The Cambridge Companion to Mary Shelley Routledge

The tale of a tormented creature created in a laboratory began on a rainy night in 1816 in the imagination of a nineteen-year-old Mary Wollstonecraft Shelley. Since its publication two years later, Frankenstein: Or, the Modern Prometheus has spread around the globe through every possible medium and variation. Frankenstein has not been out of print once in 200 years. "Frankenstein" has become an indelible part of popular culture, and is shorthand for anything bizarre and human-made; for instance, genetically modified crops are "Frankenfood." Conversely, Frankenstein's monster has also become a benign Halloween favorite. Yet for all its long history, Frankenstein's central premise—that science, not magic or God, can create a living being, and thus these creators must answer for their actions as humans, not Gods—is most relevant today as scientists approach creating synthetic life. In its popular and cultural weight and its expression of the ethical issues raised by the advance of science, physicist Sidney Perkowitz and film expert Eddy von Muller have brought together scholars and scientists, artists and directions—including Mel Brooks—to celebrate and examine Mary Shelley's marvelous creation and its legacy as the monster moves into his next century.

Frankenstein (Third Edition) (Norton Critical Editions) Penguin UK

Acquaintances, friends, fellow artists, and even antagonists share their recollections of the acknowledged leader of the French musical avant-garde. HARDCOVER.

Shelley Unbound Taylor & Francis

Two centuries after its original publication, Mary Shelley's classic tale of gothic horror comes to vivid life in "what may very well be the best presentation of the novel" to date (Guillermo del Toro).

"Remarkably, a nineteen-year-old, writing her first novel, penned a tale that combines tragedy, morality, social commentary, and a thoughtful examination of the very nature of knowledge," writes best-selling author Leslie S. Klinger in his foreword to The New Annotated Frankenstein. Despite its undeniable status as one of the most influential works of fiction ever written, Mary Shelley's novel is often reductively dismissed as the wellspring for tacky monster films or as a cautionary tale about experimental science gone haywire. Now, two centuries after the first publication of Frankenstein, Klinger revives Shelley's gothic masterpiece by reproducing her original text with the most lavishly illustrated and comprehensively annotated edition to date. Featuring over 200 illustrations and nearly 1,000 annotations, this sumptuous volume recaptures Shelley's early nineteenth-century world with historical precision and imaginative breadth, tracing the social and political roots of the author's revolutionary brand of Romanticism. Braiding together decades of scholarship with his own keen insights, Klinger recounts Frankenstein's indelible contributions to the realms of science fiction, feminist theory, and modern intellectual history—not to mention film history and popular culture. The result of Klinger's exhaustive research is a multifaceted portrait of one of Western literature's most divinely gifted prodigies, a young novelist who defied her era's restrictions on female ambitions by independently supporting herself and her children as a writer and editor. Born in a world of men in the midst of a political and an emerging industrial revolution, Shelley crafted a horror story that, beyond its incisive commentary on her own milieu, is widely recognized as the first work of science fiction. The daughter of a pioneering feminist and an Enlightenment philosopher, Shelley lived and wrote at the center of British Romanticism, the "exuberant, young movement" that rebelled against tradition and reason and "with a rebellious scream gave birth to a world of gods and monsters" (del Toro). Following his best-selling The New Annotated H. P. Lovecraft and The New Annotated Sherlock Holmes, Klinger not only considers Shelley's original 1818 text but, for the first time in any annotated volume, traces the effects of her significant revisions in the 1823 and 1831

editions. With an afterword by renowned literary scholar Anne K. Mellor, The New Annotated Frankenstein celebrates the prescient genius and undying legacy of the world's "first truly modern myth." The New Annotated Frankenstein includes: Nearly 1,000 notes that provide information and historical context on every aspect of Frankenstein and of Mary Shelley's life Over 200 illustrations, including original artwork from the 1831 edition and dozens of photographs of real-world locations that appear in the novel Extensive listings of films and theatrical adaptations An introduction by Guillermo del Toro and an afterword by Anne K. Mellor

Frankenstein (Second International Student Edition) (Norton Critical Editions) Createspace Independent Publishing Platform

Frankenstein was first released in 1818 anonymously. The credit for Mary Wollstonecraft Shelley's authorship first occurred in 1823 when a French edition was published. A year earlier, Mary's revolutionary husband, the influential poet, dramatist, novelist, and essayist Percy Bysshe Shelley, died. The same year Frankenstein, or, The Modern Prometheus (its full title) was first published, so was another work by Mary's husband that shares use of the word Prometheus. The drama Prometheus Unbound was indeed credited to Percy Shelley. The secret admission of many experts in English literature is that Mary Wollstonecraft Shelley did not write a good portion of Frankenstein. In Shelley Unbound, Oxford scholar Scott D. de Hart examines the critical information about Percy Shelley's scientific avocations, his disputes against church and state, and his connection to the illegal and infamous anti-Catholic organization, the Illuminati. Scott D. de Hart's fascinating investigation into Frankenstein and the lives of Mary Wollstonecraft and Percy Shelley results in an inconvenient truth regarding what we have long believed to be a great early example of the feminist canon. Scott D. de Hart was born and raised in Southern California. He graduated from Oxford University with a PhD specializing in nineteenth-century English literature and legal controversies. Frankenstein: The 1818 Text W. W. Norton & Company Tennyson's central poem is presented with an extensive introduction that provides background information on the poet and poem as well as an overview of In Memoriam's formal and thematic peculiarities, including Tennyson's use of the stanza and the poem's rhyme scheme."

Frankenstein Broadview Press

Known from her day to ours as 'the Author of Frankenstein', Mary Shelley indeed created one of the central myths of modernity. But she went on to survive all manner of upheaval - personal, political, and professional - and to produce an oeuvre of bracing intelligence and wide cultural sweep. The Cambridge Companion to Mary Shelley helps readers to assess for themselves her remarkable body of work. In clear, accessible essays, a distinguished group of scholars place Shelley's works in several historical and aesthetic contexts: literary history, the legacies of her parents William Godwin and Mary Wollstonecraft, and of course the life and afterlife, in cinema, robotics and hypertext, of Frankenstein. Other topics covered include Mary Shelley as a biographer and cultural critic, as the first editor of Percy Shelley's works, and as travel writer. This invaluable volume is complemented by a chronology, a guide to further reading and a select filmography.

Approach to the Psychiatric Patient, Second Edition W. W. Norton

For the bicentennial of its first publication, Mary Shelley's original 1818 text, introduced by National Book Critics Circle award-winner Charlotte Gordon. Nominated as one of America's best-loved novels by PBS's The Great American Read 2018 marks the bicentennial of Mary Shelley's seminal novel. For the first time, Penguin Classics will publish the original 1818 text, which preserves the hard-hitting and politically-charged aspects of Shelley's original writing, as well as her unflinching wit and strong female voice. This edition also emphasizes Shelley's relationship with her mother—trailblazing feminist Mary Wollstonecraft, who penned A Vindication of the Rights of Woman—and demonstrates her commitment to carrying forward her mother's ideals, placing her in the context of a feminist legacy rather than the sole female in the company of male poets, including Percy Shelley and Lord

Byron. This edition includes a new introduction and suggestions for further reading by National Book Critics Circle award-winner and Shelley expert Charlotte Gordon, literary excerpts and reviews selected by Gordon, and a chronology and essay by preeminent Shelley scholar Charles E. Robinson. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,800 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Poor Things W. W. Norton & Company

Discusses Mary Shelley's sources of ideas for the compelling plot, well-developed characters, and universal themes of "Frankenstein" which have led to its enduring popularity.

Emma Liveright Publishing

"Because I'm teaching an intro-level course in comparative literature, this edition was extremely helpful in showing the variety of critical approaches that they can take toward a single text. The article on radical science also helped me compare Frankenstein to Alasdair Gray's *Poor Things*. I highly recommend this edition of Frankenstein and will use it in the future." -Joshua Beall, Rutgers University

Wide Sargasso Sea American Psychiatric Pub

Working from the earliest surviving draft of Frankenstein, Charles E. Robinson presents two versions of the classic novel—as Mary Shelley originally wrote it and a subsequent version clearly indicating Percy Shelley's amendments and contributions. For the first time we can hear Mary's sole voice, which is colloquial, fast-paced, and sounds more modern to a contemporary reader. We can also see for the first time the extent of Percy Shelley's contribution—some 5,000 words out of 72,000—and his stylistic and thematic changes. His occasionally florid prose is in marked contrast to the directness of Mary's writing. Interesting, too, are Percy's suggestions, which humanize the monster, thus shaping many of the major themes of the novel as we read it today. In these two versions of Frankenstein we have an exciting new view of one of literature's greatest works.

The Frankenstein Notebooks Golden Valley Press

The best-selling student edition on the market, now available in a Second Edition. Almost two centuries after its publication, Frankenstein remains an indisputably classic text and Mary Shelley's finest work. This extensively revised Norton Critical Edition includes new texts and illustrative materials that convey the enduring global conversation about Frankenstein and its author. The text is that of the 1818 first edition, published in three volumes by Lackington, Hughes, Harding, Mavor, and Jones. It is accompanied by an expansive new preface, explanatory annotations, a map of Geneva and its environs, and seven illustrations, five of them new to the Second Edition. Context is provided in three supporting sections: "Circumstance, Influence, Composition, Revision," "Reception, Impact, Adaptation," and "Sources, Influences, Analogues." Among the Second Edition's new inclusions are historical-cultural studies by Susan Tyler Hitchcock, William St. Clair, and Elizabeth Young; Chris Baldrick on the novel's reception; and David Pirie on the novel's many film adaptations. Related excerpts from the Bible and from John Milton's *Paradise Lost* are now included, as is Charles Lamb's poem "The Old Familiar Faces." "Criticism" collects sixteen major interpretations of Frankenstein, nine of them new to the Second Edition. The new contributors are Peter Brooks, Bette London, Garrett Stewart, James. A. W. Heffernan, Patrick Brantlinger, Jonathan Bate, Anne Mellor, Jane Goodall, and Christa Knellwolf. A Chronology and Selected Bibliography are also included.

Upon revealing his true nature, Dracula boards a ship for England, where chilling and gruesome disasters begin to befall the people of London... Show Excerpt II and opened up the lofty, snow-covered peak of a mountain, which seemed, as we wound on our serpentine way, to be right before us. "Look! Isten szek!"—"God's seat!"—and he crossed himself reverently. As we wound on our endless way, and the sun sank lower and lower behind us, the shadows of the evening began to creep round us. This was emphasized by the fact that the snowy mountain-top still held the sunset, and seemed to glow out with a delicate cool pink. Here and there we passed Cszeks and slovaks, all in picturesque attire, but I noticed that goitre was painfully prevalent. By the roadside were many crosses, and as we swept by, my companions all crossed themselves. Here and there was a peasant man or woman kneeling before a

shrine, who did not even turn round as we approached, but seemed in the self-surrender of devotion to have neither eyes nor ears for the outer world. There were many things new to me. For instance, hay-ricks in the trees, and here and there very beautiful masses of wee

A Companion to Romanticism Norton Critical Editions

Mary Shelley's deceptively simple story of Victor Frankenstein and the creature he brings to life, first published in 1818, is now more widely read—and more widely discussed by scholars—than any other work of the Romantic period. From the creature's creation to his wild lament over the dead body of his creator in the Arctic wastes, the story retains its narrative hold on the reader even as it spins off ideas in rich profusion. Macdonald and Scherf's edition of Frankenstein has been widely acclaimed as an outstanding edition of the novel—for the general reader and the student as much as for the scholar. The editors use as their copy-text the original 1818 version, and detail in an appendix all of Shelley's later revisions. They also include a range of contemporary documents that shed light on the historical context from which this unique masterpiece emerged. Macdonald and Scherf have now revised and updated their introduction, notes and bibliography, and have added new documents (including a review of Frankenstein by Percy Shelley).

Frankenstein Ignatius Press

Mary Shelley's Frankenstein is one of the most influential and controversial novels of the nineteenth century; it is also one of the most misunderstood and misinterpreted. It has been vivisectioned critically by latter-day Victor Frankensteins who have transformed the meanings emergent from the novel into monsters of post-modern misconception. Meanwhile Franken-feminists have turned the novel into a monster of misanthropy. Seldom has a work of fiction suffered so scandalously from the slings and arrows of outrageous criticism. This critical edition, containing tradition-oriented essays by literary scholars, refutes the errors and serves as an antidote to the poison that has contaminated the critical understanding of this classic gothic novel. The Ignatius Critical Editions represent a tradition-oriented alternative to popular textbook series such as the Norton Critical Editions or Oxford World Classics, and are designed to concentrate on traditional readings of the Classics of world literature. While many modern critical editions have succumbed to the fads of modernism and post-modernism, this series will concentrate on tradition-oriented criticism of these great works. Edited by acclaimed literary biographer, Joseph Pearce, the Ignatius Critical Editions will ensure that traditional moral readings of the works are given prominence, instead of the feminist, or deconstructionist readings that often proliferate in other series of 'critical editions'. As such, they represent a genuine extension of consumer-choice, enabling educators, students and lovers of good literature to buy editions of classic literary works without having to 'buy into' the ideologies of secular fundamentalism. The series is ideal for anyone wishing to understand great works of western civilization, enabling the modern reader to enjoy these classics in the company of some of the finest literature professors alive today. Edited by Joseph Pearce Contributors to this volume: Jo Bath Philip Nielsen Joseph Pearce Thomas W. Stanford III Aaron Urbanczyk

Frankenstein Illustrated Edition W. W. Norton & Company

Frankenstein; or, The Modern Prometheus is an 1818 novel written by English author Mary Shelley. Frankenstein tells the story of Victor Frankenstein, a young scientist who creates a sapient creature in an unorthodox scientific experiment.

Understanding Frankenstein Dramatists Play Service, Inc.

One of Alasdair Gray's most brilliant creations, *Poor Things* is a postmodern revision of Frankenstein that replaces the traditional monster with Bella Baxter—a beautiful young erotomaniac brought back to life with the brain of an infant. Godwin Baxter's scientific ambition to create the perfect companion is realized when he finds the drowned body of Bella, but his dream is thwarted by Dr. Archibald McCandless's jealous love for Baxter's creation. The hilarious tale of love and scandal that ensues would be "the whole story" in the hands of a lesser author (which in fact it is, for this account is actually written by Dr. McCandless). For Gray, though, this is only half the story, after which Bella (a.k.a. Victoria McCandless) has her own say in the matter. Satirizing the classic Victorian novel, *Poor Things* is a hilarious political allegory and a thought-provoking duel between the desires of men and the independence of women, from one of Scotland's most accomplished authors.
