If Not Us HarperCollins

From the creator of TheSurvivalMom.com comes this first-of-its-kind guidebook for all the “prepper” moms keen to increase their family’s level of preparedness for emergencies and crises of all shapes and sizes. Publisher’s Weekly calls Lisa Bedford’s Survival Mom an “impressively comprehensive manual,” saying, “suburban mom Bedford helps readers learn about, prepare for, and respond to all manner of disasters. . . . From 'Instant Survival Tip' sidebars to a list of 'Lessons from the Great Depression'. . . Bedford’s matter-of-fact yet supportive tone will keep the willies at bay.”

Zombies. The outbreak began in New York. Soon it had spread to the rest of the world. People were attacked, infected, and they died. Then they came back. No one is safe from the undead. As anarchy and civil war took grip across the globe, Britain was quarantined. The British press was nationalised. Martial law, curfews and rationing were implemented. It wasn’t enough. An evacuation was planned. The inland towns and cities of the United Kingdom were to be evacuated to defensive enclaves being built around the coast, the Scottish Highlands, and in the Irish Republic. Bill Wright, a Westminster insider and an advisor to a future Prime Minister, broke his leg on the day of the outbreak. Unable to join the evacuation, he watched from his window as the streets filled with refugees. He watched as the streets emptied once more. He watched as they

filled up again, this time with the undead. Then the power went out. He is trapped. He is alone. He is running out of food and water. He knows that to reach the safety of the enclaves he will have to venture out into the wasteland that once was England. On that journey he will ultimately discover the horrific truth about the outbreak, a decades old conspiracy, and his unwitting part in it. This is the first volume of his journal. (73,000 words) Other books in the series: 1: London. 2: Wasteland. (Zombies vs the Living Dead) 3: Family. 4: Unsafe Haven. 5: Reunion. 6: Harvest. 7: Home. & Here We Stand 1: Infected & 2: Divided. Post-apocalyptic detective novels: Serious Crimes, Counterfeit Conspiracy & Work, Rest, Repeat. Scholastic Inc.

It took three weeks to destroy civilisation. It won’t be rebuilt in a day. A year after the outbreak, a sharp winter is followed by a sudden thaw. Spring has come early to Nova Scotia, bringing new hope. For the thirteen thousand survivors who’ve found sanctuary in northern Canada, and for the first time since the apocalypse, extinction isn’t imminent. But it looms large in the near future, a legacy of the nuclear war that destroyed civilisation. As the weather improves, some survivors quit the small community. Even more plan their departure. The old-world supplies of food, oil, and ammunition have been consumed. More will have to be grown, drilled, and made. Medicine, paper, clothes: in a few years there will be none left to salvage. If it can’t be manufactured, it will have to be forgone. What knowledge can’t be preserved will be lost. Humanity’s future appears bleak unless more people can be found. Hoping there is some truth in the rumours of a redoubt in Vancouver, an expedition to the Pacific is launched. The journey will be perilous as North America was ground zero for the outbreak, and for the nuclear war. Set in Canada and beyond, as survivors

from the Atlantic and Pacific meet. Please note: this book features places and events, and heroes and villains from Life Goes On Books 1-3, the saga of survivors in the Pacific.

There is nothing a mother won’t do to protect her son. “There are no reported outbreaks in the UK or Ireland.” That is what the government broadcast. Nilda didn’t believe it. Not trusting the authorities, she, and her son, Jay, stay behind when Penrith is evacuated. Vindicated when she learns the extent of the government’s betrayal, they search for supplies, but after weeks of rationing, there is little left in the small town in Northern England. Soon, she discovers that there are many other survivors competing for it. Choosing diplomacy over violence, she attempts to forge a community out of a disparate group, but as the number of the undead grow, she realises that they will have to seek sanctuary elsewhere. Abandoned and betrayed, Nilda travels north into Scotland, but death follows her and she discovers that not all those who survived the evacuation have the same motives. Some only want to help. Others only want to help themselves. Whilst the new Mayor of Anglesey has her own agenda, one at odds with Nilda’s quest; to find a safe haven for her son. Life and Death in a Storm-ravaged Hospital HarperCollins

Immunity. Everyone wants it. One man has it. Our hero, if you can call him that, must escape from the government facility he is incarcerated in. Escape the certifiable, alphabet-agency super-spook

who seized him and dragged him across the country. Elude an army of doctors and soldiers who think he is the answer to the plague of the living dead. Flee back to his friends, a continent away. Can he safely traverse a ruined United States crawling with insatiable, infected cannibals? Should he stay in the impregnable fortress, do his duty, and submit to the testing in hopes he can save everyone? What's an immune, arrogant, rude, criminal to do?

A Practical Guide to Surviving the Chaos Penguin

In his first work of narrative nonfiction, Matthew Pearl, bestselling author of acclaimed novel *The Dante Club*, explores the little-known true story of the kidnapping of legendary pioneer Daniel Boone's daughter and the dramatic aftermath that rippled across the nation. On a quiet midsummer day in 1776, weeks after the signing of the Declaration of Independence, thirteen-year-old Jemima Boone and her friends Betsy and Fanny Callaway disappear near the Kentucky settlement of Boonesboro, the echoes of their faraway screams lingering on the air. A Cherokee-Shawnee raiding party has taken the girls as the latest salvo in the blood feud between American Indians and the colonial settlers who have decimated native lands and resources. Hanging Maw, the raiders' leader, recognizes one of the captives as Jemima Boone, daughter of Kentucky's most influential pioneers, and realizes she could be a valuable pawn in the battle to drive the colonists out of the contested Kentucky territory for good. With Daniel Boone and his posse in pursuit, Hanging Maw devises a plan that could ultimately bring greater peace both to the tribes and the colonists. But after the girls find clever ways to create a trail of clues, the raiding party is ambushed by Boone and the rescuers in a battle with reverberations that nobody could predict. As Matthew Pearl reveals, the exciting story of Jemima Boone's kidnapping vividly illuminates the early days of America's westward expansion, and the violent and tragic clashes across cultural lines that ensue. In this enthralling narrative in the tradition of Candice Millard and David Grann, Matthew Pearl unearths a forgotten and dramatic series of events from early in the Revolutionary War that opens a window into America's transition from colony to nation, with the heavy moral costs incurred amid shocking new alliances and betrayals.

Lord of the Flies Frank Tayell

In her first novel since *The Quick and the Dead* (a finalist for the Pulitzer Prize), the legendary writer takes us into an uncertain landscape after an environmental apocalypse, a world in which only the man-made has value, but some still wish to salvage the authentic. "She practices ... camouflage, except that instead of adapting to its environment, Williams's imagination, by remaining true to itself, reveals new colorations in the ecology around her." —A.O. Scott, *The New York Times Book Review* Kristen is a teenager who, her mother believes, was marked by greatness as a baby when she died for a moment and then came back to life. After Kristen's failing boarding school for gifted teens closes its doors, and she finds that her mother has disappeared, she ranges across the dead landscape and washes up at a "resort" on the shores of a mysterious, putrid lake the elderly residents there call "Big Girl." In a rotting honeycomb of rooms, these old ones plot actions to punish corporations and people they consider culpable in the destruction of the final scraps of nature's beauty. What will Kristen and Jeffrey, the precocious ten-year-old boy she meets there, learn from this "gabby seditious lot, in the worst of health but

with kamikaze hearts, an army of the aged and ill, determined to refresh, through crackpot violence, a plundered earth"? Rivetingly strange and beautiful, and delivered with Williams's searing, deadpan wit, *Harrow* is their intertwined tale of paradise lost and of their reasons—against all reasonableness—to try and recover something of it.

The horror of Hurricane Katrina is brought vividly to life in this fictional account of a boy, a dog, and the storm of the century.Barry's family tries to evacuate before Hurricane Katrina hits their home in New Orleans. But when Barry's little sister gets terribly sick, they're forced to stay home and wait out the storm.At first, Katrina doesn't seem to be as bad as predicted. But overnight the levees break, and Barry's world is literally torn apart. He's swept away by the floodwaters, away from his family. Can he survive the storm of the century -- alone?

I Survived Hurricane Katrina, 2005 (I Survived #3) Simon & Schuster

Not all people died. Not all gave up hope. The outbreak was in February. By the end of November, Earth has become a hellish wasteland ravaged by the undead. Survivors from across the Atlantic seaboard took refuge on the Welsh island of Anglesey. Beset by dangers from within, they departed to establish a new refuge in Belfast. Not all of them arrived. Six took the last plane on its last flight, but crashed in France. Expecting a sprinting battle through the ruins of Belfast, they packed light. With few weapons and barely any food, their chances of survival are slim. The chances of rescue are slimmer. There was no evacuation in France. No quarantine. No rationing. But there are zombies, and there are people who believe they, alone, are the last survivors of the old-world. So begins a frantic race against the undead, through the snow and storm ravaged ruins of Northern France.

Surviving The Evacuation, Book 3: Family Frank Tayell

For good or ill, the future has begun. After the outbreak came the nuclear war. The blasts killed millions. Chaos followed. Most of those unlucky enough not to succumb to starvation and disease joined the ranks of the living dead. Fleeing the impossible nightmare, ten thousand, from nations across the Atlantic seaboard, found refuge on the Welsh island of Anglesey. There, they should have been safe. There, they should have been able to rebuild. There, they were betrayed. Forced to flee once more, a hasty exodus was planned, but those plans were sabotaged. The survivors became scattered across the island of Ireland. Old-world supplies are scarce, hope is running out, and safety is just a memory. The snow has come, and though rain will soon follow, winter has truly begun. In Dundalk, eight hundred survivors have occupied a local college, but the campus is too dispersed to defend. As they scour the snow-covered town for a safe route to the sea, they find signs of long-fled survivors and answers to a question they hadn't asked. In Belfast, the situation is increasingly precarious. There are saboteurs in their midst. As the investigation into their identity slowly progresses, the terrorists continue to plot. Rumours of a mutiny escalate into a riot, while an unseen clock ticks ever closer towards humanity's destruction. Set in Belfast and Dundalk, over three days that change everything.

A stunning, powerful debut novel set against the backdrop of the Cambodian War, perfect for fans of Chris Cleave and Chimamanda Ngozi Adichie For seven-year-old Raami, the shattering end of childhood begins with the footsteps of her father returning home in the early dawn hours bringing details of the civil war that has overwhelmed the streets of Phnom Penh, Cambodia's capital. Soon the family's world of carefully guarded royal privilege is swept up in the chaos of revolution and forced exodus. Over the next four years, as she endures the deaths of family members, starvation, and brutal forced labour, Raami clings to the only remaining vestige of childhood - the mythical legends and poems told to her by her father. In a climate of systematic violence where memory is sickness and justification for execution, Raami fights for her improbable survival. Displaying the author's extraordinary gift for language, *In the Shadow of the Banyan* is testament to the transcendent power of narrative and a brilliantly wrought tale of human resilience. 'In the Shadow of the Banyan' is one of the most extraordinary and beautiful acts of storytelling I have ever encountered' Chris Cleave, author of *The Other Hand* 'Ratner is a fearless writer, and the novel explores important themes such as power, the relationship between love and guilt, and class. Most remarkably, it depicts the lives of characters forced to live in extreme circumstances, and investigates how that changes them. To read *In the Shadow of the Banyan* is to be left with a profound sense of being witness to a tragedy of history' *Guardian* 'This is an extraordinary debut ... as beautiful as it is heartbreaking' *Mail on Sunday*

NATIONAL BESTSELLER "Defiantly populated with living women . . . beautifully drawn, dense with detail and specificity . . . Notes on an Execution is nuanced, ambitious and compelling." —Katie Kitamura, *NEW YORK TIMES BOOK REVIEW* (Editors' Choice) "A searing portrait of the complicated women caught in the orbit of a serial killer. . . . Compassionate and thought-provoking." -BRIT BENNETT, #1 *New York Times* bestselling author of *The Vanishing Half* Recommended by *New York Times Book Review* • *Los Angeles Times* • *Washington Post* • *Entertainment Weekly* • *Esquire* • *Good Housekeeping* • *USA Today* • *Buzzfeed* • *Goodreads* • *Real Simple* • *Marie Claire* • *Rolling Stone* • *Business Insider* • *Bustle* • *PopSugar* • *The Millions* • *The Guardian* • and many more! In the tradition of *Long Bright River* and *The Mars Room*, a gripping and atmospheric work of literary suspense that deconstructs the story of a serial killer on death row, told primarily through the eyes of the women in his life—from the bestselling author of *Girl in Snow*. Ansel Packer is scheduled to die in twelve hours. He knows what he's done, and now awaits execution, the same chilling fate he forced on those girls, years ago. But Ansel doesn't want to die; he wants to be celebrated, understood. Through a kaleidoscope of women—a mother, a sister, a homicide detective—we learn the story of Ansel's life. We meet his mother, Lavender, a seventeen-year-old girl pushed to desperation; Hazel, twin sister to Ansel's wife, inseparable since birth, forced to watch helplessly as her sister's relationship threatens to devour them all; and finally, Saffy, the detective hot on his trail, who has devoted herself to bringing bad men to justice but struggles to see her own life clearly. As the clock ticks down, these three women sift through the choices that culminate in tragedy, exploring the rippling fissures that such destruction inevitably leaves in its wake. Blending breathtaking suspense with astonishing empathy, *Notes on an Execution* presents a chilling portrait of womanhood as it simultaneously unravels the familiar narrative of the American serial killer, interrogating our system of justice and our cultural obsession with crime stories, asking readers to consider the false promise of looking for meaning in the psyches of violent men. "Poetic and mesmerizing . . . Powerful, important, intensely human, and filled with a unique examination of tragedy, one where the reader is left with a curious emotion: hope." —USA TODAY "A profound and staggering experience of empathy that challenges us to confront what it means to be human in our darkest moments. . . . I relished every page of this brilliant and gripping masterpiece."—ASHLEY

Surviving The Evacuation, Book 1: London Harmony

Billions died during the global civil war that followed the outbreak. Anarchy took grip. Chaos ruled. The world collapsed. In Britain, the evacuation failed. Nowhere was safe from the undead. Four months after the outbreak Bill Wright has found safety in a ruined Abbey in southern England, but he is still alone. All he has for company are the files sent to him by his shadowy contact, Sholto. On those, he believes he has found the origins of the undead, and the vast conspiracy in which he discovers he played an unwitting part. He needs answers, and knows the only place they will be found is at the facility that created the virus. As he journeys through the desolate ruins of a dead civilisation, he meets other survivors. He rescues some, is rescued by others, but ultimately discovers that zombies are not the most deadly threat in an undead wasteland. This is the second volume of his journal. (76,000 words)

In summer and fall 1941, as German armies advanced with shocking speed across the Soviet Union, the Soviet leadership embarked on a desperate attempt to safeguard the country's industrial and human resources. Their success helped determine the outcome of the war in Europe. To the Tashkent Station brilliantly reconstructs the evacuation of over sixteen million Soviet civilians in one of the most dramatic episodes of World War II. Rebecca Manley paints a vivid picture of this epic wartime saga: the chaos that erupted in towns large and small as German troops approached, the overcrowded trains that trundled eastward, and the desperate search for sustenance and shelter in Tashkent, one of the most sought-after sites of refuge in the rear. Her story ends in the shadow of victory, as evacuees journeyed back to their ruined cities and broken homes. Based on previously unexploited archival collections in Russia, Ukraine, and Uzbekistan, *To the Tashkent Station* offers a novel look at a war that transformed the lives of several generations of Soviet citizens. The evacuation touched men, women, and children from all walks of life: writers as well as workers, scientists along with government officials, party bosses, and peasants. Manley weaves their harrowing stories into a probing analysis of how the Soviet Union responded to and was transformed by World War II. Over the course of the war, the Soviet state was challenged as never before. Popular loyalties were tested, social hierarchies were recast, and the multiethnic fabric of the country was subjected to new strains. Even as the evacuation saved countless Soviet

Jews from almost certain death, it spawned a new and virulent wave of anti-Semitism. This magisterial work is the first in-depth study of this crucial but neglected episode in the history of twentieth-century population displacement, World War II, and the Soviet Union.

Sixty years ago the world was wrecked during a terrible war. The soil was poisoned. The air became toxic. Billions died. Those who survived took refuge in great towered cities, and began constructing giant colony ships that would enable them to escape the ruined Earth. The work wasn't completed in their lifetime. The seas rose to swamp the diseased land, and lap against the city walls. Their descendants laboured on, and now the first of the spaceships is nearing completion. But these cities aren't dictatorships. An election is scheduled to choose a leader for this last exodus of humanity. With twenty-four hours until voting is due to begin, two workers are murdered. It is the first serious crime in generations, and it is down to the young Constable Ely to solve it. The election must take place. The ships must be launched. Above all, production must come first. A dystopian detective novel from the author of *Surviving The Evacuation 1: London, 2: Wasteland, 3: Family 4: Unsafe Haven, 5: Reunion, 6: Harvest, 7: Home. Zombies vs The Living Dead*

Not all survivors are to be trusted. Not all the conspirators are dead. February: Within hours of the outbreak, the quarantine was sabotaged. Within days, the world was gripped by civil war. March: When the lights finally went out, billions were dead. Millions more had joined the ranks of the undead. May: Anglesey has become home to nearly ten thousand survivors from across the Atlantic. While there is still danger from the undead on the mainland, there is hope. Hope that the

zombies might die, hope that the electricity supply might be restored, and hope that more survivors will be found. Hope is not enough. Sergeant Branofski and Chester Carson venture into northern Wales to set up a network of safe houses that will provide a route to Anglesey for those still trapped in the wasteland. Though they find survivors, they discover something far worse.

September: Nowhere is safe from the living dead, not even The Tower of London. The ancient fortress has become home to nearly a hundred people. Food is scarce and the undead are many. The survivors are doomed unless help can be found, but the only place it can come from is Anglesey. Eamonn Finnegan sets out alone to seek their salvation. He never reaches Wales.

November: In her heart, Greta knows that Eamonn is dead, yet she has to look for her lost love because he would look for her. Chester joins her in the futile quest to ensure the search doesn't cost Greta her life. Before their journey has barely begun, they discover an old foe that they thought was dead. Set on Anglesey and in London, near Wrexham and in Birmingham, while hope is fading for the last survivors of humanity.

The War that Saved My Life Frank Tayell

A practical and comprehensive guide to surviving the greatest disaster of our time, from New York Times bestselling self-help author and beloved CBS Sunday Morning science and technology correspondent David Pogue. You might not realize it, but we're already living through the beginnings of climate chaos. In Arizona, laborers now start their day at 3 a.m. because it's too hot to work past noon. Chinese investors are snapping up real estate in Canada. Millennials have evacuation plans. Moguls are building bunkers. Retirees in Miami are moving inland. In *How to Prepare for Climate Change*, bestselling self-help author David Pogue offers sensible, deeply researched advice for how the rest of us should start to ready ourselves for the years ahead. Pogue walks readers through what to grow, what to eat, how to build, how to insure, where to

invest, how to prepare your children and pets, and even where to consider relocating when the time comes. (Two areas of the country, in particular, have the requisite cool temperatures, good hospitals, reliable access to water, and resilient infrastructure to serve as climate havens in the years ahead.) He also provides wise tips for managing your anxiety, as well as action plans for riding out every climate catastrophe, from superstorms and wildfires to ticks and epidemics.

Timely and enlightening, *How to Prepare for Climate Change* is an indispensable guide for anyone who read *The Uninhabitable Earth* or *The Sixth Extinction* and wants to know how to make smart choices for the upheaval ahead.

Whoever wins the election, humanity will lose. Nine months after the outbreak, ten thousand survivors from across the globe have found a refuge on the Welsh island of Anglesey. Hordes of the undead ravage the wastelands of Britain and Ireland. Satellite images show that the rest of the world is no better. Food, fuel, and ammunition are running low and there are no more old-world supplies with which to replace them. Intended as an alternative to a slide into despotism, an election is called. It is hoped the contest will bring forth solutions to the myriad crises facing this last bastion of humanity. After the favoured candidate is hospitalised, suspicion falls on the new frontrunner, a publican who purchased his support with an impossible promise of a return to the pre-apocalyptic world. With no viable candidate, and no way of calling off the election, those who still have access to a ship plan their departure; others plan to rig the contest; a few give up on all plans for a future beyond tomorrow. Anglesey is on the verge of collapse, and humanity is on the brink of extinction. Set in Belfast, the Isle of Man, and Wales during the run-up to the election on Anglesey, this is the sixth volume of Bill Wright's journals.
