The authentic teachings of the mystery schools offer a profoundly different way of making sense of the universe and our place in it. In *Mystery Teachings from the Living Earth*, ecologist and Druid initiate John Michael Greer offers an introduction to the core teachings of the mysteries through the mirror of the natural world. Using examples from nature as a touchstone, Greer takes readers on a journey into the seven laws of the mystery traditions: the Law of Wholeness, the Law of Flow, the Law of Balance, the Law of Limits, the Law of Cause and Effect, the Law of Planes, the Law of Evolution. Greer explains each law, offering meditation, an affirmation, and a theme for reflection, to show how the seven laws can bring meaning and power into our everyday lives. *Mystery Teachings from the Living Earth* reveals one of the great secrets of the mysteries—that the laws of nature are also the laws of spirit.

*Earth Magic* Hay House, Inc  
Authentic initiatic practices, rituals, and wisdom collected by the UR Group • Shares a rigorous selection of initiatory exercises, including instructions for creating the diaphanous body of the Opus magicum, establishing initiatic consciousness after death, and the construction of magical chains (the enchained awareness of initiates) • Offers studies of mystery traditions throughout history, presenting not only the principles themselves but also witnesses to them and their continual validity today The "Gruppo di UR" was a group of Italian esotericists who collaborated from 1927 to 1929. The purpose of this group was to study and practice ancient rituals gleaned from the mystery traditions of the world, both East and West, in order to attain a state of superhuman consciousness and power to allow them to act magically on the world. They produced a monthly journal containing techniques for spiritual realization, accounts of personal experiences, translations of ancient texts, and original essays on esoteric topics. The group included a distinguished line-up of occultists, neo-pagans, freemasons, Anthroposophists, orientalist, poets, and members of high society. The prime movers of the group were Arturo Reghini (1878-1946), a

Pythagorean mathematician and reviver of a spiritual Freemasonry, and Julius Evola (1898-1974), then a young philosopher with a precocious mastery of the esoteric doctrines of East and West. Many years later, in 1971, Evola gathered these essays into three volumes. Inner Traditions published Volume I in 2001, under the title *Introduction to Magic: Rituals and Practical Techniques for the Magus*. This volume, the second in the series, complements the first one, yet they are not strictly sequential, and their contents can be read in any order. Volume II shares authentic initiatic wisdom and a rigorous selection of initiatory exercises, including instructions for creating the diaphanous body of the *Opus magicum*, establishing initiatic consciousness after death, and the construction of magical chains (the enchained awareness of initiates). It offers studies of mystery traditions throughout history, presenting not only the principles themselves but also witnesses to them and their continual validity today. This series shows that the "Magic" of the UR Group meant an active and affirmative attitude toward individual development, handed down from a "primordial tradition" and discernable in alchemy, Hermetism, esoteric religious doctrines, indigenous practices, Tantra, Taoism, Buddhism, Vedanta, and the pagan mysteries of the West. Although some of the practical experiments demanded extraordinary efforts, both individual and collective, there is incalculable value here even for the less heroic, for merely reading these essays leaves a permanent mark on the reader.

*The Path of Elemental Witchcraft*

Llewellyn Worldwide

"This is my second effort to present geomancy as a whole to the public consciousness. I wrote my first book on this subject in German more than ten years ago, titled *School of Geomancy* (*Schule der Geomantie*, Knauer, Munich, 1996). However, since that time my knowledge of geomancy, coupled with my practical field work, has evolved and deepened to the extent that I was compelled to write a completely new book." --Marko Pogačnik

Marko Pogačnik has written several books based on the results of his research into and practice of what he terms geomancy. In this book, he presents the fundamental research and principles behind this new science of the spirit. The author writes: "Geomancy is an ancient word denoting knowledge of the invisible and visible dimensions of the Earth and its landscapes. I see it as an essential complement to modern geography, which is interested exclusively in one level of reality, the material level of existence. To convey the idea that geomantic knowledge in a very specific way complements the material point of view of geography, I refer to geomancy as 'sacred geography.' By 'sacred' I mean that the task of geomancy in our present day is not simply to foster public interest in etheric, emotional and spiritual levels of places and landscapes, but also to promote a deeper, more loving, and more responsible relationship toward the Earth, the Cosmos, and all beings, visible and invisible. "This book is conceived not just as a theoretical introduction to the worlds of sacred

geography, but primarily as a practical guide through different dimensions of places and landscapes. It includes more than 170 practical examples from different parts of the world, all of them presented as original drawings. Much of the text, drawings, and exercises are intended to describe and explain methods of pluri-dimensional perception, so that the reader will feel encouraged and supported to explore and develop her or his own experiences of the geomantic phenomena presented in the book." This is an essential text for understanding the vital work of sacred geometry called geomancy.

Learn to cultivate a traditional, beneficial relationship with the land by embracing the forgotten practices of our ancestors

- Details the ancient art of geomancy and Earth magic, including how to work with ley lines, astrology, and the four directions to honor a space and make it a place of power
- Explores the magic of the land around us and how our ancestors interacted with Earth energies and the forces of Nature
- Discusses the power of boundaries and magic circles, the proper "feng shui" of graveyards and cemeteries, and magically powerful places such as crossroads, fairgrounds, and the mystic triangles found in "no-man's lands" Our ancestors were deeply aware of the magical power of their local landscape, no matter where they lived. Every interaction with their environment--from building to farming to the layout of

ancient cities--took into account terrestrial energies, ancestral memory, and the many seen and unseen presences in Nature. They developed sophisticated procedures for orienting their living spaces and respectfully working with the magic of the landscape. Yet, much of the art of geomancy and of working with the forces of Nature has been forgotten by modern builders, architects, foresters, gardeners, and homeowners. The treatment of land as mere property has led to a loss of its meaning for those who dwell upon it. Our landscape has become disenchanted. In this book, geomancy expert and scholar Nigel Pennick details the ancient and sacred practices of geomancy and Earth magic and reveals how we can reenchant and reconnect to the sacred landscape that surrounds us, whether you live rurally, in the suburbs, or in cities. Pennick begins with a vivid look at our modern "wasteland" and what he calls "the ensouled world," with specific examples from Britain and Iceland of our ancestors' way of perceiving the world they lived in. Exploring the art of geomancy, he examines how its techniques work with ley lines, astrology, and the old understanding of the four directions and the eight winds to honor a space and make it a place of power. He looks at the power of boundaries and magic circles, including laying ghosts and dismissing spirits, as well as the proper "feng shui" for cemeteries and graveyards. The author then takes the reader back into the traditional landscape to discuss magically powerful places, such as crossroads, the occult nature of the "fairground," and the mystic triangles found in what are popularly known as "no-man's lands." Revealing how the landscape can be reenchanting, Pennick

shows how the magic of place is a living system that each of us can interact with. [Earth Magic](#) Llewellyn Worldwide This guidebook will help you discover the oracular nature of the runes and how to use them as a magickal tool for insight, protection, and luck.

**Earth, Air, Fire & Water** Simon and Schuster

In the religious systems of ancient Mesopotamia, Egypt, and the Mediterranean, gods and demigods were neither abstract nor distant, but communicated with mankind through signs and active intervention. Men and women were thus eager to interpret, appeal to, and even control the gods and their agents. In *Prayer, Magic, and the Stars in the Ancient and Late Antique World*, a distinguished array of scholars explores the many ways in which people in the ancient world sought to gain access to--or, in some cases, to bind or escape from--the divine powers of heaven and earth. Grounded in a variety of disciplines, including Assyriology, Classics, and early Islamic history, the fifteen essays in this volume cover a broad geographic area: Greece, Egypt, Syria-Palestine, Mesopotamia, and

Persia. Topics include celestial divination in early Mesopotamia, the civic festivals of classical Athens, and Christian magical papyri from Coptic Egypt.

Moving forward to Late Antiquity, we see how Judaism, Christianity, and Islam each incorporated many aspects of ancient Near Eastern and Graeco-Roman religion into their own prayers, rituals, and conceptions. Even if they no longer conceived of the sun, moon, and the stars as eternal or divine, Christians, Jews, and Muslims often continued to study the movements of the heavens as a map on which divine power could be read. The reader already familiar with studies of ancient religion will find in *Prayer, Magic, and the Stars* both old friends and new faces. Contributors include Gideon Bohak, Nicola Denzey, Jacco Dieleman, Radcliffe Edmonds, Marvin Meyer, Michael G. Morony, Ian Moyer, Francesca Rochberg, Jonathan Z. Smith, Mark S. Smith, Peter Struck, Michael Swartz, and Kasia Szpakowska. Published as part of Penn State's *Magic in History* series, *Prayer, Magic, and the Stars* appears at a time of renewed interest in divination and occult practices in the ancient world. It will interest a wide audience in the field of comparative religion as well as students of the ancient world and late antiquity. *The Book of Divination* Nicolas-Hays, Inc. Have you ever lost an important object? Are you taking on a new job? Looking for buried treasure? *The Art and Practice of Geomancy* teaches readers how to divine the answers to life's everyday questions about health, luck, new jobs, and love, as well as those less mundane tasks such as finding buried treasure, predicting the weather, being released from prison, and identifying secret enemies. Greer delivers to readers an ancient system of divination in an easy-

to-use form requiring little more than a pen and a piece of paper. Using a system of counting odd and even numbers—from a deck of cards, a roll of the dice, or even by hitting sand or dirt with a stick to generate patterns—readers learn how to cast their own geomantic chart. And for those who wish to delve further, he offers exercises for geomantic meditation and ritual magic. The Art and Practice of Geomancy will appeal to pagans, followers of the Western Mystery tradition, scholars of folk magic and divination, and anyone who wants to take their past, present, and future into their own hands.

The earth, the moon, and the magical path to enlightenment. Written by a practicing witch who conducts classes and seminars on witchcraft—the oldest Western religion, a means of power and enlightenment, and a healing art. “Laurie Cabot has written a fascinating account of a beautiful and sadly

misunderstood religion, witchcraft. She has with her life and work done a great deal to legitimize this ancient pagan form of worship. I am among the ecumenical Christians who have discovered the truth about witchcraft, that it is neither demonic nor evil. Power of the Witch is a marvelous introduction to the magical and highly ethical world of wicca.”—Whitley Strieber

The talks included in this book were all written and presented between 2001 and 2010, when John Michael Greer was a regular presenter at pagan and occult conferences in various corners of North America. All of them were presented several times to a variety of audiences and adapted for each presentation to address issues that happened to be of particular interest to listeners or to the author at that time. The point of talks like these is to inspire curiosity and reflection, not to set out an ironclad case for this or that point of view. This book offers extraordinary insight into the life and work of a magician and occultist.
