Working with Co-Parents is a practical manual for therapists and social workers who work with divorced and/or separated parents of children. Unique among other books that focus on therapy with the parents individually, the author's model brings the divorced couple together to help them understand their child's experience and to assist them in developing a road to constructive co-parenting. This manual also includes illustrative case vignettes, session outlines and handouts, and homework reflection questions. Therapists and counselors will learn tools and interventions that they can apply immediately and effectively to their work with divorced couples.

The Complete Tracker is a concise, thorough guide to the tracks, signs, and habits of North America's most popular species of wildlife. Readers learn the secrets of a master tracker, assembling a clear picture from tracks, scat, and other signs. Was it a dog or

a wolf? Fox or coyote? Did it pass by yesterday or an hour ago? The Complete Tracker also teaches how to get close to animals - everything from bobcats to beavers, marmots to moose - by knowing the details of their habits and a master-tracker's tips on avoiding detection. Over 150 line drawings show tracks of 60 different species of wildlife under a great variety of terrain conditions. Also includes maps, charts, and diagrams.

'A circle whose centre is the devil himself, and whose participants are dancing towards eternal death.' Thus did a medieval Danish priest describe the Ring Dance, and readers of Hans Andersen will recognise this priestly puritanism in the tale of the Red Shoes. A 17th century Bishop of Funen, however, had more liberal views. Having married his two sons at a double wedding, he 'saw no harm in himself dancing a turn with each of the brides'. The natural light-heartedness of the Dane is never long suppressed, and today there is a rich and living tradition of folk dance, costume and music. Mr. Jeppesen was the chairman of the Danish Association for the Encouragement of Folk Dancing, and Mr. Lorenzen was a well-known folklorist who modestly describes his wide researches as 'a hobby'. As in the other books of the

series, they have chosen four dances for more detailed description, and the book is illustrated with four costume plates in full colour.

In secret places deep under the ground and in the forest primeval, legends still walk the earth and what we think of as myth and fairy tales are all too true. Driving home late one night, Melody Carver, bereft and grieving after the death of her mother, sees a strange creature standing on the lonely road. This being will change her world-view forever, and open her eyes to a reality beyond her imagination."--Back cover.

The ocean and its inhabitants sketch and stretch our understandings of law in unexpected ways. Inspired by the blue turn in the social sciences and humanities, Blue Legalities explores how regulatory frameworks and governmental infrastructures are made, reworked, and contested in the oceans. Its interdisciplinary contributors analyze topics that range from militarization and Maori cosmologies to island building in the

South China Sea and underwater robotics. Throughout, *Blue Legalities* illuminates the vast and unusual challenges associated with regulating the turbulent materialities and lives of the sea. Offering much more than an analysis of legal frameworks, the chapters in this volume show how the more-than-human ocean is central to the construction of terrestrial institutions and modes of governance. By thinking with the more-than-human ocean, *Blue Legalities* questions what we think we know—and what we don't know—about oceans, our earthly planet, and ourselves.

*The Complete Remote Pilot* This textbook is for anyone interested in pursuing and obtaining a Remote Pilot Certificate, which is required in order to operate drones for commercial use. With a friendly and readable style, the authors cover all of the details involved in becoming a competent, responsible, and safe remote pilot, opening up tremendous opportunities for flying increasingly affordable and sophisticated small unmanned aircraft systems (sUAS). An FAA Knowledge Exam is a requirement for earning a Remote Pilot Certificate. *The Complete Remote Pilot* is designed to not only prepare you for the exam but to teach you about how UAS fly, their components and systems, and the aeronautical knowledge required to fly these systems in the same airspace as manned aircraft. This book covers specifics on the language of drones, regulations, airspace and navigation, airport and off-airport operations, radio communication procedures, weather, aerodynamics and aircraft performance, emergency procedures,

human factors, maintenance, and preflight inspection procedures. The required aeronautical knowledge is augmented with specific tips and techniques, checklists and mnemonic devices, and sound advice from personal experience. You'll benefit from the review questions for each chapter similar to the type found on the FAA test, a comprehensive glossary, and index. This practical application of the knowledge needed to pass the FAA Knowledge Exam is not available in any other book! You will gain the knowledge needed to pass the test and understand how to operate safely as a remote pilot in the U.S. National Airspace System. *Issues in Aging*

A "close-up look at the cloistered country" (USA Today), *See You Again in Pyongyang* is American writer Travis Jeppesen's "probing" and "artful" (New York Times Book Review) chronicle of his travels in North Korea—an eye-opening portrait that goes behind the headlines about Trump and Kim, revealing North Koreans' "entrepreneurial spirit, and hidden love of foreign media, as well as their dreams and fears" (Los Angeles Times). In *See You Again in Pyongyang*, Travis Jeppesen culls from his experiences traveling and studying in North Korea to create a multifaceted portrait of the country and its idiosyncratic capital city. Jeppesen challenges the notion that Pyongyang is merely a "showcase capital" where everything is staged for the benefit of foreigners, as well as the idea that Pyongyangites are brainwashed robots. Jeppesen introduces readers to an array of fascinating North Koreans, from government ministers with a side hustle in black market Western products to young people enamored with American pop culture. Revealing a complex society, rife with contradictions, *See You Again in Pyongyang* is an essential addition to the literature about one of the world's most fascinating places.

An infant left in the trash to die. A teenage mother who never knew she was pregnant . . . Before That Morning, these were the words most often used to describe straight-A student and star soccer player Devon Davenport: responsible, hardworking, mature. But all that changes when the police find Devon home sick from school as they investigate the case of an abandoned baby. Soon the connection is made? Devon has just given birth; the baby in the trash is hers. After That Morning, there's only one way to define Devon: attempted murderer. And yet gifted author Amy Efav does the impossible? she turns Devon into an empathetic character, a girl who was in such deep denial that she refused to believe she was pregnant. Through airtight writing and fast-paced, gripping storytelling, Ms. Efav takes the reader on Devon's unforgettable journey toward clarity, acceptance, and redemption.

Opportunities and optimism in Aging. Issues in Aging, 3rd edition takes an optimistic view of aging and human potential in later life. This book presents the most up-to-date facts on aging today, the issues raised by these facts, and the societal and individual responses that will create a successful old age for us all. Mark Novak presents the full picture of aging--exhibiting both the

problems and the opportunities that accompany older age. The text illustrates how generations are dependent on one another and how social conditions affect both the individual and social institutions. Learning Goals -Upon completing this book, readers will be able to: -Understand how large-scale social issues--social attitudes, the study of aging, and demographic issues--affect individuals and social institutions -Identify the political responses to aging and how individuals can create a better old age for themselves and the people they know -Separate the myths from the realities of aging -Recognize the human side of aging -Trace the transformation of pension plans, health, and opportunities for personal expression and social engagement to the new ecology of aging today

"Architect Tom Kundig is known worldwide for the originality of his work. This paperback edition of Tom Kundig: Houses, first

published in 2006, collects five of his most prominent early residential projects, which remain touchstones for him today. In a new preface written for this edition, Kundig reflects on the influence that these designs continue to have on his current thinking. Each house, presented from conceptual sketches through meticulously realized details, is the product of a sustained and active collaborative process among designer, builder, and client. The work of the Seattle-based architect has been called both raw and refined--disparate characteristics that produce extraordinarily inventive designs inspired by both the industrial structures ubiquitous to his upbringing in the Pacific Northwest and the vibrant craft cultures that are fostered there." -
