A cross-section of the American experience on D-Day Unique perspective from the regimental level that also integrates strategic and tactical considerations Stories of largely forgotten acts of valor G. H. Bennett collects oral histories from the soldiers of three American regiments and weaves them into an intimate account of the D-Day invasion of June 6, 1944. Widely scattered during its drop into Normandy, the 507th Parachute Infantry Regiment (82nd Airborne Division) stopped the advance of an SS division. The untested 116th Infantry Regiment (29th Infantry Division) landed on bloody Omaha Beach, where it suffered more casualties than any other regiment that day. Meanwhile, the 22nd Infantry Regiment (4th Infantry Division) easily waded ashore on Utah Beach but faced savage fighting as it moved inland.

One for the Money Hutchinson Radius

Developmental genetic studies of the spine and linkage and family-based association studies have led to recent advances in understanding the genetic etiology of idiopathic, neuromuscular, and congenital forms of scoliosis. The book is written by leaders in genetic and developmental research on scoliosis and developmental studies of the spine.

Ordeal Springer

Fluctuations and declines in marine fish populations have caused growing concern among marine scientists, fisheries managers, commercial and recreational fishers, and the public. Sustaining Marine Fisheries explores the nature of marine ecosystems and the complex interacting factors that shape their productivity. The book documents the condition of marine fisheries today, highlighting species and geographic areas that are under particular stress. Challenges to achieving sustainability are discussed, and shortcomings of existing fisheries management and regulation are examined. The volume calls for fisheries management to adopt a broader ecosystem perspective that encompasses all relevant environmental and human influences.

Sustaining Marine Fisheries offers new approaches to building workable fisheries management institutions, improving scientific data, and developing management tools. The book recommends ways to change current practices that encourage overexploitation of fish resources. It will be of special interest to marine policymakers and ecologists, fisheries regulators and managers, fisheries scientists and marine ecologists, fishers, and concerned individuals.

The Assistant Building Inspector Passbook(R) prepares you for your test by allowing you to take practice exams in the subjects you need to study. It provides hundreds of questions and answers in the areas that will likely be covered on your upcoming exam, including but not limited to: inspection procedures; building construction, including methods, materials, and components; building, housing and zoning laws and codes; interpretation of building plans and requirements; and other related areas.

The Illio Springer Science & Business Media

A growing chorus of prominent voices in Congress and elsewhere are calling for the expansion of our Social Security system—people who know that Social Security will not “go broke” and does not add a penny to the national debt. Social Security Works! will amplify these voices and offer a powerful antidote to the three-decade-long, billionaire-funded campaign to make us believe that this vital institution is destined to collapse. It isn't. From the Silent Generation to Baby Boomers, from Generation X to Millennials and Generation Z, we all have a stake in understanding the real story about Social Security. Critical to addressing the looming retirement crisis that will affect two-thirds of today's workers, Social Security is a powerful program that can help stop the collapse of the middle class, lessen the pressure squeezing families from all directions, and help end the upward redistribution of wealth that has resulted in perilous levels of inequality. All Americans deserve to have dignified retirement years as well as an umbrella to protect them and their families in the event of disability or premature death. Sure to be a game-changer, Social Security Works! cogently presents the issues and sets forth both an agenda and a political strategy that will benefit

us all. At stake are our values and the kind of country we want for ourselves and for those that follow.

Military Injury Biomechanics University of Minnesota Center for Research on Development Education

The first volume in AAHE and Campus Compact's series on service-learning in the disciplines, the book discusses the microrevolution in college-level Composition through service-learning. The essays in this volume show why service-learning and communication are a natural pairing and give a background on the relationship between service-learning and communication with maps to suggest where it should go in the future.

A Writer's Guide to Mindful Reading University of Chicago Press

One of the greatest Marxist theorists of his generation, Georg Lukacs was a prolific writer of remarkably catholic, if moralistic, tastes. In The Lukacs Reader, his biographer Arpad Kadarkay represents the great range and variety of Lukacs's output. The reader includes, in original translations, and with introductory essays, Lukacs on: Kierkegaard, Shakespeare, Ford, Strindberg, Ibsen, Wilde, Shaw, Gaughin, Dostoevsky, Nietzsche, and Heidegger. Also collected are: the autobiographical essay 'On the Poverty of Spirit', material from Lukacs's diary, and such key articles as: 'Aesthetic Culture', 'The Ideology of Modernism', 'Bolshevism as an Ethical Problem', and 'Class Consciousness'. What emerges is a figure very much at the centre of European thought whose value to modern culture and philosophy differs markedly from that which received opinion generally admits. Social Security Works! Springer Science & Business Media ARGUMENT IN COMPOSITION provides access to a wide range of resources that bear on the teaching of writing and argument. The ideas of major theorists of classical and contemporary rhetoric and argument—from Aristotle to Burke, Toulmin, and Perelman—are explained and elaborated, especially as they inform pedagogies of argumentation and composition.

Suzi Softball New Press, The

The former good girl who became the star of Deep Throat tells the horrifying true story of her life on and off camera in this shocking tell-all memoir. Linda Boreman was just twenty-one when she met

Chuck Traynor, the man who would change her life. Less than two years later, the girl who wouldn't let her high school dates get past first base was catapulted to fame as an adult film superstar. Linda Boreman of Yonkers, New York, had become Linda Lovelace. The unprecedented success of *Deep Throat* made pornography popular with mainstream audiences and made Lovelace a household name. But nobody, from the A-list celebrities who touted the movie to the audiences that lined up to see it, knew the truth about what went on behind the scenes. Taken prisoner by her sado-masochistic manager, Linda was forced into a marriage of savage beatings, hypnotism, and rape. She was terrorized into prostitution at gunpoint and forced to perform unspeakable perversions on film. Years later, when Linda came out of hiding to tell her story, the revelations rocked the porn industry in ways that made her fear for her life.

Copper Sun National Academies Press

Suffused with a unique brand of irreverent humor, this account recalls the autobiographical explorations of the most significant alternative communities, ashrams, gurus, shamans, and consciousness-raising seminars of the past 40 years. Serving as a human guinea pig for many of the most popular cutting-edge New Age, human potential, and spiritual experiments, Eliezer Sobel recounts intercontinental adventures in India, Israel, Brazil, and Haiti. From Primal Therapy to the Dalai Lama, this perceptively witty analysis includes brushes with cults, wild experiments with sex and psychedelics, and encounters with visionary gurus and contemporary madmen.

The 99th Monkey Santa Monica Press

Novel Technologies for Microwave and Millimeter-Wave Applications provides an overview of current research status in selected field, to facilitate a learning process from concepts to practices, from component design to system architecture, and from small scale to large scale. Each chapter focuses on a topic and is organized to be self-sufficient. Contents in each chapter include concise description of relevant background information, major issues, current trend and future challenges. Useful references are also listed for further reading. *Novel Technologies for Microwave and Millimeter-Wave Applications* is suitable as a textbook for senior or graduate courses in microwave engineering.

Originality, Imitation, and Plagiarism CSU Open Press

Weed Management Handbook updates the 8th edition of *Weed Control Handbook* (1990). The change in the title and contents of the book from previous editions reflects both the current emphasis on producing crops in a sustainable and environmentally-friendly manner, and the new weed management challenges presenting themselves. This landmark publication contains cutting edge chapters, each written by acknowledged experts in their fields and carefully drawn together and edited by Professor Robert Naylor, known and respected world-wide for his knowledge of the area. The sequence of chapters included reflects a progression from the biology of weeds, through the underpinning science and technology relating to weed management techniques including herbicides and their application to crops, leading to principles of weed management techniques. Finally a set of relevant case studies describes the main management options available and addresses the challenges of reduced chemical options in many crops. *Weed Management Handbook* is a vital tool for all those involved in the crop protection / agrochemical industry, including business managers, horticultural and agricultural scientists, plant physiologists, botanists and those studying and teaching BASIS courses. As an important reference guide for undergraduate and postgraduate students studying horticultural and agricultural sciences, plant physiology, botany and crop protection, copies of the book should be available on the shelves of all research establishments and universities where these subjects are studied and taught. *Weed Management Handbook* is published for the British Crop Protection Council (BCPC) by Blackwell Publishing.

Kagan Cooperative Learning Structures CRC Press

Offers an insider's view of the outrageous, rebellious, and controversial free-form FM radio era, from its counter-culture rise in the 1960s to its 1980s defeat by the "format machine" *Human-Computer Interaction - INTERACT 2017* Pearson College Division

General music is informed by a variety of teaching approaches and methods. These pedagogical frameworks guide teachers in planning and implementing instruction. Established approaches to teaching general music must be understood, critically examined, and possibly re-imagined for their potential in school and community music education programs. *Teaching General Music* brings together the top scholars and practitioners in general

music education to create a panoramic view of general music pedagogy and to provide critical lenses through which to view these frameworks. The collection includes an examination of the most prevalent approaches to teaching general music, including Dalcroze, Informal Learning, Interdisciplinary, Kodály, Music Learning Theory, Orff Schulwerk, Social Constructivism, and World Music Pedagogy. In addition, it provides critical analyses of general music and teaching systems, in light of the ways children around the world experience music in their lives. Rather than promoting or advocating for any single approach to teaching music, this book presents the various approaches in conversation with one another. Highlighting the perceived and documented benefits, limits, challenges, and potentials of each, *Teaching General Music* offers myriad lenses through which to re-read, re-think, and re-practice these approaches.

Sustaining Marine Fisheries University of Michigan Press
Military Injury Biomechanics: The Cause and Prevention of Impact Injuries is a reference manual where information and data from a large number of sources, focussing on injuries related to military events, has been critically reviewed and discussed. The book covers the cause and prevention of impact injuries to all the major body regions, while topics such as the historical background of military impact biomechanics, the history and use of anthropomorphic test devices for military applications and the medical management of injuries are also discussed. An international team of experts have been brought together to examine and review the topics. The book is intended for researchers, postgraduate students and others working or studying defence and impact injuries.

Rehearsing New Roles CSU Open Press

Offering a comprehensive approach to literacy instruction by focusing on reading and writing, *A Writer's Guide to Mindful Reading* supports students as they become more reflective, deliberate, and mindful readers and writers by working within a metacognitive framework.

Destination Normandy Citadel Press

Framed by historic developments—from the Open Admissions movement of the 1960s and 1970s to the attacks on remediation that intensified in the 1990s and beyond—*Basic Writing* traces the arc of these large social and cultural forces as they have shaped and reshaped the field.

Contingency, Exploitation, and Solidarity CSU Open Press

Since 1932 the University of Minnesota's General College has provided educational access and excellence for the most diverse group of students on the campus. To celebrate this work and explore the current programs and mission of the college, GC faculty, staff, and students bring forth their perspectives examining how the college successfully contributes to intellectual growth, enhances multiculturalism, and supports student development.

The Lukacs Reader Parlor Press LLC

A book about diversity with a hearing impaired lead character. PEOPLE NEED THIS BOOK! So why you ask? Well it tackles inclusion, a hot button word in our schools right now. But it does so much more, and goes so much further. Schools are filled with kids that are excluded because of race, religion and many other social issues. This book is aimed at being the change that is needed. Sports admittedly, carry a lot of weight in our society. This book, uniquely done through the eyes of balls as characters, tackles some of those issues, head on! Suzi Softball is a story about inclusion. Through an ultra-positive, hearing impaired lead character, the author takes us on a delightful adventure through a town called Basicville. This young softball is determined to make everyone feel included and will stop at nothing to do so. In any culture, but especially today's, this is a MUST READ for anyone of any age. If you think it sounds like a great book to teach children simple but important life lessons. IT IS!! If you think you have a

neighbor or coworker that would enjoy this book. THEY WOULD!! The author has been in the front line of education and athletics for over twenty years, and has paid attention with both eyes open. This book is a HOME RUN!!

The Cross of Lorraine Parlor Press LLC

"At long last, a discussion of plagiarism that doesn't stop at 'Don't do it or else,' but does full justice to the intellectual interest of the topic!" ---Gerald Graff, author of *Clueless in Academe* and 2008 President, Modern Language Association This collection is a timely intervention in national debates about what constitutes original or plagiarized writing in the digital age. Somewhat ironically, the Internet makes it both easier to copy and easier to detect copying. The essays in this volume explore the complex issues of originality, imitation, and plagiarism, particularly as they concern students, scholars, professional writers, and readers, while also addressing a range of related issues, including copyright conventions and the ownership of original work, the appropriate dissemination of innovative ideas, and the authority and role of the writer/author. Throughout these essays, the contributors grapple with their desire to encourage and maintain free access to copyrighted material for noncommercial purposes while also respecting the reasonable desires of authors to maintain control over their own work. Both novice and experienced teachers of writing will learn from the contributors' practical suggestions about how to fashion unique assignments, teach about proper attribution, and increase students' involvement in their own

writing. This is an anthology for anyone interested in how scholars and students can navigate the sea of intellectual information that characterizes the digital/information age. "Eisner and Vicinus have put together an impressive cast of contributors who cut through the war on plagiarism to examine key specificities that often get blurred by the rhetoric of slogans. It will be required reading not only for those concerned with plagiarism, but for the many more who think about what it means to be an author, a student, a scientist, or anyone who negotiates and renegotiates the meaning of originality and imitation in collaborative and information-intensive settings." ---Mario Biagioli, Professor of the History of Science, Harvard University, and coeditor of *Scientific Authorship: Credit and Intellectual Property in Science* "This is an important collection that addresses issues of great significance to teachers, to students, and to scholars across several disciplines. . . . These essays tackle their topics head-on in ways that are both accessible and provocative." ---Andrea Lunsford, Louise Hewlett Nixon Professor of English, Claude and Louise Rosenberg Jr. Fellow, and Director of the Program in Writing and Rhetoric at Stanford University and coauthor of *Singular Texts/Plural Authors: Perspectives on Collaborative Writing* digitalculturebooks is an imprint of the University of Michigan Press and the Scholarly Publishing Office of the University of Michigan Library dedicated to publishing innovative and accessible work exploring new media and their impact on society, culture, and scholarly communication. Visit the website at www.digitalculture.org.
