 Considering studying history at university?
 Wondering whether a history degree will get you a good job, and what you might earn? Want to know what it's actually like to study history at degree level? This book tells you what you need to know. Studying any subject at degree level is an investment in the future that involves significant cost. Now more than ever, students and their parents need to weigh up the potential benefits of university courses. That's where the Why Study series comes in. This series of books, aimed at students, parents and teachers, explains in practical terms the range and scope of an academic subject at university

level and where it can lead in terms of careers or further study. Each book sets out to enthuse the reader about its subject and answer the crucial questions that a college prospectus does not.

Connect students to the stories of history. Connect students to the experience of history. Connect students to success in history. At McGraw-Hill, we have dedicated the past few years to deepening our understanding of student and instructor experience. Employing a wide array of research tools including surveys, focus groups, and ethnographic studies, we've identified areas in need of improvement to provide an opportunity for greater learning and teaching experiences. The fifth edition of Traditions & Encounters is a result of this. Traditions & Encounters also has a

rich history of firsts: the first world history text to take a truly global perspective on the past; the first to emphasise connections among cultures; the first to combine twin themes with a seven-part framework, making the huge story of world history more manageable to both teach and learn. Now Traditions & Encounters becomes the first truly interactive world history program: one that marries groundbreaking adaptive diagnostics and interactivities with a captivating narrative and engaging visuals, creating a unique learning environment that propels greater student success and better course results. Instructors gain insight into students' engagement and understanding as students develop a base of knowledge and construct critical thinking skills. Chapter-opening vignettes and a lively narrative keep students turning the page while the

adaptive questioning for each chapter and the personalized study plan for each individual student help students prepare for class discussions and course work. With its hallmark of twin themes, Traditions & Encounters continues to tell the story of the cultures and interactions that have shaped world history, while adding redesigned maps, new primary sources, and new chapter- and part-level features that strengthen connections and prompt students to analyse the events and themes in order to build a greater understanding of the past and an appreciation of history's influence on the present. Students are no longer simply reading; they are reading, interacting, and engaging in a visual, auditory, and hands-on learning experience. Give students an experience. Improve course participation and performance. Experience Traditions & Encounters, and experience success.

"On the basis of a superficial inspection, Traditions & Encounters might look similar to several other textbooks that survey the world's past. Like other books, for example, Traditions & Encounters examines the historical development of societies in Asia, Europe, Africa, the Americas, and Oceania. Yet Traditions & Encounters differs from other works in two particularly important ways. First, it relies on a pair of prominent themes to bring a global perspective to the study of world history: it traces the historical development of individual societies in all world regions, and it also focuses attention systematically on interactions between peoples of different societies. Second, it organizes the human past into seven eras that represent distinct and coherent periods of global historical development"-- Preface (Page xvi).

Why Study History? McGraw-Hill Education Presents a controversial history of violence which argues that today's world is the most peaceful time in human existence, drawing on psychological insights into intrinsic values that are causing people to condemn violence as an acceptable measure.

The Bookseller OUP Oxford
Based on Bentley and Ziegler's best-selling, comprehensive survey text, Traditions & Encounters: A Brief Global History provides a streamlined account of the cultures and interactions that have

shaped world history. An effective part structure organizes developments into seven eras of global history, putting events into perspective and creating a framework for cross-cultural comparisons, while the strong themes of traditions (the formations and development of the world's major societies) and encounters (cross-cultural interactions and exchanges) bring focus to the human experience and help turn the giant story of world history into something more manageable. With an engaging narrative, visual appeal, extended pedagogy, and a strong emphasis on critical thinking, this concise version offers enhanced flexibility and affordability without sacrificing the features that have made the complete text a favorite among instructors and students alike.

The Better Angels of Our Nature White Lion Publishing

"A comprehensive encyclopedia of world history with 538 articles that trace the development of human history -- with a focus on area studies, global history, anthropology, geography, science, arts, literature, economics, women's studies, African-American studies, and cultural studies related to all regions of the world"- Provided by publisher.

McGraw-Hill Humanities/Social Sciences/Languages

History has traditionally privileged elites and their accomplishments. World Histories from Below provides an antidote, placing 'ordinary' people and subordinated subjects at the heart of the themes it explores. Arguing that disruption and dissent are overlooked agents of historical change, it takes a global view of topics including political revolution, religious conversion, labour struggles and body

politics. This 2nd edition includes two additional chapters on indigenous peoples, migration and environmental histories from below. With an updated preface, this enhanced text also includes additional images and case studies to grapple with themes that have more recently come to the fore, such as populism and the environment. Offering a study of these themes from 1750 to the present day, World Histories from Below refocuses our entire approach to teaching world history.
A Critical Introduction McGraw-Hill Education

Traditions and Encounters new Advanced Placement edition offers an inclusive vision of the global past -- one that is meaningful and appropriate for the interdependent world of contemporary times. Through new and revised chapter-level and part-level features, the hallmark twin themes of traditions and encounters emerge in greater clarity than ever before. Integrated AP features and primary documents enhance the learning experience. --

One of the most recognized and revered car brands, Bentley celebrates its centenary in 2019. In conjunction with the Bentley Drivers Club and the W.O. Bentley Memorial Foundation, 100 Years of Bentley is a lavish celebration of the company, from its earliest models right up the

modern day cars. A six-times winner in the gruelling Le Mans 24-hour race, Bentley is also the brand behind iconic cars such as the 41/2-Litre 'Blower', the R-type Continental, and modern classics such as the Continental GT and Mulsanne. Featuring more than 200 pictures, many from the club's archives and some never seen in print before, this beautiful book details the whole history of Bentley. From W.O. Bentley's early days as a railway engineer along with his first attempts at modifying French DFP cars, to the company's early racing exploits, including its victories in the early Le Mans races. Covering the Bentley brand's revival in the 1980s and renewed impetus when it was acquired by the Volkswagen group, the story is brought up to date with the awesome new Bentleys built for the 21st century and the new era of electrification just around the corner.

Traditions & Encounters: A Global Perspective on the Past McGraw-Hill Education

In the two thousand years that have elapsed since the time of Christ, Christians have been as much divided by their faith as united, as much at odds as in communion. And the contents of Christian confession have developed with astonishing energy. How can believers claim a faith and practice that has been passed down through the ages while recognizing the real historical contingencies that have shaped both those doctrines and those divisions? In this carefully argued essay, David Bentley Hart critiques the concept of 'tradition' that has become dominant in Christian thought as fundamentally incoherent. He puts forth a convincing new explanation of Christian tradition, one that is obedient to the nature of Christianity not only as a "revealed" creed embodied in historical events but as the "apocalyptic" revelation of a history that is largely identical with the eternal truth it supposedly discloses. Hart shows that Christian tradition is sustained not simply by its preservation of the past, but more essentially by its anticipation of the future. He offers a compelling portrayal of a living tradition held together by apocalyptic expectation--the promised transformation of all things in God.

The era from 1400 to 1800 saw intense biological, commercial, and cultural exchanges, and the creation of global connections on an unprecedented scale. Divided into two books, Volume 6 of the Cambridge World History series considers these critical transformations. The first book examines the material and political foundations of the era, including global considerations of the environment, disease, technology, and cities, along with regional studies of empires in the eastern and western hemispheres, crossroads areas such as the Indian Ocean, Central Asia, and the Caribbean, and sites of competition and conflict, including Southeast Asia, Africa, and the Mediterranean. The second book focuses on patterns of change, examining the expansion of Christianity and Islam, migrations, warfare, and other topics on a global scale, and offering insightful detailed analyses of the Columbian exchange, slavery, silver, trade, entrepreneurs, Asian religions, legal encounters, plantation economies, early industrialism, and the writing of history.
