A NEW YORK TIMES NOTABLE BOOK OF 2020 From the bestselling author of Nixonland and The Invisible Bridge comes the dramatic conclusion of how conservatism took control of American political power. Over two decades, Rick Perlstein has published three definitive works about the emerging dominance of conservatism in modern American politics. With the saga's final installment, he has delivered yet another stunning literary and historical achievement. In late 1976, Ronald Reagan was dismissed as a man without a political future: defeated in his nomination bid against a sitting president of his own party, blamed for President Gerald Ford's defeat, too old to make another run. His comeback was fueled by an extraordinary confluence: fundamentalist preachers and former segregationists reinventing themselves as militant crusaders against gay rights and feminism; business executives uniting against regulation in an era of economic decline; a cadre of secretive "New Right" organizers deploying state-of-the-art technology, bending political norms to the breaking point—and Reagan's own unbending optimism, his ability to convey unshakable confidence in America as the world's "shining city on a hill." Meanwhile, a civil war broke out in the Democratic party. When President Jimmy Carter called Americans to a new ethic of austerity,

Senator Ted Kennedy reacted with horror, challenging him for reelection. Carter's Oval Office tenure was further imperiled by the Iranian hostage crisis, the Soviet invasion of Afghanistan, near-catastrophe at a Pennsylvania nuclear plant, aviation accidents, serial killers on the loose, and endless gas lines. Backed by a reenergized conservative Republican base, Reagan ran on the campaign slogan "Make America Great Again"—and prevailed. Reaganland is the story of how that happened, tracing conservatives' cutthroat strategies to gain power and explaining why they endure four decades later.

Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of Into the Wild. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding—and not an ounce of sentimentality. Mesmerizing, heartbreaking, Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

"The most remarkable feature of man's future is its flexibility. It is determined by his attitudes rather than by his acts. The cornerstone on which all things are based is man's concept of himself." -

Neville Goddard, *Out of This World* This title shows the same intensity of thought and conviction that had made Neville famous amongst progressive thinkers. Here he explains the power of imagination and offers detailed visualization/mediation techniques that are out of this world! Learn what thinking fourth dimensionally is all about and discover how to change your future and make your desires in the invisible manifest in this physical realm. In *Out of This World* we see not only a profound religious feeling, but also a sense of the dignity and responsibility of human life. Our own feeling about the results of his experiments as a whole is that they are not just an addition to our existing knowledge, but require a revolution in our whole way of thinking about the world.

A Doll's House is a three-act play in prose by Henrik Ibsen. The play is significant for its critical attitude toward 19th century marriage norms. In the central character of Nora, Ibsen epitomized the human struggle against the humiliating constraints of social conformity. Nora's ultimate rejection of a smothering marriage and life in 'a doll's house' shocked theatergoers of the late 1800s and opened new horizons for playwrights and their audiences.

In the corridors of the Vatican on the eve of World War II, American Catholic priest Joseph Patrick Hurley found himself in the midst of secret diplomatic dealings and intense debate. Hurley's deeply felt American patriotism and fixed ideas about confronting Nazism directly led to a mighty clash with Pope Pius XII. It was 1939, the earliest days of Pius's papacy, and controversy within the Vatican over policy toward Nazi Germany was already heated. This groundbreaking book is both a biography of Joseph Hurley, the first American to achieve the rank of nuncio, or Vatican ambassador, and an insiders view of the alleged silence of the pope on the Holocaust and Nazism. Drawing on Hurley's unpublished archives, the book documents critical debates in Pope Pius's Vatican, secret U.S.-Vatican dealings, the influence of Detroit's flamboyant anti-Semitic priest Charles E. Coughlin, and the controversial case of Croatia's Cardinal Stepinac. The book also sheds light on the powerful connections between religion and politics in the twentieth century.

Rafael Leónidas Trujillo's dictatorship. It doesn't have to. Everybody knows of Las Mariposas--the Butterflies. In this extraordinary novel, the voices of all four sisters--Minerva, Patria, María Teresa, and the survivor, Dedé--speak across the decades to tell their own stories, from secret crushes to gunrunning, and to describe the everyday horrors of life under Trujillo's rule. Through the art and magic of Julia Alvarez's imagination, the martyred Butterflies live again in this novel of courage and love, and the human costs of political oppression. A devastating and lyrical work of nonfiction, *Young Men and Fire* describes the events of August 5, 1949, when a crew of fifteen of the US Forest Service's elite airborne firefighters, the Smokejumpers, stepped into the sky above a remote forest fire in the Montana wilderness. Two hours after their jump, all but three of the men were dead or mortally burned. Haunted by these deaths for forty years, Norman Maclean puts together the scattered pieces of the Mann Gulch tragedy in *Young Men and Fire*, which won the National Book Critics Circle Award. Alongside Maclean's now-canonical *A River Runs through It and Other Stories*, *Young Men and Fire* is recognized today as a classic of the American West. This twenty-fifth anniversary edition of Maclean's later triumph—the last book he would write—includes a powerful new foreword by Timothy Egan, author of *The Big Burn* and *The Worst Hard Time*. As moving and profound as when it was first published, *Young Men and Fire* honors the literary legacy of a man who gave voice to an essential corner of the American soul.

She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human

biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.

In this triumphant memoir, Carl Bernstein, the Pulitzer Prize-winning coauthor of *All the President’s Men* and pioneer of investigative journalism, recalls his beginnings as an audacious teenage newspaper reporter in the nation’s capital—a winning tale of scrapes, gumshoeing, and American bedlam. In 1960, Bernstein was just a sixteen-year-old at considerable risk of failing to graduate high school. Inquisitive, self-taught—and, yes, truant—Bernstein landed a job as a copyboy at the *Evening Star*, the afternoon paper in Washington. By nineteen, he was a reporter there. In *Chasing History: A Kid in the Newsroom*, Bernstein recalls the origins of his storied journalistic career as he chronicles the Kennedy era, the swelling civil rights movement, and a slew of grisly crimes. He spins a buoyant, frenetic account of educating himself in what Bob Woodward describes as “the genius of perpetual engagement.” Funny and exhilarating, poignant and frank, *Chasing History* is an extraordinary memoir of life on the cusp of adulthood for a determined young man with a dogged commitment to the truth.

Spanning eight decades and chronicling the wild ride of a Greek-American family through the vicissitudes of the twentieth century, Jeffrey Eugenides’ witty, exuberant novel on one level tells a traditional story about three generations of a fantastic, absurd, lovable immigrant family -- blessed and cursed with generous doses of tragedy and high comedy. But there’s a provocative twist. Cal, the narrator -- also Callie -- is a hermaphrodite. And the explanation for this takes us spooling back in time, through a breathtaking review of the twentieth century, to 1922, when the Turks sacked Smyrna and Callie’s grandparents fled for their lives. Back to a tiny village in Asia Minor where two lovers, and one rare genetic mutation, set our narrator’s life in motion. *Middlesex* is a grand, utterly original fable of crossed bloodlines, the intricacies of gender, and the deep, untidy promptings of desire. It’s a brilliant exploration of divided people, divided families, divided cities and nations -- the connected halves that make up ourselves and our world.
