*In the  
Watchful City*  
Turtleback  
Books  
After twenty-  
three years,  
Orson Scott  
Card returns  
to his  
acclaimed  
best-selling

series with the  
first true,  
direct sequel  
to the classic  
Ender's Game.  
In Ender's  
Game, the  
world's most  
gifted children  
were taken  
from their  
families and  
sent to an  
elite training  
school. At  
Battle School,

they learned  
combat,  
strategy, and  
secret  
intelligence to  
fight a  
dangerous  
war on behalf  
of those left  
on Earth. But  
they also  
learned some  
important and  
less definable  
lessons about  
life. After the

life-changing events of those years, these children—now teenagers—must leave the school and readapt to life in the outside world. Having not seen their families or interacted with other people for years—where do they go now? What can they do? Ender fought for humanity, but he is now reviled as a ruthless assassin. No longer allowed to live on Earth, he enters into exile. With his sister

Valentine, he chooses to leave the only home he's ever known to begin a relativistic—and revelatory—journey beyond the stars. What happened during the years between Ender's Game and Speaker for the Dead? What did Ender go through from the ages of 12 through 35? The story of those years has never been told. Taking place 3000 years before Ender finally receives his

chance at redemption in Speaker for the Dead, this is the long-lost story of Ender. For twenty-three years, millions of readers have wondered and now they will receive the answers. Ender in Exile is Orson Scott Card's moving return to all the action and the adventure, the profound exploration of war and society, and the characters one never forgot. New York Times bestselling authors Orson Scott Card and Aaron Johnston return to the prequels to Ender's Game following *The Swarm* with *The Hive*, book two in the Second Formic War. Card and Johnston continue the fast-paced hard science fiction history of the Formic Wars—the

alien invasions of Earth's Solar System that ultimately led to Ender Wiggin's total victory in Ender's Game. A coalition of Earth's nations barely fought off the Formics' first scout ship. Now it's clear that there's a mother-ship out on edge of the system, and the aliens are prepared to take Earth by force. Can Earth's warring nations and corporations put aside their differences and mount an effective defense?

Danny North is the first Gate Mage to be born on Earth in nearly 2000 years, or at least the first to survive to claim his power. Families of Westil in exile on Earth have had a treaty that required the death of any suspected Gate Mage. The wars between the Families had been terrible, until at last they realized it was their own survival in question. But a Gate Mage, one who could build a Great Gate back to Westil, would give his own Family a terrible advantage over all the others, and reignite the wars. So they all had to die. And if the Families didn't kill them, the Gate Thief would—that mysterious Mage who destroyed every Great Gate, and the Gate Mage, before it could be opened between Earth and Westil. But Danny survived. And Danny battled the Gate Thief, and won. What he didn't know at the time was that the Gate Thief had a very good reason for closing the Great Gates—and Danny has now fallen into the power of that great enemy of both

Earth and Westil. The Mither Mages series The Lost Gate The Gate Thief Gatefather At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. One Day All This Will Be Yours Tor Books Ender's Shadow explores the stars in this all-new novel... At the end of Shadow of the Giant, Bean flees to the stars with three of his children--the three who

share the engineered genes that gave him both hyper-intelligence and a short, cruel physical life. The time dilation granted by the speed of their travel gives Earth's scientists generations to seek a cure, to no avail. In time, they are forgotten--a fading ansible speaking of events lost to Earth's history. But the Delphikis are about to make a discovery that will let them save

themselves, and perhaps all of humanity in days to come. For there in space before them lies a derelict Formic colony ship. Aboard it, they will find both death and wonders--the life support that is failing on their own ship, room to grow, and labs in which to explore their own genetic anomaly and the mysterious disease that killed the ship's colony.
