 The epic second novel from the author of the acclaimed *Anthrax Island*. John Tyler has a new mission: capture a heavily protected target from the Alps and smuggle him back into the UK in time for Christmas. La Rochelle in the dead of night: Tyler boards the *Tiburón*, a rusting freighter crewed by smugglers and mercenaries, for the last leg of his journey. But he is short on time. His mark's security team has pursued him across France, determined to retrieve their boss, and they won't be deterred by an ocean. The race is on. Tyler heads into the Bay of Biscay in a storm, with a pursuing boat snapping at his heels. But when his prisoner is found murdered inside a sealed hold on the ship, everyone on board becomes a suspect. In the flickering light of the *Tiburón's* passageways there's nowhere to run, but everywhere to hide.

Some might think the situation is spiralling out of control, but they don't know John Tyler... Perfect for fans of Alistair MacLean and Terry Hayes, *Ronin* meets Bond in this high-octane thriller that races from the French Alps to a creaking ghost ship in the Atlantic, with a locked-room mystery at its heart. Praise for *Black Run* 'Black Run is an absolutely stunning sequel to *Anthrax Island* that will delight action and mystery fans in equal measure' Chris McGeorge, author of *Half-Past Tomorrow* 'A rip-roaring, rollicking rollercoaster of a read! Another ingenious locked-room mystery unravelled amidst a series of high-velocity action sequences, the tension and drama expertly maintained throughout. John Tyler is rapidly becoming one of my favourite action heroes' Russ Thomas, author of *Nighthawking* 'I slalomed my way through *Black Run* like a downhill skier on acid. Marshall has again combined an

adrenaline-fuelled adventure yarn with an unfathomable locked-room mystery. Packed with brutal action and bodies galore, *Black Run* is a treat for all the senses' Trevor Wood, author of *One Way Street* 'Nobody fuses action and mystery with such punch, panache and verve as D. L. Marshall, sending him straight to the genre's top table alongside Cussler and MacLean - with a flair for impossible enigmas echoing the best of Christie. A simply outstanding, breakout novel' Rob Parker, author of *Far from the Tree* 'Spectacular... Brilliantly constructed action sequences so realistic it feels like bullets are whizzing past your head, smart as hell and expertly paced. Tyler would snap Bond in two then send him back to the 20th century in a body bag...' Adam Simcox, author of *The Dying Squad* 'Blistering action and brilliant plotting. *Black Run* grabs you from the first page and never lets up' Tim Glistler, author of *Red Corona* 'Black Run is a brilliantly hectic thrill ride, razor-sharp and full of dark humour. A joy to read' Doug Johnstone, author of *The Big Chill* 'D. L. Marshall just keeps getting better and better... This is an adrenaline-fuelled charge from start to finish, and John Tyler drives the action in a way that makes Bond look like an also-ran' Alison Belsham, author of *The Tattoo Thief* 'Black Run is the very definition of high stakes on the seas and slopes. Raced through this in two sittings. D. L. Marshall has doubled down on the danger levels, and produced one of the finest action thrillers in years' Robert Scragg, author of *End of the Line* 'Black Run takes the all-action baton from *Anthrax Island* and runs with it. It's an incredible thriller with a claustrophobic setting, whip-cracking dialogue, a swaggering hero and more bullets than I could count. With *Black Run*, D. L. Marshall cements himself as today's go-to writer for heart-pounding, blistering action adventure' Chris McDonald, author of *A Wash of Black*

*Born to be Riled* is a collection of hilarious vintage journalism from Jeremy Clarkson. Jeremy Clarkson, it has to said, sometimes finds the world a maddening place. And nowhere more so than from behind the wheel of a car, where you can see any number of people acting like lunatics while in control (or not) of a ton of metal. In this collection of classic columns, first published in 1999, Jeremy takes a look at the world through his windscreen, shakes his head at what he sees - and then puts the boot in. Among other things, he explains: • Why Surrey is worse than Wales • How crossing your legs in America can lead to arrest • The reason cable TV salesmen must be punched • That divorce can be blamed on the birth of Jesus Raving politicians, pointless celebrities, ridiculous 'personalities' and the Germans all get it in the neck, together with the stupid, the daft and the ludicrous, in a tour de force of comic writing guaranteed to have Jeremy's postman wheezing under sackfuls of letters from the easily offended. Praise for Jeremy Clarkson: 'Brilliant . . . laugh-out-loud' Daily Telegraph 'Outrageously funny . . . will have you in stitches' Time Out Number-one bestseller Jeremy Clarkson writes on cars, current affairs and anything else that annoys him in his sharp and funny collections. *Clarkson On Cars*, *Don't Stop Me Now*, *Driven To Distraction*, *Round the Bend*, *Motorworld* and *I Know You Got Soul* are also available as Penguin paperbacks; the Penguin App *iClarkson: The Book of Cars* can be downloaded on the App Store. Jeremy Clarkson because his writing career on the Rotherham Advertiser. Since then he has written for the Sun and the Sunday Times. Today he is the tallest person working in British television, and is the presenter of the hugely popular *Top Gear*.

*The Magic of a Name* tells the story of the first 40 years of Britain's most prestigious manufacturer - Rolls-Royce. Beginning with the historic meeting in 1904 of Henry Royce and the Honourable C.S. Rolls, and the birth in 1906 of the legendary Silver Ghost, Peter Pugh tells a story of genius, skill, hard work and dedication which gave the world cars and aero engines unrivalled in their excellence. In 1915, 100 years ago, the pair produced their first aero engine, the Eagle which along with the Hawk, Falcon and Condor proved themselves in battle in the First World

War. In the Second the totemic Merlin was installed in the Spitfire and built in a race against time in 1940 to help win the Battle of Britain. With unrivalled access to the company's archives, Peter Pugh's history is a unique portrait of both an iconic name and of British industry at its best.

**Skiing** The Rosen Publishing Group, Inc On a small assembly line in Neckarsulm, Germany, no more than twenty exotic Audi R8 sports cars are built daily. The entire process is overseen by small teams of specialists that oversee every step of production. Every single part is inspected carefully, and nothing goes unchecked. It is a level of hand-built quality one might expect to find in a Ferrari Enzo or the Vector W8A of the 1980s, but almost unheard of from a manufacturer the size of Audi AG. The Turbo Quattro Coupe (or Urquattro) of the early 1980s was largely assembled by hand much in the same way, but Audi has refined the process for the R8 and has introduced one of the most spectacular sports cars ever. I hope this book will provide a better insight into the design, development, and production of this magnificent automobile.

Luis Martín Díaz shows why some companies are still reluctant to cooperate with partners in the supply chain even though it may be advantageous to them. Based on an extensive survey within the European automotive industry, he proposes solutions to this paradox and describes a prototype for the assessment of the added-value of cooperation.
