Lake Fly-Fishing Manifesto John Wiley & Sons

This book describes the living-room artifacts, clothing styles, and intellectual proclivities of American classes from top to bottom.

**Our Southern Highlanders** Frank Amato Publications

Winner of the 1964 Pulitzer Prize in Nonfiction *Anti-Intellectualism in American Life* is a book which throws light on many features of the American character. Its concern is not merely to portray the scorers of intellect in American life, but to say something about what the intellectual is, and can be, as a force in a democratic society. "As Mr. Hofstadter unfolds the fascinating story, it is no crude battle of eggheads and fatheads. It is a rich, complex, shifting picture of the life of the mind in a society dominated by the ideal of practical success." —Robert Peel in the *Christian Science Monitor*

**Implementing Value Pricing** Lyons Press

A tactical guide to fly-fishing for trout with streamers, including tying instructions for 38 original patterns invented by the author. *Eliza Calvert Hall* Simon and Schuster

Grace believed she went from losing it all to having it all. In a desperate attempt to put her life back together, Grace, divorced and jobless, leaves Tucson to return to Chicago—a place she never planned to call home again. She also never planned to fall for Benjamin Hayward. Drawn into the fairytale existence of his power and wealth, Grace is unable to see what her family and friends see, and ignores the warning signs of Dr. Benjamin Hayward's dark side. Benjamin's secrets—the death of his mentally ill wife and the disappearance of his daughter—push Grace into an abyss deeper than the one that brought her home in the first place, and she risks losing even more. *Pieces of Grace* is a complicated story of relationships confused by undercurrents of

mental illness. Readers find themselves hoping family and friends can carry Grace through her most difficult moments.

*Freedom by the Sword* Springer Science & Business Media

A groundbreaking contribution to the history of the "long Civil Rights movement," Hammer and Hoe tells the story of how, during the 1930s and 40s, Communists took on Alabama's repressive, racist police state to fight for economic justice, civil and political rights, and racial equality. The Alabama Communist Party was made up of working people without a Euro-American radical political tradition: devoutly religious and semiliterate black laborers and sharecroppers, and a handful of whites, including unemployed industrial workers, housewives, youth, and renegade liberals. In this book, Robin D. G. Kelley reveals how the experiences and identities of these people from Alabama's farms, factories, mines, kitchens, and city streets shaped the Party's tactics and unique political culture. The result was a remarkably resilient movement forged in a racist world that had little tolerance for radicals. After discussing the book's origins and impact in a new preface written for this twenty-fifth-anniversary edition, Kelley reflects on what a militantly antiracist, radical movement in the heart of Dixie might teach contemporary social movements confronting rampant inequality, police violence, mass incarceration, and neoliberalism.

**American Fascists** Fortress Press

*Covert Plants* contributes to newly emerging discourses on the implications of vegetal life for the arts and culture. This stretches to changes in our perception of 'nature' and to the adapting roles of botany, evolutionary ecology, and environmental aesthetics in the humanities. Its editors and contributors seek various expressions of vegetal life rather than the mere representation of such, and they proceed from the conviction that a rigorous approach to thinking with and through vegetal life must be interdisciplinary. At a time when urgent calls for restorative care and reparative action have been sounded for the environment, this essay volume presents a range of academic and creative

perspectives, from evolutionary biology to literary theory, philosophy to poetry, which respond to the perplexing problems and paradoxes of vegetal thinking. Representations of vegetal life often include plant analogies and plant imagery. These representations have at times obscured the diversity of plant behavior and experience. *Covert Plants* probes the implications of vegetal life for thought and how new plant science is changing our perception of the vegetal - around us and in us. How can we think, speak, and write about plant life without falling into human-nature dyads, or without tumbling into reductive theoretical notions about the always complex relations between cognition and action, identity and value, subject and object? A full view of this shifting perspective requires a 'stereoscopic' lens through which to view plants, but also simultaneously to alter our human-centered viewpoint. Plants are no longer the passive object of contemplation, but are increasingly resembling 'subjects,' 'stakeholders,' or 'actors.' As such, the plant now makes unprecedented demands upon the nature of contemplation itself. Moreover, the aesthetic, political, and legal implications of new knowledge regarding plants' ability to communicate, sense, and learn require intensive, cross-disciplinary investigation. By doing this, we can intervene into current attitudes to climate change and sustainability, and hopefully revise, for the better, human philosophies, ethics, and aesthetics that touch upon plant life.

TABLE OF CONTENTS// Baylee Brits and Prudence Gibson, "Introduction: Covert Plants" - Prudence Gibson and Michael Marder, "Art Expresses Its Own Appearance: A Conversation with Michael Marder" - Prudence Gibson, "The Colour Green" - Baylee Brits, "Brain Trees: Neuroscientific Metaphor and Botanical Thought" - Dalia Nassar, "Metaphoric Plants: Goethe's Metamorphosis of Plants and the Metaphors of Reason" - Stephen Muecke, "Mixed up with Trees: The Gadgur and the Dreaming" - Monica Gagliano, "Eco-psychology and the Return to the Dream of Nature" - Suzanne Anker, "The Blue Rose" - Susie Pratt, "Trees as Landlords and Other Public Experiments: An Interview with Natalie

Jeremijenko" - Tessa Laird, "Spores from Space: Becoming the Alien" - Jennifer Mae Hamilton, "Gardening After the Anthropocene: Creating Different Relations between Humans and Edible Plants in Sydney" - Lucas Ihlein, "Agricultural Inventiveness: Beyond Environmental Management?" - Andrew Belletty, "An Ear to the Ground" - Ben Woodard, "Continuous Green Abstraction: Embodied Knowledge, Intuition, and Metaphor" - Lisa Dowdall, "Figures" - Poems by Luke Fischer, Justin Clemens, Paul Dawson, and Tamryn Bennett.

The Red Network; A Who's Who and Handbook of Radicalism for Patriots University of Chicago Press

Praise for IMPLEMENTING VALUE PRICING A Radical Business Model for Professional Firms "Ron Baker is the most prolific and best writer when it comes to pricing services. This is a must-read for executives and partners in small to large firms. Ron provides the basics, the advanced ideas, the workbooks, the case studies everything. This is a must-have and a terrific book." Reed K. Holden founder and CEO, Holden Advisors, Corp., Associate Professor, Columbia University [www.holdenadvisors.com](http://www.holdenadvisors.com) "We've known through Ron Baker's earlier books that he's not just an extraordinary thinker and truly brilliant writer he's a mover and a shaker on a mission. This is the End of Time! Brilliant." Paul Dunn Chairman, B1G1® [www.b1g1.com](http://www.b1g1.com) "Implementing Value Pricing is a powerful blend of theory, strategy, and tactics. Ron Baker's most recent offering is ambitious in scope, exploring topics that include economic theory, customer orientation, value identification, service positioning, and pricing strategy. He weaves all of them together seamlessly, and includes numerous examples to illustrate his primary points. I have applied the knowledge I've gained from his body of work, and the benefits to me and to my customers have been immediate, significant, and ongoing." Brent Uren Principal, Valuation & Business Modeling Ernst & Young® [www.ey.com](http://www.ey.com) "Ron Baker is a revolutionary. He is on a radical crusade to align the interests of service providers with those of their customers by having lawyers, accountants, and consultants charge based on the value they provide, rather than the effort it takes. Implementing Value Pricing is a manifesto that establishes a clear case for the revolution. It provides detailed guidance that includes not only strategies and tactics, but key predictive indicators for success. It is richly illustrated by the successes of firms that have embraced value-based pricing to

make their services not only more cost-effective for their customers, but more profitable as well. The hallmark of a manifesto is an unyielding sense of purpose and a call to action. Let the revolution begin." Robert G. Cross, Chairman and CEO, Revenue Analytics, Inc. Author, Revenue Management: Hard-Core Tactics for Market Domination

**Happily Ever After: Companion to the Selection Series**  
Rowman & Littlefield

Amateur or expert, every angler dreams of landing "the big one," but that's only part of the appeal of fly fishing. Because even when hours pass without a bite, nothing beats the rugged beauty of the surroundings. For both armchair travelers and avid outdoorsmen who may have already started a checklist of their own, Fifty Places to Fly Fish Before You Die maps out the meccas of the fly-fishing world. Through in-depth interviews with the sport's acknowledged gurus, author Chris Santella goes beyond standard guides to convey the very essence of the recommended locations. Readers can vicariously cast mouse pattners to fifty-pound taimen in the wilds of Mongolia, wrangle with wily permit off the Florida Keys, and match the hatch on Montana's Armstrong's Spring Creek. Jardines de la Reina, Cuba (tarpon), the Zhupanova River, Kamchatka (rainbow trout), and the Rio Negro, Brazil (peacock bass) are also included. The essays include a cultural and natural history of each site, along with colorful anecdotes based on the author's and authorities' experiences. With breath-takingly-beautiful photos of the spots, many by celebrated fly-fishing photographer R. Valentine Atkinson, the book also provides adventurous anglers with enough travel-and-tackle information so that they, too, can start planning excursions to go fish around the globe.

The Goodriches Patagonia

"How do we become who we are in the world? We ask the world to teach us." On her 120-acre homestead high in the Colorado Rockies, beloved writer Pam Houston learns what it means to care for a piece of land and the creatures on it. Elk calves and bluebirds mark the changing seasons, winter temperatures drop to 35 below, and lightning sparks a 110,000-acre wildfire, threatening her century-old barn and all its inhabitants. Through her travels from the Gulf of Mexico to Alaska, she explores what ties her to the earth, the ranch most of all. Alongside her devoted Irish wolfhounds and a spirited troupe of horses, donkeys, and

Icelandic sheep, the ranch becomes Houston's sanctuary, a place where she discovers how the natural world has mothered and healed her after a childhood of horrific parental abuse and neglect. In essays as lucid and invigorating as mountain air, Deep Creek delivers Houston's most profound meditations yet on how "to live simultaneously inside the wonder and the grief...to love the damaged world and do what I can to help it thrive."

**The Orvis Guide to Beginning Fly Fishing** Franklin Classics  
In 1907, author, poet, essayist, and folk art historian Eliza Calvert Hall (1856-1935) published Aunt Jane of Kentucky, a collection of stories about rural life infused with the spirit and gentle good humor of its elderly narrator, Aunt Jane. The book and several sequels achieved wide popularity, reaching an estimated one million readers in her lifetime, and placed Hall in the front ranks of "local color" fiction writers of her time. Eliza Calvert Hall's life and work unfolded during a time of restlessness and change for American women. Born Eliza "Lida" Calvert in Bowling Green, Kentucky, Hall experienced the upheaval of both the Civil War and family scandal. Forced to help support her mother and four siblings by teaching school, she became a published poet, adopting her grandmother's name, Hall, as her pseudonym. At twenty-nine, she married William A. Obenchain, and in the space of eight years gave birth to four children. As Hall struggled to balance her writing career with the duties of a nineteenth-century wife and mother, suffragist Laura Clay was lobbying for every woman's right to vote. Hall joined the battle, writing fearlessly in support of suffrage and equality. While her passionate essays served as a direct appeal for this cause, her creative writing also carried a feminist spirit, celebrating the strength, humor, love, and art of the common woman. In Eliza Calvert Hal: Kentucky Author and Suffragist, Lynn E. Niedermeier tells the story of this remarkable Kentuckian for the first time. Hall's challenge was to balance the artist's creative ambitions with the crusader's passion for achieving the goal of political equality for American women. Her successes did not stem from privilege or leisure; although she was an acclaimed writer, Hall was an ordinary woman, a wife and mother of moderate economic means. Through the power of her words, she challenged others to match her courage, independence, intellectual energy, and loyalty to her sex.

Modern Streamers for Trophy Trout II Noob Spearo

When local author Dane Starbuck set out several years ago to write the biography of Pierre Goodrich, scion of one of Indiana's most prominent twentieth-century families, he soon discovered that it was impossible to really understand Pierre Goodrich without also closely examining his family. Starbuck's years of research culminated in *The Goodriches: An American Family*, now available from Liberty Fund. This work is a revealing window into the founding ideals of both Indiana and our country, and how our founders meant these ideals to be lived. *The Goodriches: An American Family* begins with the birth of James P. Goodrich in 1864 and continues through the death of his son Pierre F. Goodrich in 1973. As the story of two fascinating and fiercely individualistic men, it is compelling reading, but as author Dane Starbuck says in the preface, "the later chapters of this book are as much a social commentary on American life in the twentieth century as parts of a biography of two accomplished men." In his foreword to *The Goodriches: An American Family*, James M. Buchanan, Nobel laureate in economics and celebrated Liberty Fund author, says, "The Indiana Goodriches are an American family whose leading members, James and Pierre, helped to shape the American century. . . . This biography makes us

recognize what is missing from the millennial setting in which we find ourselves. We have lost the 'idea of America,' both as a motivation for action and as a source of emotional self-confidence. We have lost that which the Goodriches possessed." What did the Goodrich family "possess" which made them so unique? A belief in the power of knowledge, the importance of education, and a strong work ethic combined to imbue the Goodrich family with a distinctive sense of civic duty. James Goodrich served as governor of Indiana from 1917 to 1921 and as adviser to Presidents Warren G. Harding, Calvin Coolidge, and Herbert Hoover. During his eulogy of James Goodrich, the Reverend Gustav Papperman explained, "The Governor felt that he had been given talents that were a trust, that he was to administer them faithfully. . . ." According to author Dane Starbuck, "Education was a large part of the Goodriches' work ethos. . . . The family viewed education as a process by virtue of which the individual remained informed, made better business decisions, learned the importance of citizenship, and was given an opportunity for individual self-improvement. Therefore, work and education became the centerpieces of the Goodrich family's ethical and practical life." In later years, Pierre Goodrich, successful businessman and entrepreneur, would set aside a portion of his estate to found Liberty Fund because he believed that the principles of liberty on which our nation was founded need to be constantly kept before the public.

**Travels in the Greater Yellowstone** Franklin Classics

In this age of DNA computers and artificial intelligence, information is becoming disembodied even as the "bodies" that once carried it vanish into virtuality. While some marvel at these changes, envisioning consciousness downloaded into a computer or humans "beamed" Star Trek-style, others view them with horror, seeing monsters brooding in the machines. In *How We Became Posthuman*, N. Katherine Hayles separates hype from fact, investigating the fate of embodiment in an information age. Hayles relates three interwoven stories: how information lost its body, that is, how it came to be conceptualized as an entity separate from the material forms that carry it; the cultural and technological construction of the cyborg; and the dismantling of the liberal humanist "subject" in cybernetic discourse, along with the emergence of the "posthuman." Ranging widely across the history of technology, cultural studies, and literary criticism,

Hayles shows what had to be erased, forgotten, and elided to conceive of information as a disembodied entity. Thus she moves from the post-World War II Macy Conferences on cybernetics to the 1952 novel *Limbo* by cybernetics aficionado Bernard Wolfe;

from the concept of self-making to Philip K. Dick's literary explorations of hallucination and reality; and from artificial life to postmodern novels exploring the implications of seeing humans as cybernetic systems. Although becoming posthuman can be

nightmarish, Hayles shows how it can also be liberating. From the birth of cybernetics to artificial life, *How We Became Posthuman* provides an indispensable account of how we arrived in our virtual age, and of where we might go from here.
