From the bestselling author of *The Monk Who Sold His Ferrari* A chance encounter following a near-death experience sends Jack Valentine on a paradigm-shifting quest to understand the true meaning of life and find his most authentic self Jack Valentine seemed to have it all. He made good money as an ad man and looked good doing it. He had a hot apartment, cool friends, even a slick car—at least until the hectic Monday morning a truck smashed into it, sending the critically injured Jack to the hospital. Everything happens for a reason, though, and Jack's reason

reveals itself in the silver-haired cancer patient who becomes his roommate one evening. The elderly man, Cal, shares his life story—one not dissimilar to Jack's—of material wealth masking a gaping hole within. Cal ultimately found salvation through philosophy ("the love of wisdom"), and now offers to help Jack by prepping the younger man for the Final Questions we all must face: Have I lived wisely? Have I loved well? Have I served greatly? Presenting Jack with three plane tickets, each accompanied by a map marked with a red X, Cal sends Jack to meet with three great teachers, each of whom will help Jack answer one of the Final Questions—just as they once helped Cal. First, in Rome, Jack will meet "the Saint." Then a haunted beach in Hawaii introduces him to "the Surfer." And finally the grandeur of New York City sets the stage for his last encounter: with "the CEO." Along the way, Jack will learn to do his interior work, discover that our negative traits offer gateways to higher versions of ourselves, and understand that figuring things out in your head can distract you from the powerful whispers of your

heart. Join Jack on his journey and step into the you that you were always meant to be.

**Caught Inside** Thomas Nelson  
*Good Strategy/Bad Strategy* clarifies the muddled thinking underlying too many strategies and provides a clear way to create and implement a powerful action-oriented strategy for the real world. Developing and

implementing a strategy is the central task of a leader. A good strategy is a specific and coherent response to—and approach for—overcoming the obstacles to progress. A good strategy works by harnessing and applying power where it will have the greatest effect. Yet, Rumelt shows that there has been a growing and unfortunate tendency to equate Mom-and-apple-pie values, fluffy packages of buzzwords, motivational slogans, and financial goals with “strategy.” In *Good Strategy/Bad Strategy*, he debunks these elements of “bad strategy” and awakens an understanding of the power of a “good strategy.” He introduces nine sources of power—ranging from using leverage to effectively focusing on growth—that are eye-opening yet pragmatic tools that can easily be put to work on Monday morning, and uses fascinating examples from business, nonprofit, and military affairs to bring its original and pragmatic ideas to life. The detailed examples range from Apple to General Motors, from the two Iraq wars to Afghanistan, from a small local market to Wal-Mart,

from Nvidia to Silicon Graphics, from the Getty Trust to the Los Angeles Unified School District, from Cisco Systems to Paccar, and from Global Crossing to the 2007–08 financial crisis. Reflecting an astonishing grasp and integration of economics, finance, technology, history, and the brilliance and foibles of the human character, *Good Strategy/Bad Strategy* stems from Rumelt’s decades of digging beyond the superficial to address hard questions with honesty and integrity.

NEW YORK TIMES BESTSELLER • The classic work that predicted the anxieties of a world upended by rapidly emerging technologies—and now provides a road map to solving many of our most pressing crises. “Explosive . . . brilliantly formulated.” —The Wall Street Journal Future Shock is the classic that changed our view of tomorrow. Its startling insights into accelerating change led a president to ask his advisers for a special report, inspired composers to write symphonies and rock music, gave a powerful new concept to social science, and added a phrase to our language. Published in over fifty countries, Future Shock is the most important study of change and adaptation in our time. In many ways, Future Shock is about the present. It is about what is happening today to people and groups who are overwhelmed by change. Change affects our products, communities, organizations—even our patterns of friendship and love. But Future Shock also illuminates the world of tomorrow by exploding countless clichés about today. It vividly describes

the emerging global civilization: the rise of new businesses, subcultures, lifestyles, and human relationships—all of them temporary. Future Shock will intrigue, provoke, frighten, encourage, and, above all, change everyone who reads it. **Unstoppable Me** Harper Collins Now a major motion picture! #1 New York Times bestseller! In this moving personal account of faith and fortitude, internationally ranked surfer Bethany Hamilton tells how she survived a shark attack that cost her arm—but not her spirit. They say Bethany Hamilton has saltwater in her veins. How else could one explain the passion that drives her to surf? How else could one explain that nothing—not even the loss of her arm—could come between her and the waves? That Halloween morning in Kauai, Hawaii, Bethany responded to the shark’s stealth attack with the calm of a girl with God on her side. Pushing pain and panic aside, she began to paddle with one arm, focusing on a single thought: “Get to the beach.” And when the first thing Bethany wanted to know after surgery was

“When can I surf again?,” it became clear that her spirit and determination were part of a greater story—a tale of courage and faith that this soft-spoken girl would come to share with the world. Soul Surfer is a moving account of Bethany’s life as a young surfer, her recovery after the attack, the adjustments she’s made to her unique surfing style, her unprecedented bid for a top showing in the World Surfing Championships, and, most fundamentally, her belief in God. It is a story of girl power and spiritual grit that shows the body is no more essential to surfing—perhaps even less so—than the soul. Who Says You Can't? You Do Hay House, Inc The almost true story of how a bad boy discovers he's really a nice kid inside, through surfing, self-discovery, wild surfing adventures, and meditation. *No Logo* HarperCollins What is the secret of talent? How do we unlock it? This groundbreaking work provides readers with tools they can use to maximize potential in themselves and others. Whether you’re coaching soccer or teaching a child to play the piano, writing

a novel or trying to improve your golf swing, this revolutionary book shows you how to grow talent by tapping into a newly discovered brain mechanism. Drawing on cutting-edge neurology and firsthand research gathered on journeys to nine of the world's talent hotbeds—from the baseball fields of the Caribbean to a classical-music academy in upstate New York—Coyle identifies the three key elements that will allow you to develop your gifts and optimize your performance in sports, art, music, math, or just about anything. • **Deep Practice** Everyone knows that practice is a key to success. What everyone doesn't know is that specific kinds of practice can increase skill up to ten times faster than conventional practice. • **Ignition** We all need a little motivation to get started. But what separates truly high achievers from the rest of the pack? A higher level of commitment—call it passion—born out of our deepest unconscious desires and triggered by certain primal cues. Understanding how these signals work can help you ignite passion and catalyze skill

development. • **Master Coaching** What are the secrets of the world's most effective teachers, trainers, and coaches? Discover the four virtues that enable these "talent whisperers" to fuel passion, inspire deep practice, and bring out the best in their students. These three elements work together within your brain to form myelin, a microscopic neural substance that adds vast amounts of speed and accuracy to your movements and thoughts. Scientists have discovered that myelin might just be the holy grail: the foundation of all forms of greatness, from Michelangelo's to Michael Jordan's. The good news about myelin is that it isn't fixed at birth; to the contrary, it grows, and like anything that grows, it can be cultivated and nourished. Combining revelatory analysis with illuminating examples of regular people who have achieved greatness, this book will not only change the way you think about talent, but equip you to reach your own highest potential.
