Giuseppe (1923-2010) and Giovanna
Panza di Biumo are known as passionate
and tireless collectors who over the
course of more than fifty years built an
extraordinary collection of contemporary
art. Extraordinary for the artists included

- Rothko, Kline, Tàpies, Lichtenstein,
Oldenburg, Rosenquist, Andre, Serra,
Nauman, Kosuth, LeWitt, Weiner, Sims
and Fredenthal, among others - but
especially for its implied vision: an
innate and bold capacity to recognize in
each work its radical, peculiar content of
truth, well in advance of the critics and
art market. This volume is the result of a
long conversation with Philippe Ungar
between 2007 and 2009. In this cultured
and moving dialogue, the inner need to

discover and acquire works of art is revealed as an intellectual adventure and a spiritual journey but also as the creation of a familiar lexicon founded on the tenacious search for beauty through art.

In the closing decade of the nineteenth century, the modern age invaded the city streets of Italy in the form of advertising posters. Bouquets of monkeys, elephants, masks, automobiles and elegantly--and sometimes scantily--clad ladies suddenly blossomed upon walls everywhere, indoors and out, visually grabbing the attention of an Italian public interested in the new commercial products that promised a new way of living. These advertisements

were executed by some of the greatest illustrators of the day--Leonetto Cappiello, Achille Lucien Mauzan, Marcello Dudovich, Plinio Codognato, Leopoldo Metlicovitz and Gino Boccasile--who together produced a medley of playful, allusive, ironic and experimental imagery unmatched by any other European or American posters of that era. The current scarcity of Italian posters on the market today makes this lush publication all the more valuable for its depiction of a legacy in poster design. *Oltre il confine. Narrare la Val San Martino* Franklin Classics Trade Press Recently the diary of a World War I Italian soldier in the front-line trenches of Italy was opened for the world to see; it has been in the safekeeping of his American-born daughter who could not

understand the Italian writing. The text offers remarkable insight into the real life of a brave, hard-working soldier fighting in hopeless combat.

Emilio Sereni's classic work is now available in an English language edition. *History of the Italian Agricultural Landscape* is a synthesis of the agricultural history of Italy in its economic, social, and ecological context, from antiquity to the mid-twentieth century. From his perspective in the Italian tradition of cultural Marxism, Sereni guides the reader through the millennial changes that have affected the agriculture and ecology of the regions of Italy, as well as through the successes and failures of farmers and

technicians in antiquity, the middle ages, the Renaissance, and the Industrial Revolution. In this sweeping historical survey, he describes attempts by successive generations to adapt Italy's natural environment for the purposes of agriculture and to respond to its changing ecological problems. *History of the Italian Agricultural Landscape* first appeared in 1961. At the time of its publication it was a pathbreaking work, parallel in its importance for Italy to Marc Bloc's masterwork of 1931, *The Original Characteristics of French Rural History*. Sereni invented the concept of the historical "agricultural landscape": an interdisciplinary characterization of rural life involving economic and social history, linguistics, archeology, art history, and ecological studies. Originally

published in 1997. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

One late-winter morning, a young man is cycling downhill to primary school when he encounters a peculiar man - as big as a mountain and as filthy as a garbage dump. After a brief conversation this earthy apparition endows him with a gift: an internal clock that allows him to see into the future and exist in the present at the same time. The young man becomes Timeskipper, seeing and foreseeing the epochal events of his era, from postwar reconstruction to the birth of television. These events are tenderly offset by his own personal experiences - love, jobs and adventures.

striking, even startling, contemporary relevance.

I dipendenti di un'azienda organizzano una gita a Parigi. Al termine di quel viaggio, una serie di circostanze spingono l'Autore ad approfondire la conoscenza di Ferruccio, Ciccino e Fabienne (tre dei cinquanta partecipanti alla gita) e a farci conoscere le loro storie personali. Nel passaggio dall'uno all'altro degli stessi racconti scopriamo anche la grande forza evolutiva che è in lui e che lo sta portando a cambiare in maniera profonda il suo rapporto con Dio e il proprio modo di muoversi nel mondo.

If you ever read one book by John Buchan this should be it, an often overlooked masterpiece of historical fiction. The Path of the King, offers a tapestry of historical episodes, from the blood soaked spears of Viking

battlefields to the industrial slaughter of the American Civil War, we trace the idea of kingliness and whether the highborn hold the only chance of true nobility and honour.

McCarthy's Bar Turun Yliopisto

"It was half past five in the morning as I lurched through the front door of the B&B. Mrs. O'Sullivan appeared just in time to see me pause to admire the luminous Virgin holy water stand with integral night-light, and knock it off the wall. Politely declining the six rounds of ham sandwiches on the tray she was holding, I edged gingerly along the hallway to the wrong bedroom door and opened it." Despite the many exotic places Peter McCarthy has visited, he finds that nowhere else can match the particular magic of Ireland, his mother's

hometown. In McCarthy's Bar, his journey begins in Cork and continues along the west coast to Donegal in the north.

Traveling through spectacular landscapes, but at all times obeying the rule, "never pass a bar that has your name on it," he encounters McCarthy's bars up and down the land, meeting fascinating people before pleading to be let out at four o'clock in the morning. Through adventures with English hippies who have colonized a desolate mountain; roots-seeking, buffet-devouring American tourists; priests for whom the word "father" has a loaded meaning; enthusiastic Germans who "here since many years holidays are making;" and his fellow barefoot pilgrims on an island called Purgatory, Peter pursues the secrets of Ireland's global

popularity and his own confused Irish-Anglo identity. Written by someone who is at once an insider and an outsider, McCarthy's Bar is a wonderfully funny and affectionate portrait of a rapidly changing country.

The State of European Integration Zed Books

The publication, in 1872, of Darwin's *The Expression of the Emotions in Man and*

Animals had a profound effect upon the development of Psychology. Darwin's book gave to three men the impetus to develop the theory of the emotions as organic processes, and this theory has not only become so strongly entrenched in scientific thought that it is practically assumed today as the basis for the study of the emotional life, but has also led to the development of the hypothesis of reaction or response as the basis of all mental life: a hypothesis which is rapidly supplanting the phrenologists' theory of brain-activity. The three men who independently developed the organic theory of the emotions were Carl Georg Lange in Denmark, William James in America, and Alexander Sutherland in Australia. The writings of James and Lange had profound influence on

contemporary and later psychologists, and on this account it is not unfair to apply the name "James-Lange Theory" to the organic theory of the emotions, as is customarily done. This implies no lack of appreciation of the work of Sutherland, or of the contributions of Ribot, Mosso, and later investigators. We present in this volume a new translation of Lange's Ueber Gemuthsbewegungen, made by Miss Istar A. Haupt from Kurella's German version, together with a reprinting of James' What is an Emotion? and his chapter on "The Emotions" from the Principles of Psychology.
