ROMAN HULL

The Study of Language 6th edition by George Yule ... The Study Of Language George The Study of Language provides a solid overview of an impressively wide range of areas in linguistics, not only 'core' areas such as syntax and phonology, but also the origins of language, pragmatics, discourse analysis, historical linguistics and more. Amazon.com: The Study of Language (9781108499453): George ... Community Reviews. An accessible, streamlined introduction to most of the basic areas of linguistics, from phonetics to syntax to language development and sociolinguistics. Not practical for in-depth study of any particular field, but excellent as an overview. The "textbook" elements (chapter review questions, etc.) are thoughtful and stimulating, as well. The Study of Language by George Yule - Goodreads George Yule. Designed for beginners, this best-selling textbook provides a lively introduction to the study of language. Starting from the basics, it provides a solid foundation in all of the essential topics, and introduces the analysis of the key elements of language - sounds, words, structures and meanings. The Study of Language by George Yule The Study of Language - George Yule 5 Glossogenetics The focus is on the biological basis of the formation. In the evolutionary development there are certain physical features, best thought of as partial adaptations that appear to be relevant for speech. By themselves, such features would not lead to speech production, The Study of Language -
