 In the (A) case, Jason Phillips, Chief Financial Officer of a soup manufacturing business, is given the task of maximizing the value of the firm twelve months after the case is set. Although he does not want to break any legal rules, Jason is interested to see whether accounting and real action choices can be used to enhance the company's financial position and increase its perceived value to investors. The case permits him to select from a menu of options, including decisions on product pricing, inventory levels, accounts receivables, leasing or purchasing a new machine and valuation or sale of securities. These choices are fed into an Excel spreadsheet which adjusts financial projections and accounting disclosures accordingly. In the (B) case, Ben Kerr, Chief Investment Officer at one of Dragon's main competitors, considers the financial statements produced by Dragon to unravel any earnings management behavior and establish a true value for the company. Although the case can be focused on the accounting consequences of real decisions, a richer

discussion is obtained when considering the ethical angles of the decision process. In particular, how much "earnings management" should be pursued and what types of behaviors are simply going to be unraveled by investors? Students will explore: the concepts of "legal" earnings management as compared to true value optimization; whether sophisticated investors misled by such behaviors; and the management of information flows to investors.

This volume presents the findings of the Forum on "New Social Demands and Governance". The forum provided an important contribution to the much-needed reflection on setting up new institutional frameworks and creating new practices of social dialogue and partnerships in order to encourage interaction between new social demands, public debate and political responses. Social cohesion is an important condition for stability and prosperity in member states and beyond.

The remarkable true story of a young Billy Graham and his best friend who walked away from the

faith. We all know how the story ends but how did it begin? Before he became a household name, and America's Pastor, he was simply known as Billy. When he wasn't playing baseball, he was discovering his love for Christian ministry. His best friend, Charles Templeton, was already on track to be a highly successful evangelist and the two young men began strategizing on how to win the world for Christ. That plan takes a drastic turn, however, when Templeton deserts the faith and becomes an atheist. The impact of this decision on a young Billy Graham is immeasurable and agonizing. Charles would later become the great intellectual architect for agnosticism and atheism. Billy would become the single greatest messenger for the Christian Gospel. It is one of the great untold dramas between friends - Atheism vs Christianity, betrayal and hope.

Wal-Mart The Store Wars In early 2004, residents of Inglewood, California voted on a referendum that would change the city charter to allow Wal-Mart to build a supercentre on a huge, undeveloped lot in the city. Wal-Mart had put forward the measure after the city council refused to change the zoning of a plot on which it held an option to build. Numerous community and religious groups opposed Wal-Mart's entry and campaigned against the referendum. Walmart promised low-priced merchandise and jobs, but these groups were skeptical about the kinds of jobs and compensation that would be offered. This case examines the divisive issues.

High performance plastics are replacing traditional materials in hostile environments. They possess characteristics such as exceptional strength, lightweight, temperature resistance (usually in excess of 160°C), chemical resistance and dimensional stability. In addition, plastics are relatively easy to process and can be coloured (or transparent) and moulded to create innovative and attractive structures. The fun car market illustrates the increasing use of plastics materials and the versatility and appeal needed in materials for today's marketplace. This two day international conference brought together experts discussing the latest developments in materials including properties, processing and applications. There are many different types of high performance elastomers. Their unique properties are essential in hostile environments and application areas include the petrochemical and refining industries, automotive, aerospace, defence, wire and cable, construction, chemical plants, nuclear, medical, food and seals. Correct material selection, compounding and processing are essential. These proceedings have brought together a collection of papers for material suppliers, engineers, compounders, manufacturers, processors and end-users of high performance elastomers who discussed the most appropriate materials and formulations for different applications.

Kings. Dragons. The start of an all-consuming war. As the twelve god-creatures appear in the world, nations brace for a inevitable struggle. Some have allied themselves with the Second Ascension in return for power and protection, but the Frith Guild aims to form a counter alliance. Volke Savan, along with the other arcanists of the Frith Guild, must not only find a way to end the arcane plague once and for all, but prevent the remaining god-creatures from falling into the hands of their enemies. If the Frith Guild can form an alliance between powerful nations, and defeat the Autarch before he bonds with any god-creatures, perhaps a war can be prevented. But the dragon arcanists of distant lands have come to challenge Volke and test his worthiness. Despite the ever-mounting pressures, and lack of time, Volke is determined to not only convince the world's strongest arcanists of his worth, but to also defeat the god-arcanists of the Second Ascension long before the appearance of the dreaded apoch dragon. Continue the Frith Chronicles with the sixth book, Warlord Arcanist! Praise for the Frith Chronicles! Out There--the world's first space colony--adventures and dangers beyond human ken! Excerpt* A Million Miles Beyond the Moon...*. Nelson and Ramos sped on toward Mars in their tiny plastic-bubble spacecraft. They were on the alert--it didn't pay to take anything for granted in the Big Vacuum....The way between the worlds was mostly empty space--except for the outlaws of the void who drifted, patiently and vengefully waiting for a victim, then struck! Nelsen and Ramos tensed--blips on the radar screen! Maybe meteors... More blips--and fist-sized chunks of rock flicked through their fragile vehicles. Air puffed out ... and Nelson and Ramos were fighting for their lives...*. A Million Miles Beyond the Moon!*

Handsome, suave, and carnal as the devil, Lord Elliot Rothwell awaits readers in Lessons of Desire, bestselling author Madeline Hunter's latest book in the Rothwell series and her most provocative novel to date. A man used to getting what he wants, Elliot is every woman's most secret fantasy in the living flesh. He first appears beneath her prison window as her savior—a sinfully attractive man whose charm and connections have ensured her release from an unjust arrest. But author and publisher Phaedra Blair quickly learns that the price of her "freedom" is to be virtually bound to her irresistible rescuer. For Elliot Rothman didn't come solely on a mission of goodwill. He came to extract a promise that Phaedra won't publish a slanderous manuscript that could destroy his family's name, and he's not above bribery, threats, or bedding her to get his way. And with each erotic encounter raising the stakes between them, Elliot discovers he's ever more reluctant to lose this sensual game...or the one woman who's every bit his match.

The Essential Guide to Winning and Keeping High-value Customers eStar Books

Do you know how to unlock real value from your customers? Do you understand why less than 22 per cent of all consumers account for half of high-value purchases? Do you know how to reach the new breed of consumers - the I-Cons - who are happy to spend more but loathe being treated as part of the pack; who want to make decisions for themselves, and will reward businesses that let them; who have changed the way business is done, and hold your future in their hands? Here, for the first time, is the essential information you need. Based on groundbreaking research of 250,000 survey respondents and written by two highly regarded former KPMG directors now running their own successful consultancy, I-CONS: THE ESSENTIAL GUIDE TO WINNING AND KEEPING HIGH-VALUE CUSTOMERS shows business the way forward. From identifying new consumers and understanding the way they see the world to the specifics of how to appeal to them (and how to avoid common mistakes), how to turn your business into the type of 'Third Wave' enterprise they seek, and how to build an ongoing, highly profitable relationship with them, I-CONS covers everything you need to know to not just survive but thrive in this new environment. Don't get left behind. Your customers haven't! Quotes: 'Honeywill and Byth's penetrating insight into the real behaviour of consumers has jolted awake many in industry worldwide ... In fact, they have shaken the very foundations of marketing in the twenty-first century and have helped global industry prepare for this new world of

business where past assumptions no longer work.' RICH CARTIERE, publisher and editor of the influential American WINE MARKET REPORT 'Ross Honeywill, and his co-author Verity Byth, understand better than anyone else in Australia how the technology revolution is changing consumer demand. CEOs planning major marketing campaigns or small business people marketing their goods in a local shopping centre ignore Honeywill and Byth's advice at their own peril.' ROBERT GOTTLIEBSEN - THE AUSTRALIAN 'Honeywill and Byth provide a fresh look at how business should view customer value in a world of increasing business complexity. When all the costs have been cut, business needs to find new answers to unlock margin and profitability. This is the business challenge of the new millennium and the authors' insights showed KPMG and many of its clients how to view business with different eyes.' BRIAN JAMIESON, FORMER CEO, KPMG AUSTRALIA iSmithers Rapra Publishing

Any organization's success depends upon the voluntary cooperation of its members. But what motivates people to cooperate? In *Why People Cooperate*, Tom Tyler challenges the decades-old notion that individuals within groups are primarily motivated by their self-interest. Instead, he demonstrates that human behaviors are influenced by shared attitudes, values, and identities that reflect social connections rather than material interests. Tyler examines employee cooperation in work organizations, resident cooperation with legal authorities responsible for social order in neighborhoods, and citizen cooperation with governmental authorities in political communities. He demonstrates that the main factors for achieving cooperation are socially driven, rather than instrumentally based on incentives or sanctions. Because of this, social motivations are critical when authorities attempt to secure voluntary cooperation from group members. Tyler also explains that two related aspects of group practices--the use of fair procedures when exercising authority and the belief by group members that authorities are benevolent and sincere--are crucial to the development of the attitudes, values, and identities that underlie cooperation. With widespread implications for the management of organizations, community regulation, and governance, *Why People Cooperate* illustrates the vital role that voluntary cooperation plays in the long-standing viability of groups.

This beautiful photo book follows the course of one day in our world. Sunrise to sunset is captured in the essential things we all do daily, wherever we live in the world, and in the different ways we do them. The first meal of the day will take on a whole new dimension for American kids as an American pancake breakfast is contrasted with porridge in North Korea and churros in Spain.

In his first book conceived and acquired specifically to be delivered electronically, Leonard Sweet contends that the church is blind to the changes that are dragging us into the future. Therefore, it is losing its influence as an agent of change and grace in the world. "There are now some companies who absolutely want to change the world more than the church," writes Sweet. He sees the church at a crossroads. It will either see the future as a new dawn and therefore embrace it as opportunity. Or, it will see the future as dusk and therefore hide from the darkness of the world. Sweet believes that God will be in the future, with or without us, and that an "Acts 27" movement is afoot. This book serves as a "naturalization manual" to help Christians achieve full citizenship in the new, postmodern world. It will teach them how to go from being immigrants to natives. From foreigners in a strange land to people of God, confident and at home in a rapidly changing world. *Subic Bay* Zondervan

The death of a squatter is not all it seems... Ann Granger introduces the unemployed and soon-to-be-homeless amateur sleuth Fran Varady in the first of this riveting crime series. The perfect read for fans of Edward Marston and LJ Ross. 'It looks as if Ann Granger is on to another winner' - Birmingham Post Fran Varady is insolvent, unemployed and, though for the moment she's got the leaky roof of the squat she shares in Jubilee Street over her head, she'll very soon be homeless thanks to the council eviction department. Her dreams of becoming an actress, nurtured when her

father and grandmother were still alive, seem a long way off. But Fran is a survivor ... which her former housemate, Terry, found hanging from the ceiling of her room, clearly is not. Terry, secretive and selfish, was far from popular with the rest of the household, but her death shakes the Jubilee Street Creative Artists' Commune, as the squat residents half-jokingly call themselves. And, the more Fran discovers about the death of the young woman whose life briefly intersected with her own, the more she begins to see it was not all it first seemed. What readers are saying about

Asking for Trouble: 'Fran is too good to confine to one book. What good news to learn that there is a series!' 'An intriguing storyline, described with humour and affection' 'Fran is a delightful character and one well worth following through the other parts of this series' *English with Equivalent in Spanish, German, Italian, French and Russian* Hachette UK Sally Burke feels alienated growing up, eventually realizing that she is a "Dylanist" a rebel whose feelings are an end in themselves leading to efforts to be of use in the world, in a new edition of the debut novel by the awardwinning author of Starting Out in the Evening.
