BRAUN MAURICIO

To Dakar and Back Cambridge
 University Press
 On the 100th anniversary of the
 publication of *History and Class
 Consciousness*, a new edition of this
 indispensable guide to Lukacs's thought

and politics The philosophical and
 political development that converted
 Georg Lukács from a distinguished
 representative of Central European
 aesthetic vitalism into a major Marxist
 theorist and Communist militant has
 long remained an enigma. In this this
 now classic study, Michael Löwy for the
 first time traced and explained the
 extraordinary mutation that occurred in

Lukács's thought between 1909 and 1929. Utilizing many as yet unpublished sources, Löwy meticulously reconstructed the complex itinerary of Lukács's thinking as he gradually moved towards his decisive encounter with Bolshevism. The religious convictions of the early Lukács, the peculiar spell exercised on him and on Max Weber by Dostoyevskyan images of pre-revolutionary Russia, the nature of his friendships with Ernst Bloch and Thomas Mann, were amongst the discoveries of the book. Then, in a fascinating case-study in the sociology of ideas, Löwy showed how the same philosophical problematic of Lebensphilosophie dominated the intelligentsias of both Germany and Hungary in the pre-war period, yet how the different configurations of social forces in each country bent its political destiny into opposite directions. The famous works produced by Lukács during and after the Hungarian Commune—*Tactics and Ethics*, *History and Class Consciousness* and *Lenin*—were analysed and assessed. A concluding chapter discussed Lukács's eventual ambiguous settlement with Stalinism in the thirties, and its coda of renewed radicalism in the final years of his life. In this new edition, Löwy has added a substantial new introduction which reassess the nature of Lukács's thought in the light of newly published texts and debates.

In this adventure motorsports memoir, the first Canadian motorcycle racer to complete the infamous Paris-Dakar Rally recounts his incredible journey. The Paris-Dakar Rally is without question the most arduous and notorious off-road motorsports event on the planet. Since its inception in 1979, it has attracted

more than three thousand adventurers from all walks of life. The men and women who have taken up the “Dakar challenge” have at least one thing in common: a desire to measure themselves against the desolate sands of the Sahara. In 2001, Canadian adventure racer Lawrence Hacking entered what would be the last rally on the iconic route from Paris to Dakar. In *To Dakar and Back*, Hacking, in collaboration with motorsport journalist Wil De Clercq, recounts the three weeks of blood, sweat, and tears that took him on that ten thousand kilometer journey in the heat of competition from the glitzy streets of the French capital through the hinterland of North Western Africa and the triumph of self-realization.

‘Inspired’, ‘enthraling’ and ‘stylish’ are just some of the words used to describe the first edition of *Bearback*. Now in paperback, Pat Garrod’s remarkable story is set to be discovered by even more travellers.. Imagine jacking it all in, packing your life into a 41-litre pannier and riding into the sunset. *Bearback* is the story of two GPs who did just that, downing stethoscopes to take off on their motorcycle, *The Bear*, to see the world. Across the deserts of Africa, over the mountains of the Andes, deep into the jungles of Indochina, and beyond the Arctic Circle; 100,000 miles through six continents and 64 countries. A circumnavigation of epic proportion and entirely unsupported, it was to become one of the longest journeys ever undertaken by a couple on one motorcycle, a journey destined to change their lives forever. ‘A remarkable journey. Searching, honest, uplifting’ – Sir Ranulph Fiennes ‘An inspired travelogue, dispelling the myth that

remarkable journeys are out of your grasp' – National Geographic Traveller 'Belts along at a cracking pace. Stylish and good quality' - RIDE 'I didn't want this enthralling book to end. If you only read one travelogue this year, make it this one' – Real Travel, Book of the Month 'We've all dreamed about it – quitting the job, packing up the house, and hitting the road for the adventure of a lifetime. Few do it, and even fewer do it as well as Pat Garrod' – Travel Africa Magazine

A concise but thorough look at invaluable applied counseling skills, this book provides detailed information on 35 counseling techniques from varied theoretical approaches to help clients from all backgrounds create changes in their lives and meet their counseling goals. While most introductory counseling skills classes in counselor education programs use a microskills approach supplemented with a theories text that provides a cursory glance at theory-based techniques, most counseling students enter their field without advanced instruction on the application of theory-based techniques to the counseling process. This first edition text strives to provide that missing piece -- it is a succinct text that can be used as a secondary text in a theories, techniques, practicum, internship, or advanced or applied skills course that presents in-depth treatment of the major theory-based techniques that counselors use. The text informs counselors of the theoretical basis underlying each technique and the common variations for implementation. Each technique is accompanied by research that informs the counselor of which techniques are best with which

populations and each theoretical approach includes the multicultural implications for applying the approach to counseling clients from diverse cultures. The book also gives readers transcripts that illustrate how to use the techniques in sessions as well as outcomes research that informs counselors of the most effective ways to use these counseling techniques in practice with diverse clients.

The Longest Ride Prentice Hall
Riding motorcycles is fun, but author Ken Condon maintains that there is a state of

consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.

For his eighth birthday, Emilio Scotto received a World Atlas. Promptly he announced his plan to make a route that would pass through all the countries of the world, a route he named BLUE ROAD ONE. When, some years later, he found himself astride a black 1100 Honda Gold Wing motorcycle, Blue Road One beckoned, and Scotto set off on a journey that would last more than a decade, take him virtually everywhere in the world, and land him in the Guinness Book of World Records. This is his story, a thrill ride that begins in his native Argentina, crosses Panama in the tumultuous time of Noriega, Mexico in

the midst of an earthquake, and finds him broke in L.A. where, in a chance meeting, Muhammad Ali gives him fifty dollars and a signed book. Breaching the Iron Curtain, crossing the Berlin Wall at Checkpoint Charlie, being blessed by the Pope, set upon by cannibals in Sierra Leone, fleeing Somalia on a freighter, Scotto's adventures would be unbelievable if they weren't true. His tale of touring the world from Tunisia to Turkey, Petra to Afghanistan, Yugoslavia to Singapore, traveling miles enough to take him to the moon and back, is unlike any ever told. Come along, for the ride of a lifetime.

Celebrate more than 60 years of Italian motorcycle mastery. Over 60 years ago in Bologna, Italy, a small company called Ducati began manufacturing simple, inexpensive 50cc motorcycles--really no more than two-stroke-powered bicycles. Since then, Ducati has evolved into one of the most storied names in the motorcycling world, its lineup of beautiful machines revered for their technical excellence and extreme performance. In *The Art of Ducati*, Ducati expert Ian Falloon teams with renowned British photographer James Mann to present a gorgeously illustrated, wonderfully curated review of more than six decades of Ducati excitement. From the single-cylinder bikes of the 1950s and 1960s to the bevel-drive twins of the 1970s and early 1980s to the high-performance bikes of the 21st century, *The Art of Ducati* showcases a motorcycle marque that has never rested on its laurels. Ducati's style and technology have constantly evolved, engineering timeless classics like the 900SS, Darmah, Mike Hailwood Replica, 851, 916, Monster, and ST sports touring series, bikes that laid the foundation for today's cutting-edge models: the Panigale superbike, Multistrada adventure bike, all-new Monster, Hypermotard, and Diavel power cruiser. While there's no end in sight for Ducati's

dominance, *The Art of Ducati* pays homage to their past six-plus decades of masterful motorcycle engineering.
