In this brand new publication from eminent historian Peter C. Smith, we are regaled with the engaging and often incredibly disturbing history of the Kamikaze tradition in Japanese culture. Tracing its history right back to the original Divine Wind (major natural typhoons) that saved Japan from invaders in ancient history, Smith explores the subsequent resurrection of the cult of the warrior in the late nineteenth century. He then follows this tradition through into the Second World War, describing the many

Kamikaze suicide attacks carried out by the Emperor's pilots against Allied naval vessels in the closing stages of the Pacific campaign.??These pilots were at the mercy of an overriding cultural tradition that demanded death over defeat, capture or perceived shame. Despite often being under-trained and ill-prepared psychologically for the sacrifices they were about to make, they were nonetheless expected to make them. The dedication of sacrifice for the Emperor and the Nation is explored by dissecting the traces left behind by these pilots. Smith provides a detailed look at the heartbreak of the pilot's families and the men themselves, the notes they left and the effects on those who did not share their philosophy. The views of individuals under attack are also included in this balanced

history.??Countless attacks carried out over the Philippine Islands (including the sinking of the St Lo) are analyzed and the Okinawa campaign is afforded particularly strong coverage, with the sinking of HMAS Australia explored in detail. The collective sacrifice is then summed up, with reflections from survivors on both sides appraising events in a humane historical context. A detailed appendices then follows, featuring units formed, sorties mounted, ships sunk and damages inflicted.

Protecting the Promise is the first book in the Culturally Sustaining Pedagogies Series edited by Django Paris. It features a collection of short stories told in collaboration with five Native families that speak to the everyday aspects of Indigenous educational resurgence rooted in the intergenerational learning that occurs between mothers and their children. The author defines “resurgence” as the ongoing actions that recenter Indigenous realities and knowledges, while simultaneously denouncing and healing from the damaging effects of settler colonial systems. By illuminating the potential of such educational resurgence, the book counters deficit paradigms too often placed on Indigenous communities. It also demonstrates the need to include Indigenous Knowledges within the curriculum for both in-school and out-of-school settings. These engaging narratives reframe Indigenous parents as critical and compassionate educators, cultural brokers, and storytellers who are central partners in the education of their children. Book

Features: A window into how and why Indigenous resurgence through (and sometimes in resistance to) education can happen. A narrative style of writing that builds accessible stories that are both relatable and connected to larger social issues. An interdisciplinary approach that has implications for pre- and in-service teachers and school administrators, as well as for the communities from which these stories originated. A teacher-friendly Afterword that offers lesson ideas for the classroom and companion questions to the short stories.
