The Leadership Pipeline HarperCollins

A New York Times bestseller! In this motivational handbook—both a business how-to and self-help guide—the New York Times bestselling author of *Dot Complicated* takes on the fallacy of the "well-balanced" life, arguing that the key to success is learning to be well-lopsided. *Work. Sleep. Fitness. Family. Friends. Pick Three.* In an increasingly demanding world, we've been told that we can do everything—maintain friendships, devote ourselves to work, spend time with family, stay fit, and get enough sleep. We just need to learn to balance it all. *Randi Zuckerberg* doesn't believe in being well-balanced. We can't do it all every day, she contends, and trying to do so only leaves us frustrated and feeling inadequate. But we can succeed if we *Pick Three*. *Randi* first introduced the concept of *Pick Three* in a tweet—"The Entrepreneur's Dilemma"—that went viral. Now, in this book, she expands on her philosophy and inspires others to follow her lead. From entrepreneurs to professionals, busy parents to students, *Randi* can help everyone learn to reject the unrealistic

burden of balance and enjoy success in their own lives—by picking the most important areas to focus on in any given day. This practical handbook includes stories from *Randi's* career learning that there's no such thing as a perfect balance—as well as insights and examples from other professionals at the top of the biggest businesses in Silicon Valley, new moms searching for permission to focus on family, and recent graduates convinced they should have it all under control, including *Arianna Huffington*, *Reshma Saujani*, *Laurie Hernandez*, and *Brad Takei*. We can't have it all every day, and that's okay, *Randi* reminds us. *Pick Three* is her much-needed guide to learning to embrace the well-lopsided life.

Neale Donald Walsch has changed the way the world thinks about God. His books have been translated into twenty-five languages, and his Conversations With God series, book 1, book 2, and book 3, have all been New York Times bestsellers—book 1 for over two years. In the Conversations books, Walsch shared with his readers the beginning of a sacred relationship, as he began an exchange with God on everything from love and faith, to life and death, and good and evil. And then, as Walsch recounted in Friendship with God, something else extraordinary began to happen. His relationship with God began to strengthen and deepen, just as our own relationships do, into a friendship. Now in Communion with God, his most richly intimate book yet, Walsch discovers how to elevate that friendship to a state of communion. In this blueprint for seekers, he reveals The Ten Illusions of Man—the misconceptions we hold about ourselves and our world and our God. He describes with striking clarity how we might heal the great divide that has arisen from these illusions. And as he explores the true meaning of bringing God into our everyday lives, of having the courage of our convictions. Walsch shows us that we can only break free from our illusions when we act always from a place of deep fellowship with all that is holy—a place of communion with God.

Legendary leadership and elite performance expert Robin Sharma introduced The 5am Club concept over twenty years ago, based on a revolutionary morning routine that has helped his clients maximize their productivity, activate their best health and bulletproof their serenity in this age of overwhelming complexity. Now, in this life-changing book, handcrafted by the author over a rigorous four-year period, you will discover the early-rising habit that has helped so many accomplish epic results while upgrading their happiness, helpfulness and feelings of aliveness. Through an enchanting—and often amusing—story about two struggling strangers who meet an eccentric tycoon who becomes their secret mentor, The 5am Club will walk you through: How great geniuses, business titans and the world's wisest people start their mornings to produce astonishing achievements A little-known formula you can use instantly to wake up early feeling inspired, focused and flooded with a fiery drive to get the most out of each day A step-by-step method to protect the quietest hours of daybreak so you have time for exercise, self-renewal and personal growth A neuroscience-based practice proven to help make it easy to rise while most people are sleeping, giving you precious time for yourself to think, express your creativity and begin the day peacefully instead of being rushed “Insider-only” tactics to defend your gifts, talents and dreams against digital distraction and trivial diversions so you enjoy fortune, influence and a magnificent impact on the world Part manifesto for mastery, part playbook for genius-grade productivity and part companion for a life lived beautifully, The 5am Club is a work that will transform your life. Forever.

Together, these authors have more first-hand experience in leadership development and succession planning than you're likely to find anywhere else. And here, they show companies how to create a pipeline of talent that will continuously fill their leadership needs—needs they may not even yet realize. The Leadership Pipeline delivers a proven framework for priming future leaders by planning for their development, coaching them, and measuring the results of those efforts. Moreover, the book presents a combination leadership-development/succession-planning program that ensures a steady line-up of leaders for every critical position within the company. It's an approach that bolsters the retention of intellectual capital as it eliminates the need to go outside for expensive “stars,” who will probably jump ship before they reach their full potential anyway. *Chakras* HMH

Eca de Queiros was Portugal's greatest nineteenth-century novelist, whose works brilliantly evoke - and condemn -- the rapidly changing society of his times. The Maias (1888) depicts the declining fortunes of a landowning family over three generations as they are gradually undermined by hypocrisy, complacency, and sexual license. With a vivid, comprehensive portrayal of nineteenth-century Portuguese politics and social history, Eca creates a kind of *comédie humaine* that, despite the force of its social satire and its damning critique of the Portugal from which he had exiled himself, is a supreme work of humor and irony. The author was a diplomat who traveled widely, and although he claimed to be an apostle of naturalist realism, he reveals with detached irony the

lethargy and decadence of his native land. The book initially attracted attention through its account of an incestuous romance, yet today we can see this as just one element in a novel whose compelling story, depth of thought, and compassion make it one of Europe's great literary masterpieces.

We have long since lost our faith in the idea that human beings could achieve human happiness in some future ideal state—a state that Thomas More, writing five centuries ago, tied to a topos, a fixed place, a land, an island, a sovereign state under a wise and benevolent ruler. But while we have lost our faith in utopias of all hues, the human aspiration that made this vision so compelling has not died. Instead it is re-emerging today as a vision focused not on the future but on the past, not on a future-to-be-created but on an abandoned and undead past that we could call retrotopia. The emergence of retrotopia is interwoven with the deepening gulf between power and politics that is a defining feature of our contemporary liquid-modern world—the gulf between the ability to get things done and the capability of deciding what things need to be done, a capability once vested with the territorially sovereign state. This deepening gulf has rendered nation-states unable to deliver on their promises, giving rise to a widespread disenchantment with the idea that the future will improve the human condition and a mistrust in the ability of nation-states to make this happen. True to the utopian spirit, retrotopia derives its stimulus from the urge to rectify the failings of the present human condition—though now by resurrecting the failed and forgotten potentials of the past. Imagined aspects of the past, genuine or putative, serve as the main landmarks today in drawing the road-map to a better world. Having lost all faith in the idea of building an alternative society of the future, many turn instead to the grand ideas of the past, buried but not yet dead. Such is retrotopia, the contours of which are examined by Zygmunt Bauman in this sharp dissection of our contemporary romance with the past.

The measure of the executive, Peter Drucker reminds us, is the ability to 'get the right things done'. Usually this involves doing what other people have overlooked, as well as avoiding what is unproductive. He identifies five talents as essential to effectiveness, and these can be learned; in fact, they must be learned just as scales must be mastered by every piano student regardless of his natural gifts. Intelligence, imagination and knowledge may all be wasted in an executive job without the acquired habits of mind that convert these into results. One of the talents is the management of time. Another is choosing what to contribute to the particular organization. A third is knowing where and how to apply your strength to best effect. Fourth is setting up the right priorities. And all of them must be knitted together by effective decision-making. How these can be developed forms the main body of the book. The author ranges widely through the annals of business and government to demonstrate the distinctive skill of the executive. He turns familiar experience upside down to see it in new perspective. The book is full of surprises, with its fresh insights into old and seemingly trite situations.

Finally the characters from all fables and children's tales escape their old stories to go and live at 'New Lands' - a fantastic world built on a few acres of farms that Dona Benta buys from her neighbours. Castles, coaches, bridges, mountains and even a whole sea complete with monsters, mermaids and a pirate ship get transported into the new 'home'. But under one condition: The good old peaceful Yellow Woodpecker Grange is separated from New Lands by a fence which the

new dwellers must not trespass. Can they keep to their promise? And can the yellowwoodpeckers not navigate their way into the fantastic world of New Lands? Don Quixote and Sancho Panza, Captain Hook and his pirates, Bellerophon the Greek hero with Pegasus the winged horse and the three-headed monster Chimera are a few of the characters that move into Dona Benta's house while she, Aunt Nastacia, Retroussy, Pete, Emily and Viscount sail through the many exotic vicinities of New Lands and its troubles in a journey that ends right at the fairytale wedding of the year and the frightening invasion of gatecrashing monsters! In 'The Fairies', bonus short story also by Monteiro Lobato, Snow White and the Seven Dwarfs offer at the front yard of Yellow Woodpecker Grange a lavishing banquet for many invitees. The guest of honour is Puss in Boots, the very responsible for the messy end of the party. MONTEIRO LOBATO (São Paulo, Brazil, 18 April 1882 - 04 July 1948) was South America's pioneer in the genre Children's Literature as well as the founder of the first publishing house in the continent. Notably, he translated from the English and self-published Lewis Carroll's Alice's Adventures in Wonderland and JM Barrie's Peter Pan; or, The Boy Who Would Not Grow Up. His fantasy books featuring the YELLOW WOODPECKER GRANGE characters have been adapted to cinema, TV series, comic books, theatre, music and TV cartoons across the decades. Monteiro Lobato has influenced many generations of writers and his characters are still the most recognisable in national culture.

The Gruffalo Random House

The updated edition of the bestselling book that has changed millions of lives with its insights into the growth mindset “Through clever research studies and engaging writing, Dweck illuminates how our beliefs about our capabilities exert tremendous influence on how we learn and which paths we take in life.”—Bill Gates, GatesNotes After decades of research, world-renowned Stanford University psychologist Carol S. Dweck, Ph.D., discovered a simple but groundbreaking idea: the power of mindset. In this brilliant book, she shows how success in school, work, sports, the arts, and almost every area of human endeavor can be dramatically influenced by how we think about our talents and abilities. People with a fixed mindset—those who believe that abilities are fixed—are less likely to flourish than those with a growth mindset—those who believe that abilities can be developed. Mindset reveals how great parents, teachers, managers, and athletes can put this idea to use to foster outstanding accomplishment. In this edition, Dweck offers new insights into her now famous and broadly embraced concept. She introduces a phenomenon she calls false growth mindset and guides people toward adopting a deeper, truer growth mindset. She also expands the mindset concept beyond the individual, applying it to the cultures of groups and organizations. With the right mindset, you can motivate those you lead, teach, and love—to transform their lives and your own.

Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times—for all the right reasons—but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. “Why should I put time into studying subjects I will never use in real life?” he protested. Without thinking, I responded, “Because if you don't get good grades, you won't get into college.” “Regardless of whether I go to college,” he replied, “I'm going to be rich.”
