Kenny Werner is an accomplished pianist who began to perform at age 4 and by age 11 had appeared on television. While at the Manhattan School of Music, he became restless with his musical direction and began to explore Jazz as new means of creativity and expression. Along his journey, he was inspired by the masters of the craft to rethink not only the technical aspects of creativity, but also the spiritual aspects. *Effortless Mastery* is not only an account of that journey, but also an insightful guide for all those wishing to remove their own barriers to creativity in life and the arts. While Mr. Werner happens to be a musician, the concepts presented here are applicable to every profession, aspiration, or lifestyle where there is a need for free-flowing effortless thinking.

The movie musical has been a much loved genre since motion pictures found a voice and learned to sing. Throughout the decades, audiences thrilled to the glamour of the musicals of Busby Berkley and were emotionally invested in stories about Austrian nuns and the King of Siam with the musicals from Rodgers and Hammerstein. With the advent of Rock 'n Roll, Heavy Metal, R&B, Motown, Punk Rock, and Disco entering the public consciousness, musicals started to sing a very different tune. Into the 1970s, the movie musical became a daring, dangerous, and divinely decedent cinema experience. Lee Gambin's *We Can Be Who We Are: Movie Musicals from the 1970s* explores this explosive energy and diversity. From the quirky

sophistication of *On A Clear Day You Can See Forever* and the dark unnerving genius of *Cabaret* to the sweet sentimentality of *Charlotte's Web*, Gambin's book offers insightful film criticism while exhaustively covering the decade. Some of the films Gambin examines include *Phantom of the Paradise*, *Grease*, *The Wiz*, *Rock'n'Roll High School*, *Bedknobs and Broomsticks*, *All That Jazz*, *Godspell*, *Hair*, *The Rose*, *Saturday Night Fever*, *The Rocky Horror Picture Show*, *Willy Wonka and the Chocolate Factory*, *Pete's Dragon*, *Tommy*, *Kiss Meets The Phantom of the Park*, and many, many more. The book also features incredible brand new interviews from dozens of extremely talented artists who made these movies possible: director John Carpenter discussing his biopic *Elvis*; Lesley Ann Warren giving fascinating insight into the made for TV production *It's A Bird...It's A Plane...It's Superman*; auteur filmmaker Norman Jewison delivering two very different musicals with *Fiddler on the Roof* and *Jesus Christ Superstar*. This book is loaded with numerous production stories and candid insights into how these films were made and received. Gambin's book also features loads of wonderful photos, many of which have never before been seen including wonderfully candid behind the scenes stills!

Ten Keys to Musical Excellence Doubleday

Some pieces of music survive. Most fall into oblivion. What gives the ten masterpieces selected for this book their exceptional vitality? In this penetrating volume, Harvey Sachs, acclaimed biographer and historian of classical music, takes readers into the hearts of ten extraordinary works of classical music in ten different genres, showing both the curious novice and the seasoned listener how to recognize, appreciate, and engage with

these masterpieces on a historical and compositional level. Far from what is often thought, classical music is neither dead nor dying. As a genre, it is constantly evolving, its pieces passing through countless permutations and combinations yet always retaining that essential *élan vital*, or life force. The works collected here, composed in the years between 1784 and 1966, are a testament to this fact. As Sachs skillfully demonstrates, they have endured not because they were exceptionally well-made or interesting but because they were created by composers—Mozart and Beethoven; Schubert, Schumann, Berlioz, Verdi, and Brahms; Sibelius, Prokofiev, and Stravinsky—who had a particular genius for drawing music out of their deepest wellsprings. “Through music,” Sachs writes, “they universalized the intimate.” In describing how music actually sounds, *Ten Masterpieces of Music* seems to do the impossible, animating the process of composing as well as the coming together of disparate scales and melodies, trills and harmonies. It tells us, too, how particular compositions came to be, often revealing that the pieces we now consider “classic” were never intended to be so. In poignant, exquisite prose, Sachs shows how Mozart, a former child prodigy under constant pressure to produce new music, hastily penned Piano Concerto No. 17 in G major, one of his finest piano concertos, for a teenage student, and likewise demonstrates how Goethe’s *Faust, Part One*, became a springboard for the musical imagination of the French composer Berlioz. As Sachs explains, these pieces are not presented as candidates for a new “Top Ten.” They represent neither the most well-known nor the most often-performed works of each composer. Instead, they were chosen precisely because

he had something profound to say about them, about their composers, about how each piece fits into its composer's life, and about how each of these lives can be contextualized by time and place. In fact, Sachs encourages readers to form their own favorites, and teaches them how to discern special characteristics that will enhance their own listening experiences. With *Ten Masterpieces of Music*, it becomes evident that Sachs has lived with these pieces for a veritable lifetime. His often-soaring descriptions of the works and the dramatic lives of the men who composed them bring a heightened dimension to the musical perceptions of all listeners, communicating both the sheer improbability of a work becoming a classic and why certain pieces—these ten among them—survive the perilous test of time.
