There's a strong interest in reading for pleasure or self-improvement in America, as shown by the popularity of Harry Potter, and book clubs, including Oprah Winfrey's. Although recent government reports show a decline in recreational reading, the same reports show a strong correlation between interest in reading and academic achievement. This set provides a snapshot of the current state of popular American literature, including various types and genres. The volume presents alphabetically arranged entries on more than 70 diverse literary categories, such as cyberpunk, fantasy literature, flash fiction, GLBTQ literature, graphic novels, manga and anime, and zines. Each entry is written by an expert contributor and provides a

definition of the genre, an overview of its history, a look at trends and themes, a discussion of how the literary form engages contemporary issues, a review of the genre's reception, a discussion of authors and works, and suggestions for further reading. Sidebars provide fascinating details, and the set closes with a selected, general bibliography. Reading in America for pleasure and knowledge continues to be popular, even while other media compete for attention. While students continue to read many of the standard classics, new genres have emerged. These have captured the attention of general readers and are also playing a critical role in the language arts classroom. This book maps the state of popular literature and reading in America today, including the growth of new genres, such as cyberpunk, zines, flash fiction, GLBTQ literature, and other topics. Each entry is written by an expert contributor and provides a definition of the genre, an overview of its history, a look at trends and themes, a discussion of how the literary form engages contemporary issues, a review of the genre's critical reception, a discussion of authors and works, and suggestions for further reading. Sidebars provide fascinating details, and the set closes with a selected, general bibliography. Students will find this book a valuable guide to what they're reading today and will appreciate its illumination of popular culture and contemporary social issues.

Moving Parts offers actors the best monologues from great plays—pieces by both well-known and up-and-coming playwrights, including many minority artists—that offer a variety of dramatic styles for beginning and experienced actors. Included are more than a hundred monologues from such contemporary voices as Eric Bogosian, Caryl Churchill, Christopher Durang, Maria Irene Fornes, Athol Fugard, Philip Kan Gotanda, Václav Havel,

Lanford Wilson, and George C. Wolfe. Designed for easy browsing, the monologues are indexed by gender, age, and subject to help actors locate appropriate material, and each is introduced with a short description of the plot, setting, and character type. These monologues stand on their own as good theater, while they give actors a well-defined character, a story to tell, and a wide range of behavior and feeling to portray.

The Heart of Teaching is a book about teaching and learning in the performing arts. Its focus is on the inner dynamics of teaching: the processes by which teachers can promote—or undermine—creativity itself. It covers the many issues that teachers, directors and choreographers experience, from the frustrations of dealing with silent students and helping young artists ‘unlearn’ their inhibitions, to problems of resistance, judgment and race in the classroom. Wangh raises questions about what can—and what cannot—be taught, and opens a discussion about the social, psychological and spiritual values that underlie the skills and techniques that teachers impart. Subjects addressed include: Question asking: which kinds of questions encourage creativity and which can subvert the learning process. Feedback: how it can foster both dependence and independence in students. Grading: its meaning and meaninglessness. Power relationships, transference and counter-transference The pivotal role of listening. The Heart of Teaching speaks to experienced teachers and beginning teachers in all disciplines, but is particularly relevant to those in the performing arts, from which most of its examples are drawn. It brings essential insight and honesty to the discussion of how to teach.

I was born with a bomb in my head. You can't know what it's like to constantly fear your own mind. Pop Sheeran, proudly shouldering the family trade of restoring the Forth Bridge, is about to lose it all. A global corporation has bought this Scottish icon, bringing with them innovative new paint. How will Pop fight back when he realises he's painting himself out of a job? Diary of a Madman is a sharply political, witty new adaptation of Gogol's classic story, reimagined in a contemporary Scotland on the brink of voting for independence. The play received its world premiere at the Traverse Theatre, Edinburgh, on 5 August 2016 before opening at the Gate Theatre, London, in September 2016.

For over 150 years, Irish playwrights, beginning with Dion Boucicault, have been celebrated by American audiences. However, Irish theater as represented on the American stage is a selective version of the national drama, and the underlying causes for Irish dramatic success in America illuminate the cultural state of both countries at specific historical moments. Irish Theater in America is the first book devoted entirely to the long history of this transatlantic exchange. Born out of the conference of the Irish Theatrical Diaspora project, this collection gathers together leading American and Irish scholars, in addition to established theater critics. Contributors explore the history of Irish theater in America from Harrigan and Hart, through some of the greatest and most disappointing Irish tours of America, to the most contemporary productions of senior Irish playwrights such as Brian Friel and younger writers such as Martin McDonagh and Conor McPherson. Covering the complexity of the relationship between Irish theater and the United States, this volume goes beyond the expected analysis of plays to include examinations of company dynamics, analysis of audience reception, and reviews of production history of individual works. Contents include: Mick Moloney, “Harrigan, Hart, and Braham: Irish-America

and the Birth of the American Musical” Nicholas Grene, “Faith Healer in New York and Dublin” Lucy McDiarmid, “The Abbey, Its ‘Helpers,’ and the Field of Cultural Production in 1913” Christina Hunt Mahony, “‘The Irish Play’: Beyond the Generic”

“I call this book The Intent to Live because great actors don't seem to be acting, they seem to be actually living.” –Larry Moss, from the Introduction When Oscar-winning actors Helen Hunt and Hilary Swank accepted their Academy Awards, each credited Larry Moss's guidance as key to their career-making performances. There is a two-year waiting list for his advanced acting classes. But now everyone—professionals and amateurs alike—can discover Moss's passionate, in-depth teaching. Inviting you to join him in the classroom and onstage, Moss shares the techniques he has developed over thirty years to help actors set their emotions, imagination, and behavior on fire, showing how the hard work of preparation pays off in performances that are spontaneous, fresh, and authentic. From the foundations of script analysis to the nuances of physicalization and sensory work, here are the case studies, exercises, and insights that enable you to connect personally with a script, develop your character from the inside out, overcome fear and inhibition, and master the technical skills required for success in the theater, television, and movies. Far more than a handbook, The Intent to Live is the personal credo of a master teacher. Moss's respect for actors and love of the actor's craft enliven every page, together with examples from a wealth of plays and films, both current and classic, and vivid appreciations of great performances. Whether you act for a living or simply want a deeper understanding of acting greatness, The Intent to Live will move, instruct, and inspire you.
