## GRIFFITH ORLANDO

*Holley Carburetor Manual* Veloce Publishing Ltd

- New! Revised and updated edition - complete with extra illustrations - of this best-selling SpeedPro title.- The complete practical guide to successfully modifying cylinder heads for maximum power, economy and reliability.- Understandable language and

**Fast Ladies** Veloce Publishing Ltd

This book is the distillation of many years experience of working with Weber carburetors. These celebrated carburetors have been fitted to some of the most exciting and memorable cars and have been more widely used by tuners and modifiers, both for road and competition machinery, than any alternative. The mysteries of why and how they work so well and the practicalities of getting the best from them in any application are explained at length. Setting the carburetor to suit a particular engine, fault-finding on an existing installation, and the maintenance and repair of older carburetors are all topics which receive detailed attention. Anyone maintaining or restoring a classic Weber-equipped car, or contemplating a Weber-based conversion, or simply interested in the science of engine performance and tuning, will learn something from these pages.

*Popular Mechanics* Veloce Publishing Ltd

Full details on camshafts, camshaft timing, valve springs and cylinder head options and modifications. Carburation chapters cover: 13/4 and 2 inch twin SU setups; triple 2 inch SUs; and triple Weber and Dellorto setups. A special section is included on modifying SUs for improved engine performance, along with the relevant needle specifications. Full details on ignition systems and timing, exhaust manifolds and systems and general tune-up information.

**Secrets of Speed** Weber Carburettors Tuning Tips and Techniques

Millions of cars were equipped with SU carburetors. This book is for those people who wish to tune SU carburetors themselves, irrespective of how many carburetors there are on the engine or what type of engine it is you are dealing with.

*The Weber and Dellorto Carburetor Expert* Veloce Publishing Ltd

The concise history of the Bugatti Type 57, 57S, 64 & 101. The magnificent Type 57 was the final flowering of the genius of Ettore and Jean Bugatti, and the last truly new model from Molsheim, France. Packed with over 300 images - mostly contemporary - this book is recognised as THE standard reference on the 57 and its close relatives.

*Popular Mechanics* Veloce Publishing Ltd

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

*Popular Science* Veloce Publishing Ltd

It took a great deal of determination on the part of women to sweep aside male resistance from the inner circles of the motoring world. A veritable saga with a wealth of illustrations spanning almost a century of motor racing. Over forty unique portraits of daring, brave women who took part in speed records events, rallies and Grand Prix races.

*Inspired to Design* Veloce Publishing Ltd

This book covers the process of building 4-stroke engines to a professional standard, from selecting materials and planning work, right through to methods of final assembly and testing. It is written for the DIY engine builder in an easy-to-understand style, supported by approximately 200 photographs and original drawings. Containing five engine inspection and build sheets, and the contact details of approximately 45 specialist manufacturers and motorsport suppliers, it explains build methods common to all 4-stroke engines, rather than specific makes or models. An essential purchase for all engine-building enthusiasts.

*Weber Carburettors Tuning Tips and Techniques* Veloce Publishing Ltd

The authors spent seventeen days at the Morgan factory in Pickersleigh Road, Malvern Link recording step-by-step - from customer's specification sheet to finished car - how individual craftsmen handbuild a Morgan. Follow this amazing journey through the factory, from craftsman to craftsman, by word and picture.

*The Alfa Romeo V6 Engine High-Performance Manual* Motorbooks International

Hillclimbing & Sprinting is one of the most popular ways of getting into UK motorsport. Over 400 such events take place each year. This book shows competitors how to get started, how to improve and how to drive the top courses, with extensive information on this sport.

*The Last Real Austins* Veloce Publishing Ltd

Learn how Webers work and what to change for improved performance. Comprehensive chapters include carburetion basics and Weber carburetor design, selecting and installing correct Weber setup for your engine, tuning for maximum performance, and rebuilding Weber carburetors. Select, install and tune Weber sidedraft and downdraft carburetors for performance or economy. Also includes theory of operation and design, troubleshoot, and repair.

**How to Power Tune Jaguar XK 3.4, 3.8 & 4.2 Litre Engines** Veloce Publishing Ltd

Following in the tracks of the author's well-known Alfa DOHC tuning manual, Jim Kartalamakis describes all kinds of useful information and techniques to increase power, performance and reliability of V6 Alfas and their engines. This book is the result of much research and firsthand experience gained through many projects concerning Alfa V6 rear-wheel drive models, from the GTV6 series to the last of the 75 3.0 models. A wealth of completely new information can be found here regarding cylinder head mods, big brake mods, LSD adjustment procedure, suspension modifications for road and track, electrical system improvements, flowbench diagrams, dyno plots, and much more!

*How To Build & Power Tune Weber & Dellorto DCOE, DCO/SP & DHLA Carburettors 3rd Edition* Brooklands Books Limited

Packed with information on stripping and rebuilding, tuning, jetting, and choke sizes. Application formulae help you calculate exactly the right setup for your car. Covers all Weber DCOE & Dellorto DHLA & DCO/SP carburettors.

**SU Carburettor High-Performance Manual** Veloce Publishing Ltd

This totally revised, updated and enlarged book is THE complete guide to building a fast MG Midget or Austin-Healey Sprite for road or track. Daniel has been continuously developing his own 'Spridget' for years, and really does know what works and what doesn't when it comes to building a fast Midget or Sprite. Best of all, this book covers every aspect of the car, from the tyre contact patch to the rollover bar, and from radiator back to exhaust tailpipe. This new edition contains updated information for parts and suppliers, many new photos, and features new material covering aerodynamics, including results from testing the effect of modifications at the MIRA wind tunnel. With over 400 mainly colour photos and exclusive tuning advice, this is a MUST for any Sprite or Midget owner.

*Weber Carburettors* Veloce Publishing Ltd

This book's title sums up its purpose. Anatomy of the Classic Mini is the result of years of research, and documents the many variations of the same components, explaining which model and date each is for. An essential reference book for all restorers of classic Minis!

*How To Build & Power Tune Weber & Dellorto DCOE, DCO/SP & DHLA Carburettors 3rd Edition* Haynes Manuals N. America, Incorporated

How to blueprint any 4-cylinder, 4-stroke engine's short block for maximum performance and reliability. Covers choosing components, crank and rod bearings, pistons, camshafts and much more.

*Weber Carburetors* Veloce Publishing Ltd

This is a complete practical guide to choosing and specifying Holley carburetors for any suitable engine and for road or track performance. Uniquely, allows the identification of complete secondhand carburetors and individual components, including all metering blocks.
