A New York Times bestseller and enduring classic, *All About Love* is the acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation" trilogy. *All About Love* reveals what causes a polarized society, and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word

'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in *All About Love*. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at

both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The Utne Reader declared bell hooks one of the “100 Visionaries Who Can Change Your Life.” All About Love is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

Persian Letters is a satirical work by Charles de Secondat, baron de Montesquieu, recounting the experiences of two Persian noblemen, Usbek and Rica, who are traveling through France. In 1711 Usbek leaves his seraglio in Isfahan to undertake the long journey to France, accompanied by his young friend Rica. He leaves behind five wives (Zachi, Zéphis, Fatmé, Zélis, and Roxane) in the care of a number of black eunuchs, one of whom is the head or first eunuch. During the trip and their long stay in Paris (1712-1720), they comment, in letters exchanged with friends and mullahs, on numerous aspects of Western, Christian society, particularly French politics and mores,

ending with a biting satire of the System of John Law. Over time, various disorders surface back in the seraglio, and beginning in 1717 (Letter 139 [147]), the situation there rapidly unravels. Usbek orders his head eunuch to crack down, but his message does not arrive in time and a revolt brings about the death of his wives, including the vengeful suicide of his favorite, Roxane, and, it appears, most of the eunuchs... About the author: Charles-Louis de Secondat, baron de La Brède et de Montesquieu (18 January 1689, La Brède, Gironde - 10 February 1755), was a French social commentator and political thinker who lived during the Era of the Enlightenment. He is famous for his articulation of the theory of separation of powers, taken for granted in modern discussions of government

and implemented in many constitutions throughout the world. He was largely responsible for the popularization of the terms feudalism and Byzantine Empire. Persian Letters is a satirical work by Montesquieu, recounting the experiences of two Persian noblemen, Usbek and Rica, who are traveling through France.

"If all goes well, the time will come when one will take up the memorabilia of Socrates rather than the Bible as a guide to morals and reason." "Never yield to remorse, but at once tell yourself: remorse would simply mean adding to the first act of stupidity a second." In 1880, the third part of Human, All Too Human was released - 'The Wanderer

Zeromski's last novel tells the story of

Cezary Baryka, a young Pole who finds himself in Baku, Azerbaijan, a predominantly Armenia city, as the Russian Revolution breaks out. He becomes embroiled in the chaos caused by the revolution, and barely escapes with his life. Then, he and his father set off on a horrendous journey west to reach Poland. His father dies en route, but Cezary makes it to the newly independent Poland. Here he struggles to find his place in the turmoil of the new country. Cezary sees the suffering of the poor and the working classes, yet his experiences in the newly formed Soviet Union make him deeply suspicious of socialist and communist solutions. Cezary is an outsider among both the gentry and the working classes, and he cannot find where he belongs.

Furthermore, he has unsuccessful and tragic love relations. The novel ends when, despite his profound misgivings, he takes up political action on behalf of the poor.

After the close of the Hungarian war, when the marriage of Pan Andrei Kmita and Panna Aleksandra Billevich was celebrated, a cavalier, equally meritorious and famous in the Commonwealth, Pan Michael Volodyovski, colonel of the Lauda squadron, was to enter the bonds of marriage with Panna Anna Borzobogati Krasinski. But notable hindrances rose, which delayed and put back the affair. The lady was a foster-daughter of Princess Griselda Vishnyevetski, without

whose permission Panna Anna would in no wise consent to the wedding. Pan Michael was forced therefore to leave his affianced in Vodokty, by reason of the troubled times, and go alone to Zamost for the consent and the blessing of the princess. But a favoring star did not guide him: he did not find the princess in Zamost; she had gone to the imperial court in Vienna for the education of her son. The persistent knight followed her even to Vienna, though that took much time. When he had arranged the affair there successfully, he turned homeward in confident hope. He found troubled times at home: the army was forming a confederacy; in the Ukraine uprisings continued; at the eastern boundary the conflagration had not ceased. New forces were assembled to defend the

frontiers even in some fashion. Before Pan Michael had reached Warsaw, he received a commission issued by the voevoda of Rus. Thinking that the country should be preferred at all times to private affairs, he relinquished his plan of immediate marriage and moved to the Ukraine. He campaigned in those regions some years, living in battles, in unspeakable hardships and labor, having barely a chance on occasions to send letters to the expectant lady. Next he was envoy to the Crimea; then came the unfortunate civil war with Pan Lyubomirski, in which Volodyovski fought on the side of the king against that traitor and infamous man; then he went to the Ukraine a second time under Sobieski. From these achievements the glory of his name increased in such

manner that he was considered on all sides as the first soldier of the Commonwealth, but the years were passing for him in anxiety, sighs, and yearning. At last 1668 came, when he was sent at command of the castellan to rest; at the beginning of the year he went for the cherished lady, and taking her from Vodokty, they set out for Cracow. They were journeying to Cracow, because Princess Griselda, who had returned from the dominions of the emperor, invited Pan Michael to have the marriage at that place, and offered herself to be mother to the bride. The Kmitas remained at home, not thinking to receive early news from Pan Michael, and altogether intent on a new guest that was coming to Vodokty. Providence had till that time withheld from them

children; now a change was impending, happy and in accordance with their wishes. That year was surpassingly fruitful. Grain had given such a bountiful yield that the barns could not hold it, and the whole land, in the length and the breadth of it, was covered with stacks. In neighborhoods ravaged by war the young pine groves had grown in one spring more than in two years at other times. There was abundance of game and of mushrooms in the forests, as if the unusual fruitfulness of the earth had been extended to all things that lived on it. Hence the friends of Pan Michael drew happy omens for his marriage also, but the fates ordained otherwise.

Feminist Political Ecology explores the gendered relations of ecologies,

economies and politics in communities as diverse as the rubber tappers in the rainforests of Brazil to activist groups fighting racism in New York City. Women are often at the centre of these struggles, struggles which concern local knowledge, everyday practice, rights to resources, sustainable development, environmental quality, and social justice. The book bridges the gap between the academic and rural orientation of political ecology and the largely activist and urban focus of environmental justice movements.

Internationally renowned lawyer and philosopher Ronald Dworkin addresses

the crucially related acts of abortion and euthanasia in a brilliantly original book that examines their meaning in a nation that prizes both life and individual liberty. From *Roe v. Wade* to the legal battle over the death of Nancy Cruzan, no issues have opened greater rifts in American society than those of abortion and euthanasia. At the heart of *Life's Dominion* is Dworkin's inquest into why abortion and euthanasia provoke such controversy. Do these acts violate some fundamental "right to life"? Or are the objections against them based on the belief that human life is sacred? Combining incisive moral reasoning and close readings of individual court decisions with a majestic interpretation of the U.S. Constitution itself, Dworkin gives us a work that is absolutely

essential for anyone who cares about the legal status of human life.

In general the stories in *The Adventures of Sherlock Holmes* identify, and try to correct, social injustices. Holmes is portrayed as offering a new, fairer sense of justice. The stories were well received, and boosted the subscriptions figures of *The Strand Magazine*, prompting Doyle to be able to demand more money for his next set of stories. The first story, "A Scandal in Bohemia", includes the character of Irene Adler, who, despite being featured only within this one story by Doyle, is a prominent character in modern Sherlock Holmes adaptations, generally as a love interest for Holmes. Doyle included four of the twelve stories from this collection in his twelve

favourite Sherlock Holmes stories, picking "The Adventure of the Speckled Band" as his overall favourite.

'A modern philosopher who has never once suspected himself of being a charlatan,' writes Leszek Kolakowski at the start of this endlessly stimulating book, 'must be such a shallow mind that his work is probably not worth reading.' For over a century, philosophers have argued that philosophy is impossible or useless, or both. Although the basic agenda dates back to the days of Socrates, there is still disagreement about the nature of truth, reality, knowledge, good and God. This may make little practical difference to our lives, but it leaves us with a feeling of

radical uncertainty described by Kolakowski as 'metaphysical horror'. Is there any way out of this cul-de-sac? This trenchant analysis confronts these dilemmas head on. Philosophy may not provide definitive answers to the fundamental questions, yet the quest itself transforms our lives. It may undermine most of our certainties, yet it still leaves room for our spiritual yearnings and religious beliefs. Kolakowski has forged a dazzling demonstration of philosophy in action. It is up to readers to take up the challenge of his arguments.
