This book is aimed at primary care providers who care for the pediatric age group (general pediatrician, the PCP working with pediatric patients, and family medicine providers) with the goal of covering the endocrine differential

diagnosis of common signs and symptoms of possible endocrine disease as well as appropriate initial laboratory evaluation and interpretation. While multiple pediatric endocrine textbooks exist, most of them are heavy in coverage of physiology and rare diseases, with less discussion of practical steps in evaluation and diagnosis. This book distinguishes itself

through a very practical approach. The first section is organized by presenting signs and symptoms, the second section is organized by laboratory interpretation, and the third section provides summaries of common pediatric endocrine disorders. Chapters are concise, providing critical clinical information including clinical pearls, common diagnoses and important

points in patient counseling. Written by experts in the field, *Endocrine Conditions in Pediatrics* is a valuable resource that provides general pediatricians and other primary care providers with all of the information they need to provide superb patient care before transferring to a pediatric endocrinologist when necessary.

The first book in Kate Atkinson's Jackson Brodie Mysteries series, called "The best mystery of the

decade" by Stephen King, finds private investigator Jackson Brodie following three seemingly unconnected family mysteries in Edinburg. Case one: A little girl goes missing in the night. Case two: A beautiful young office worker falls victim to a maniac's apparently random attack. Case three: A new mother finds herself trapped in a hell of her own making - with a very needy baby and a very demanding husband - until a fit of rage creates a grisly, bloody escape. Thirty years after the first

incident, as private investigator Jackson Brodie begins investigating all three cases, startling connections and discoveries emerge . . . [A Novel](#) Simon and Schuster

Behaving Like Adults

Penguin

A novel of love, loss, and lessons about men and women behaving badly is penned by the bestselling author of "Getting Over It" and "Running in Heels."

A Son of Privilege Learns to Live Like Everyone Else St.

Martin's Griffin

The marriage revolution is at hand--it's going on right now, led by a new generation of married women who crave independence and adventure just as much as they crave commitment.

With her fifteen years of experience at top women's magazines, Mandi Norwood hosts the perfect girls' night out, revealing married women's most intimate confessions from more than one hundred in-depth interviews. Sometimes hilarious, often tender, and always empowering, this smart, sexy, candid guide offers from-the-heart, savvy, and practical advice about every aspect of modern marriage from power, controlling money, and omigod-the-mother-in-

law, to brazen behavior in bed. It's something entirely different--sexier, more independent and definitely more complicated. The balance of power has not just shifted, it's off its axis entirely. Mandi Norwood has tapped into the new beast that is modern marriage to deliver straight talk about what really happens: at the dinner table, over the checkbook and in the bedroom. In over one hundred interviews with these new-fashioned wives-hitched chicks-

Norwood learned not just what women in marriages today want but how they get it. She found an energetic, adventurous generation whose intimate confessions add up to a hilarious and very candid night out with the girls. "High-voltage advice right out of Pandora's Box."-Lauren Stover, author of *THE BOMBSHELL MANUAL OF STYLE* "As soon as he slips the ring on your finger, find this book and read it cover to cover. It's the must-have-how-to manual for marriage."-Lucy Danziger,

editor-in-chief, *Self 100 Strategies to Bring Mr Right to Heel* John Wiley & Sons
 From the bestselling *Bridget Jones's Diary* that started the trend to the television sensation *Sex and the City* that captured it on screen, "chick lit" has become a major pop culture phenomenon. Banking on female audiences' identification with single, urban characters who struggle with the same life challenges, publishers have earned millions and even created separate

imprints dedicated to the genre. Not surprisingly, some highbrow critics have dismissed chick lit as trashy fiction, but fans have argued that it is as empowering as it is entertaining. This is the first volume of its kind to examine the chick lit phenomenon from a variety of angles, accounting for both its popularity and the intense reactions-positive and negative-it has provoked. The contributors explore the characteristics that cause readers to attach the moniker "chick" to a

particular book and what, if anything, distinguishes the category of chick lit from the works of Jane Austen on one end and Harlequin romance novels on the other. They critique the genre from a range of critical perspectives, considering its conflicted relationship with feminism and postfeminism, heterosexual romance, body image, and consumerism. The fourteen original essays gathered here also explore such trends and subgenres as "Sistah Lit,"

"Mommy Lit," and "Chick Lit Jr.," as well as regional variations. As the first book to consider the genre seriously, *Chick Lit* offers real insight into a new generation of women's fiction. *Running in Heels* St. Martin's Griffin Meet Holly, the sunny twenty-nine-year-old owner of Girl Meets Boy, a dating service for those who are "beautiful inside and out." Though she's a successful matchmaker, she hasn't quite fulfilled her own relationship dreams (her ex-fiancé,

Nick, seems unlikely to progress from his job as Mr. Elephant, children's party entertainer). So when her friends dare her to pick a man off the top of the pile, she's game. But in one awful evening, the seemingly perfect Stuart turns out to be a complete cad, and Holly's belief in the goodness of humanity takes a hit. What does it mean for her business and her romantic future if she can no longer trust her ability to read people? Holly's friends and colleagues are drawn into the complicated

drama of her life, while Holly learns her most important lesson: to trust herself. Rueful and hilarious, *Behaving Like Adults* is a must-read novel of men and women growing up -- in spite of themselves.

boyfriend yet . . . 'I was still at that stage in my life when I thought that weekdays were for recovering from the weekend' Lucy Sullivan is twenty-six and living it up (and occasionally down) in London. Hers is a life of quiet, undisciplined desperation. But when she and three friends visit a psychic for a bit of fun and the woman's predictions start coming true, Lucy is horrified. For the fortune teller insisted she'd soon be married - within the year, in fact. Not only does Lucy not

have a boyfriend, but the chances of getting one are looking slim. Between the bottles of wine, anti-depressants and her addiction to self-help books, she's not quite ready to walk, or even stumble, down the aisle sober. Is Lucy's fate really written in the stars? Or will she finally take control of her own destiny? Helen Bradshaw isn't

exactly living out her dreams. She's a lowly assistant editor at GirlTime magazine, she drives an ancient Toyota, and she has a history of choosing men who fall several thousand feet below acceptable boyfriend standard. Not to mention that she shares an apartment with a scruffy, tactless roommate, her best girlfriends are a little too perfect, and the most affectionate male in her life—her cat, Fatboy—occasionally pees in her underwear draw.

Then Helen gets the telephone call she least expects: Her father has had a massive heart attack. Initially brushing off his death as merely an interruption in her already chaotic life (they were never very close, after all), Helen is surprised to find everything else starting to crumble around her. Her pushy mother is coming apart at the seams, a close friend might be heading toward tragedy, and, after the tequila incident, it looks as though Tom the vet will be sticking with

Dalmatians. Turns out getting over it isn't going to be quite as easy as she thought.

A hopeless unromantic gets a crash course in love in the fourth hilarious novel from bestselling author Anna Maxted After her disaster of a marriage ends when she is just twenty, Hannah is convinced you have to be out of your mind (or desperate) to tie the knot. And life without a husband at thirty-one is just fine, thank you very much. She

has a steady job working as a private investigator (albeit a mediocre one); a devoted boyfriend of five years, Jason; and a wonderful relationship with her dad (it's a shame her mother is such a lost cause). Then, on a romantic weekend retreat to a faux-ancient castle, Jason proposes marriage, leaving Hannah with no choice but the obvious: to turn him down cold. Much to her horror, four weeks later, Jason becomes engaged to his next-door neighbor, a fine

baker and "proficient seamstress." Has Hannah blown her last chance at a solid relationship as her family claims? Jason agrees to give her another chance -- but only if she meets his terms, among them a promise to dust off the many skeletons in her closet. Brimming with her characteristic blend of humor and heartache, Anna Maxted's *Being Committed* is a perceptive look at intimacy (and its substitutes), commitment phobia, and

the power others have over us.

The Stone Diaries marked a new phase in a literary career already ablaze with achievement. As well as the many international awards it received, including the Pulitzer Prize, the National Book Critics Circle Award and the Governor General's Award, the book also met with universal critical acclaim and topped bestseller lists around the world. "Carol Shields,"

raved Maclean's, "has crafted a small miracle of a novel." "The Stone Diaries," said the New York Times Book Review, "reminds us again why literature matters." The San Diego Tribune called The Stone Diaries "a universal study of what makes women tick." Now, in Larry's Party, Carol Shields does the same for men. Larry Weller, born in 1950, is an ordinary guy made extraordinary by his creator's perception, irony and tenderness. Larry's Party gives us, as it were, a CAT scan of his life, in

episodes between 1977 and 1997 that flash backward and forward seamlessly. As Larry journeys toward the new millennium, adapting to society's changing expectations of men, Shields' elegant prose transforms the trivial into the momentous. We follow this young floral designer through two marriages and divorces, his interactions with parents, friends and a son. And throughout, we witness his deepening passion for garden mazes -- so like life, with their

teasing treachery and promise of reward. Among all the paradoxes and accidents of his existence, Larry moves through the spontaneity of the seventies, the blind enchantment of the eighties and the lean, mean nineties, completing at last his quiet, stubborn search for self. Larry's odyssey mirrors the male condition at the end of our century with targeted wit, unerring poignancy and faultless wisdom.
