storylines set in both present-day and compelling historical contexts. His first novel, *THE SEASONS OF THE EMMALEE* has been an Amazon Kindle #1 selection for Historical Fiction, Mystery and Suspense, as well as Women's Fiction. A “fascinating” journey to little-known and contested lands around the globe, from Tibet to the Isle of Man to Elgaland-Vargaland (*Geographical Magazine*). What is a country? Acclaimed travel writer and Oxford geography don Nick Middleton brings to life the origins and histories of fifty states that, lacking international recognition and United Nations membership, exist on the margins of legitimacy in the global order. From long-

contested lands like Crimea and Tibet to lesser-known territories such as Africa's last colony and a European republic that enjoyed independence for a single day, Middleton presents fascinating stories of shifting borders, visionary leaders, and "forgotten" peoples. "Engrossing . . . You'll not find Middle-earth, Atlantis or Lilliput inside, but you will find something just as intriguing . . . sure to prompt discussions about what makes a country a 'real country.'" —Seattle Times

THE NEW YORK TIMES BESTSELLING AUTHOR 'A dystopian odyssey through the dark authoritarian landscape of the modern world' The Times To be born American in the late twentieth century was to take the fact of a particular kind of American exceptionalism as granted - a state of nature arrived at after all else had failed. In the span of just thirty years, this assumption would come crashing down. After the fall, we must determine what it means to be American again. In 2017, as Ben Rhodes was helping Barack Obama begin his next chapter, the legacy they worked to build for eight years was being taken apart. To understand what was happening in America, Rhodes decided to look outwards. Over the next three years, he travelled to dozens of countries, meeting with politicians, activists, and dissidents confronting the same nationalism and authoritarianism that was tearing America apart. Along the way, a Russian opposition leader he spends time with is poisoned, the Hong Kong protesters he comes to know see their movement snuffed out, and America itself reaches the precipice of losing democracy before giving itself a second chance. After the Fall is a hugely ambitious and essential work of discovery. Throughout, Rhodes comes to realize how much America's fingerprints are on a world it helped to shape: through the excesses of the post-Cold War embrace of unbridled capitalism, post-9/11 nationalism and militarism, mania for technology and social media, and the racism that shaped the backlash to the Obama presidency. At the same time, he learns from a diverse set of characters - from Obama to rebels to a rising generation of leaders - how looking squarely at where America has gone wrong only makes it more essential to fight for what America is supposed to be - for itself, and for the entire world.

**Factfulness** Lonely Planet

A New York Times bestseller! A pioneering and timely study of how to navigate life's biggest transitions with meaning, purpose, and skill Bruce Feiler, author of the New

York Times bestsellers *The Secrets of Happy Families* and *Council of Dads*, has long explored the stories that give our lives meaning. Galvanized by a personal crisis, he spent the last few years crisscrossing the country, collecting hundreds of life stories in all fifty states from Americans who'd been through major life changes—from losing jobs to losing loved ones; from changing careers to changing relationships; from getting sober to getting healthy to simply looking for a fresh start. He then spent a year coding these stories, identifying patterns and takeaways that can help all of us survive and thrive in times of change. What Feiler discovered was a world in which transitions are becoming more plentiful and mastering the skills to manage them is more urgent for all of us. The idea that we'll have one job, one relationship, one source of happiness is hopelessly outdated. We all feel unnerved by this upheaval. We're concerned that our lives are not what we expected, that we've veered off course, living life out of order. But we're not alone. *Life Is in the Transitions* introduces the fresh, illuminating vision of the nonlinear life, in which each of us faces dozens of disruptors. One in ten of those becomes what Feiler calls a lifequake, a massive change that leads to a life transition. The average length of these transitions is five years. The upshot: We all spend half our lives in this unsettled state. You or someone you know is going through one now. The most exciting thing Feiler identified is a powerful new tool kit for navigating these pivotal times. Drawing on his extraordinary trove of insights, he lays out specific strategies each of us can use to reimagine and rebuild our lives, often stronger than before. From a master storyteller with an essential message, *Life Is in the Transitions* can move readers of any age to think deeply about times of change and how to transform them into periods of creativity and growth.

gripping and poignant ode to a messy, loving family in all its glory." —Madeline Miller, bestselling author of *Circe* In this "rich, complex family saga" (USA Today) full of long-buried family secrets, Marilyn Connolly and David Sorenson fall in love in the 1970s, blithely ignorant of all that awaits them. By 2016, they have four radically different daughters, each in a state of unrest. Wendy, widowed young, soothes herself with booze and younger men; Violet, a litigator turned stay-at-home-mom, battles anxiety and self-doubt; Liza, a neurotic and newly tenured professor, finds herself pregnant with a baby she's not sure she wants by a man she's not sure she loves; and Grace, the dawdling youngest daughter, begins living a lie that no one in her family even suspects. With the unexpected arrival of young Jonah Bendt—a child placed for adoption by one of the daughters fifteen years before—the Sorensens will be forced to reckon with the rich and varied tapestry of their past. As they grapple with years marred by adolescent angst, infidelity, and resentment, they also find the transcendent moments of joy that make everything else worthwhile.

Global poverty, Paul Collier points out, is actually falling quite rapidly for about eighty percent of the world. The real crisis lies in a group of about 50 failing states, the bottom billion, whose problems defy traditional approaches to alleviating poverty. In *The Bottom Billion*, Collier contends that these fifty failed states pose the central challenge of the developing world in the twenty-first century. The book shines a much needed light on this group of small nations, largely unnoticed by the industrialized West, that are dropping further and further behind the majority of the world's people, often falling into an

absolute decline in living standards. A struggle rages within each of these nation between reformers and corrupt leaders-- and the corrupt are winning. Collier analyzes the causes of failure, pointing to a set of traps that snare these countries, including civil war, a dependence on the extraction and export of natural resources, and bad governance. Standard solutions do not work against these traps, he writes; aid is often ineffective, and globalization can actually make matters worse, driving development to more stable nations. What the bottom billion need, Collier argues, is a bold new plan supported by the Group of Eight industrialized nations. If failed states are ever to be helped, the G8 will have to adopt preferential trade policies, new laws against corruption, and new international charters, and even conduct carefully calibrated military interventions. As former director of research for the World Bank and current Director of the Center for the Study of African Economies at Oxford University, Paul Collier has spent a lifetime working to end global poverty. In *The Bottom Billion*, he offers real hope for solving one of the great humanitarian crises facing the world today.

[The Hill We Climb](#) David Goggins Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons.

"Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the

cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.
