Life at Fashionista magazine can be a real bitch. Especially when you work for one. Vig Morgan finally worked her way out of the assistant-for-the-bitch-from-hell trenches only to get stuck in a sea of editors. But Vig isn't like the other associate editors at the aggressively hip and overwhelmingly current Fashionista magazine. For one thing, she couldn't care less which star wore which designer to which party. Sure, she's clever and witty—and just as

ambitious as the next overqualified underpaid underling, but she would never get drawn into a plot to depose the evil editor-in-chief. Or would she? Jump with Vig into the choppy waters of scheming, backstabbing, free speech, flirtation and fashion, as the lackeys at the bottom of the masthead band together to take down the queen at the top, with some unexpected—but not necessarily unpleasant—results.

The criminal law on serious traffic offenses presents legislators with numerous controversial issues. One such issue is when severe consequences are

matched with low moral culpability. How should the law deal with a driver who kills someone because she failed to see the person when looking? Another controversial issue concerns highly culpable behavior that remains without serious consequences. How should the law cope with a driver who nearly kills someone when overtaking recklessly? The traffic context generates many hard cases that call the outermost boundaries of general doctrinal concepts like intent, negligence, or

causation into question. This book contains an international collection of essays on criminal liability for serious traffic offenses. With a focus on England/Wales, the Netherlands, France, Germany, and Spain, the book reveals that there are enormous differences in both drafting and interpretation of serious traffic offenses. Additionally, it elaborates on the role of culpability and harm in sentencing, traffic-psychological insights relevant to accident causation, and

the concept of conditional intent in relation to extremely dangerous traffic behavior. (Series: Governance & Recht - Vol. 11) [Subject: Criminal Law, Traffic Law, Comparative Law] **Not the Killing Type** Harper Collins

In the context of digital technologies, copying data material is as ubiquitous as it is invisible. "originalcopy" is an artistic and scientific research project that illuminates the possibilities of this phenomenon, and opens them up for discussion

with its own means - those of the copy. The project concentrates on the tension between the transience of digital technologies and the way in which these technologies express themselves in an artistic language of design and materials. In so doing, "originalcopy" focuses less on the results of copying than on the processes that lead to these results.

writers, militants and other opponents of the Nazi regime fled Germany. They were, in the words of Heinrich Mann, "the best of Germany," refusing to remain citizens in this new state that legalized terror and brutality. Exiled across the world, they continued the fight against Nazism in prose, poetry, painting, architecture, film and theater. Weimar in Exile follows these lives, from the rise of national socialism to their return to a ruined homeland,

retracing their stories, struggles, setbacks and rare victories. The dignity in exile of Walter Benjamin, Ernst Bloch, Bertolt Brecht, Alfred Döblin, Hanns Eisler, Heinrich Mann, Thomas Mann, Anna Seghers, Ernst Toller, Stefan Zweig and many others provides a counterpoint to the story of Germany under the Nazis.

Courage and Fear is a study of a multicultural city in times when all norms collapse. Ola Hnatiuk presents a meticulously documented portrait of Lviv's ethnically diverse intelligentsia during World War Two. As the Soviet, Nazi, and once again Soviet occupations tear the city's social fabric apart, groups of Polish, Ukrainian, and Jewish doctors, academics, and artists try to survive,

struggling to manage complex relationships and to uphold their ethos. As their pre-war lives are violently upended, courage and fear shape their actions. Ola Hnatiuk employs diverse sources in several languages to tell the story of Lviv from a multi-ethnic perspective and to challenge the national narratives dominant in Central and Eastern Europe.
