Recounts the adventures that ensue when the elves pop out of the tree where they've been shut up for years and settle down with the woodland folk.

Dolomiti a sei zampe. 32 itinerari per vivere i monti con il nostro cane Christopher Helm Publishers, Incorporated

A lonely squirrel goes searching for a new home, only to discover that the best place is one where the whole community can live together. Joining Barefoot's acclaimed collection of social-emotional titles, this tale offers the perfect opportunity to start conversations about coping with loneliness, the importance of community, and what makes a place feel like home. Beautiful illustrations by award-winning Italian artist Simona Mulazzani

bring Squirrel's journey to life.

The Woodland Folk Meet the Elves Penguin

"Authoritative and comprehensive--provides an up-to-date description of the tool box of methods for inventorying and monitoring the diverse spectrum of reptiles. All biodiversity scientists will want to have it during project planning and as study progresses. A must for field biologists, conservation planners, and biodiversity managers."--Jay M. Savage, San Diego State University "Kudos to the editors and contributors to this book. From the perspective of a non-ecologist such as myself, who only occasionally needs to intensively sample a particular site or habitat, the quality and clarity of this book has been well

worth the wait."--Jack W. Sites, Jr.

The articles become gradually more difficult as you proceed through the book to keep you challenged and engaged. Better Reading Italian is an easy, engaging way to boost your language skills and learn more about the language and its speakers as you go.

Both Heaven and Hell Knopf Books for Young Readers

In this exhilarating coming-of-age tale set in the late 19th century, a daring young woman braves the wilds of the mountainous Austrian-Italian border—and the dangerous men who conspired with her missing father to smuggle tobacco—in order to save her family. Jole de Boer is just fifteen years old the first time she accompanies her father—a tobacco grower named Augusto—as he smuggles his product across the Italian border into Austria. She knows the dangers of the treacherous high mountain passes—border guards, brigands, wild animals, ferocious weather—but she is proud that her father has asked her to join him. After all, without the extra money Augusto's smuggling brings in, their family would starve. But when Augusto mysteriously disappears during one of his trips, Jole must retrace the route he took to both find a buyer for her family's tobacco—and the truth behind her father's disappearance. An epic tale of revenge, corruption, and salvation, *The Soul of the Border* is an unforgettable journey into the wild.

The Complete Idiot's Guide to Being Vegetarian Indiana University Press

In 1970, Chris Bonington and his now-legendary team of mountaineers were the first climbers to tackle a big wall at extreme altitude. Their target was the south face of Nepal's Annapurna: 12,000 feet of steep rock and ice leading to a 26,454-ft. summit. As serious armchair climbers will tell you, Annapurna South Face is better than all but a handful of equally gripping classics. One could also argue that all that has happened in the big mountains in the past 30 years has come out of this expedition and out of this book. Bonington and his team—most of whom subsequently died in the mountains—represented a kind of "greatest generation" of modern mountaineers. They pioneered a new, bolder approach to high altitude climbing, and this book is about how they hit the big time.

Budgeting for Small Business Simon and Schuster

The true tale of an Edenic Rocky Mountain town and what transpired when a predatory species returned to its ancestral home. When, in the late 1980s, residents of Boulder, Colorado, suddenly began to see mountain lions in their yards, it became clear that the cats had repopulated the land after decades of persecution. Here, in a riveting environmental fable that recalls Peter Benchley's thriller *Jaws*, journalist David Baron traces the history of the mountain lion and chronicles Boulder's effort to coexist with its new neighbors. A parable for our times, *The Beast in the Garden* is a scientific detective story and a real-life drama, a tragic tale of the struggle between two highly evolved predators: man and beast.

Dinosaur Tracks from Brazil is the first full-length study of dinosaurs in Brazil. Some 500 dinosaur trackways from the Cretaceous period still remain in the Rio do Peixe basins of Brazil, making it one of the largest trackways in the world. Veteran paleontologists Giuseppe Leonardi and Ismar de Souza Carvalho painstakingly document and analyze each track found at 37 individual sites and at approximately 96 stratigraphic levels. Richly illustrated and containing a wealth of data, Leonardi and de Souza Carvalho brilliantly reconstruct the taxonomic groups of the dinosaurs from the area and show how they moved across the alluvial fans, meandering rivers, and shallow lakes of ancient Gondwana. *Dinosaur Tracks from Brazil* is essential reading for paleontologists.

This tale of an awkward Israeli widower and his misadventures with women is an "extraordinary novel . . . a masterpiece" (Los Angeles Times). After seven long years of illness, Molkho's wife passes, leaving him in mourning, but also with an unexpected sense of freedom. No longer is he bound to being a caretaker for a woman too sick to even bear his touch. His future—and his desires—are his own. As the seasons of his life propel the hapless middle-aged accountant through a series of journeys and a string of infatuations—with an unwanted wife, an aggressive bureaucrat, a young girl, and a Russian émigré—Molkho begins to find the real element that was missing in his life was not romance, but his own will. An absurd, tragic, humorous, and hopeful meditation on love, marriage, and the quiet struggles of average Israeli lives, *Five Seasons* "reconfirms [A. B. Yehoshua's] status as a shrewd analyst of domestic ordeals" (Publishers Weekly).

Emilio Sereni's classic work is now available in an English

language edition. History of the Italian Agricultural Landscape is a synthesis of the agricultural history of Italy in its economic, social, and ecological context, from antiquity to the mid-twentieth century. From his perspective in the Italian tradition of cultural Marxism, Sereni guides the reader through the millennial changes that have affected the agriculture and ecology of the regions of Italy, as well as through the successes and failures of farmers and technicians in antiquity, the middle ages, the Renaissance, and the Industrial Revolution. In this sweeping historical survey, he describes attempts by successive generations to adapt Italy's natural environment for the purposes of agriculture and to respond to its changing ecological problems. History of the Italian Agricultural Landscape first appeared in 1961. At the time of its publication it was a pathbreaking work, parallel in its importance

for Italy to Marc Bloc's masterwork of 1931, The Original Characteristics of French Rural History. Sereni invented the concept of the historical "agricultural landscape": an interdisciplinary characterization of rural life involving economic and social history, linguistics, archeology, art history, and ecological studies. Originally published in 1997. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.
