Coverage in this proceedings volume includes data mining and knowledge discovery, wireless, sensor networks and grid, XML and query processing and optimization, security, information extraction, semantic Web and Web applications, and workflow and middleware.

Building and Engineering News Springer

This book shares the latest market developments and advances in natural gas demand, supply, transmission, distribution, and consumption, with a special emphasis on the Indian context. Chapters are written by researchers and industry professionals working in the field of natural gas and energy to provide deeper insights into natural gas market structure, market development, business opportunities and market growth. Topics covered include, natural gas demand-supply, exploration and production policy, downstream regulatory developments, city gas distribution, pipeline, pricing, and taxation policies impacting natural gas market developments in India. The book will be useful to researchers, professionals, and policy makers working in the area of natural gas and related fields.
