House Buying, Selling & Conveyancing Straightforward co Ltd

Moving home is one of the most stressful and expensive events in everyday life. This practical guide explains the process of buying and selling in Scotland, outlining the various options open to people and explaining the factors to be considered at every stage. This book helps people to consider whether to move in the first place, what they can afford, and what they should look for in terms of space, location and facilities. It then explains: what is involved in buying and selling a home; mortgages; surveys and valuations; the conveyancing process. Finally, it provides invaluable tips on surviving the actual move itself.

This title is a self-help guide for those who wish to buy or sell a house or buy property at auction.

Which? Way to Buy, Sell and Move House A&C Black

'Altering Houses and Small-scale Residential Development' is a practical guide for home owners and those undertaking residential building projects. It is also useful for students and emerging professionals concerned with the built environment, especially small-scale development procedures. Undertaking house alterations can be daunting, not least because considerations of cost, design and method can simultaneously demand urgent and careful attention. In addition, there are regulations and the law to be satisfied, contracts to be entered into and a host of potential problems concerned with the form and condition of the building itself. It is a rare building which is not defective in some way, but putting things right can be very satisfying. The Bridgers' book assumes that many home owners now wish to understand more clearly what goes on when they commission contractors and consultants to convert and adapt their homes. Or course, there are also people who intend to manage a project themselves, while others may undertake work on a DIY basis, and the secret then is getting the right kind of help. This book will be invaluable in either situation because it explains how to perform certain functions yourself, yet clarifies the roles and responsibilities of the professionals who may be needed to help with the processes of buying, altering and selling a house. The economic factors in development are not overlooked since, for people who wish to develop in order to sell or let property, market conditions will be paramount, as will the forecasting and control of costs. This book provides practical guidance on these matters; it avoids theory, but does suggest further reading. It is also highly illustrated with over 100 illustrations clarifying parts of the text. The main theme of this book is altering houses but, in practice, the differences between some alterations schemes and building a new house can be relatively small. As a result, much of the material will be useful for those who wish to acquire a plot of land and undertake a modest residential development. Altering or building houses and selling them can be a complex business, covering a wide range of

interrelated factors. This book will make these processes easier.

A Practical Approach to Conveyancing Law Society Publishing
Covering the conveyancing on straightforward house-buying or selling transactions, this title details the process from finding a buyer to post-completion, and offers advice on how to pick the best mortgage and avoid gazumping and gazundering.

All You Need to Know about Buying and Selling Your Property
Anchor Books

Drawing on the authors' extensive experience in legal practice, this text provides a thorough and highly pragmatic overview of the key principles and procedures underpinning both residential and commercial conveyancing, making it essential reading for students, practitioners and licensed conveyancers.

Buying and Selling Real Estate Right Way

Complex Conveyancing is written both for the guidance of trainee solicitors attending the Law Society of Ireland's Law School and conveyancing practitioners who wish to revisit complex areas of conveyancing, property and landlord and tenant law. The topics covered include complex unregistered titles: land registration and complex dealings in the Land Registry; voluntary deeds and ethical issues; farm conveyancing; property held by religious orders; the impact of the food hygiene and safety, health and welfare at work legislation on conveyancing practice; full repairing and insuring leases; companies and commercial lending; acting for a builder or developer; new and second hand apartments; mixed residential developments; mixed developments and international property. Finally, this text gives an overview of some tax issues arising on the sale or purchase of investment property.

Use insider knowledge to cut costs and avoid expensive mistakes Pascal Press

Whether you are buying or selling your home, you need to stay in control of the process at all times. This text aims to help the reader do this. It contains detailed guidance on the legal side of buying and selling a house, from exchanging contracts to completion; what expenses to expect and how to keep them to a minimum; monitoring the activities of your estate agent and solicitor (unless you are handling your own own conveyancing - and there is advice on how to do that as well); and organizing the practicalities of the move itself. This edition also explains the current legislation dealing with the purchase of houses and lists all the official fees, such as those charged by the Land Registry and local authorities.
