Diverse learners with exceptional needs require a specialized curriculum that will help them to develop socially and intellectually in a way that traditional pedagogical practice is unable to fulfill. As educational technologies and theoretical approaches to learning continue to advance, so do the opportunities for exceptional children. *Special and Gifted Education: Concepts, Methodologies, Tools, and Applications* is an exhaustive compilation of emerging research, theoretical concepts, and real-world examples of the ways in which the education of special needs and exceptional children is evolving. Emphasizing pedagogical innovation and new ways of looking at contemporary educational practice, this multi-volume reference work is ideal for inclusion in academic libraries for use by pre-service and in-service teachers, graduate-level students, researchers, and educational software designers and developers.

Concepts and Challenges in Sciences Routledge

Note: This is the loose-leaf version of Social Studies in Elementary Education and does not include access to the Enhanced Pearson eText. To order the Enhanced Pearson eText packaged with the loose-leaf version, use ISBN 0134043154. The most popular elementary social studies methods text on the market, this comprehensive, stimulating introduction to social studies in elementary and middle schools presents the elements of a strong social studies curriculum, explains effective teaching methods, and presents a wealth of field-tested examples, exercises, activities, and lesson plans that bring the subject matter to life. It presents critically important ideas and sometimes-complex methods in a clear, straightforward, accessible manner, while focusing on teaching to help K-8 students develop social understanding and the ability to think and act as democratic citizens in a multicultural society. Beginning and new teachers get the understanding and tools they need to unleash their intelligence and creativity on the subject area, and see how they can make social studies a subject that students anticipate and enjoy and that gives purpose and context to reading, writing, science, and math. While continuing to blend theory and practice, this new edition of Social Studies in Elementary Education brings the book into the digital age, emphasizing teaching social studies well and stressing understanding of the practices of good social studies teaching. The key revisions include features that focus on reflection and discussion, issues and challenges, standards, learning to question, differentiated instruction, trends affecting school today, teaching in diverse classrooms, Response to Intervention (RTI), maps and mapping, using digital resources effectively in teaching, and selecting and using children's literature. The Enhanced Pearson eText features embedded videos and assessments. Improve mastery and retention with the Enhanced Pearson eText* The Enhanced Pearson eText provides a rich, interactive learning environment designed to improve student mastery of content. The Enhanced Pearson eText is: Engaging. The new interactive, multimedia learning features were developed by the

authors and other subject-matter experts to deepen and enrich the learning experience. Convenient. Concepts, Methodologies, Tools, and Applications IGI Global

This proceedings volume provides a fresh perspective on current challenges in cooperation and competition in the age of Industry 4.0. Featuring selected papers from the 10th Conference on Management of Organizations' Development (MOD) held in Zamek Gniew, Poland, this volume extends the knowledge of cooperation and competition, presents analytic tools used in the research, considers the potential impact of Industry 4.0 on collaboration, and provides recommendations for managerial practice. Interorganizational relations have been a relevant topic in the management sciences in recent years. Globalization, social, cultural, and technological progress are among the factors shaping the environment for collaboration, determining the conditions for development and defining a set of new challenges that managers have to face in today's knowledge-based economy. This book, therefore, explores emerging problems of organizational development in the light of the needs and challenges of Industry 4.0. Combining the latest theory and practice, the volume provides a realistic outlook on the network economy and interdependencies both within and between sectors.

Special Education in Today's Schools, Enhanced Pearson EText -- Access Card Elsevier Health Sciences

This volume offers a wide range of approaches for framing and addressing issues which currently shape global education. The discussions here are constructed around four research themes which reflect current strategic research priorities in Australian education. Together, they form a more rounded framework for approaching and evaluating educational changes and developments. The collection is made up of collaborative research that emerged between researchers and Master's coursework students in the Department of Education at Charles Darwin University, Australia. The original approach this collaboration of research adopted was developed in response to the challenges currently being experienced by higher education institutions both in Australia and around the world, which are now redesigning research and coursework programmes to address the quality of the services that they provide. This book will appeal to educators, researchers and postgraduate students.

Modern Management Aqs Secondary

This book contains a selection of articles from The 2016 World Conference on Information Systems and Technologies (WorldCIST'16), held between the 22nd and 24th of March at Recife, Pernambuco, Brazil. WorldCIST is a global forum for researchers and practitioners to present and discuss recent results and innovations, current trends, professional experiences and challenges of modern Information Systems and Technologies research, together with their technological development and applications. The main topics covered are: Information and Knowledge Management; Organizational Models and Information Systems; Software and Systems Modeling; Software Systems, Architectures, Applications and Tools; Multimedia Systems and Applications; Computer Networks, Mobility and Pervasive Systems; Intelligent and Decision Support Systems; Big Data Analytics and Applications; Human-Computer Interaction; Health Informatics; Information Technologies in Education; Information Technologies in Radiocommunications.

Best Practices IGI Global

As marketing professionals look for ever more effective ways to promote their goods and services to customers, a thorough understanding of customer needs and the ability to predict a target audience's reaction to advertising campaigns is essential. Marketing and Consumer Behavior: Concepts, Methodologies, Tools, and Applications explores cutting-edge advancements in marketing strategies as well as the development and design considerations integral to the successful analysis of consumer trends. Including both in-depth case studies and theoretical discussions, this comprehensive four-volume reference is a necessary resource for business leaders and marketing managers, students and educators, and advertisers looking to expand the reach of their target market.

A Concept-Based Approach to Learning, Volume 3 - Revised 2nd Edition IGI Global

Educators play a significant role in the intellectual and social development of children and young adults. Next-generation teachers can only be as strong as their own educational foundation which serves to cultivate their knowledge of the learning process, uncover best practices in the field of education, and employ leadership abilities that will inspire students of all ages. Teacher Education: Concepts, Methodologies, Tools, and Applications explores the current state of pre-service teacher programs as well as continuing education initiatives for in-service educators. Emphasizing the growing role of technology in teacher skill development and training as well as key teaching methods and pedagogical developments, this multi-volume work compiles research essential to higher education professionals and administrators, educational software developers, and researchers studying pre-service and in-service teacher training.
