Being hosed down by the police in Paris, falling overboard off La Rochelle, making a

forced landing in a glider near the 'Côte d'Azur' and dangling from a stricken cable car over the Alps are a few of the events experienced by a group of mature English revelers. Conceived one evening as 'a final fling' by four men in their local pub, the project results in a coach tour of France by thirty-one villagers who argue, fall in love, put the world to rights and sometimes behave quite inappropriately for their age. The tour is a comedy of errors but how will it all end?

Business Education Forum Corwin Press Principles of Genetics is one of the most popular texts in use for the introductory course. It opens a window on the rapidly advancing science of genetics by showing exactly how genetics is done. Throughout, the authors incorporate a human emphasis and highlight the role of geneticists to keep students interested and motivated. The seventh edition has been completely updated to reflect the latest developments in the field of genetics. Principles of Genetics continues to educate today's students for tomorrow's science by focusing on features that aid in content comprehension and application. This text is an unbound, three hole punched version.

Three Sheets to the Wind Thomas Nelson Praise for The Teaching Portfolio "This new edition of a classic text has added invaluable, immediately useful material. It's a must-read for faculty, department chairs, and academic administrators." —Irene W. D. Hecht, director, Department Leadership Programs, American Council on Education "This book offers a wealth of wisdom and materials. It contains essential knowledge, salient advice, and

an immediately useful model for faculty engaged in promotion or tenure." —Raymond L. Calabrese, professor of educational administration, The Ohio State University "The Teaching Portfolio provides the guidelines and models that faculty need to prepare quality portfolios, plus the standards and practices required to evaluate them." —Linda B. Nilson, director, Office of Teaching Effectiveness and Innovation, Clemson University "Focused on reflection, sound assessment, and collaboration, this inspiring and practical book should be read by every graduate student, faculty member, and administrator." —John Zubizarreta, professor of English, Columbia College "All the expanded and new sections of this book add real value, but administrators and review committees will clearly benefit from the new section on how to evaluate portfolios with a validated template." —Barbara Hornum, director, Center for Academic Excellence, Drexel University "This book is practical, insightful, and immediately useful. It's an essential resource for faculty seeking promotion/tenure or who want to improve their teaching." —Michele Stocker-Barkley,

faculty, Department of Psychology, Kishwaukee Community College "The Teaching Portfolio has much to say to teachers of all ranks, disciplines, and institutions. It offers a rich compendium of practical guidelines, examples, and resources." —Mary Deane Sorcinelli, Associate Provost for Faculty Development, University of Massachusetts Amherst "Teaching portfolios help our Board on Rank and Tenure really understand the quality and value of individual teaching contributions." —Martha L. This book offers 101 passive programming ideas that are extendable, adaptable, customizable, and above all, stealable-so your passive programming never runs dry. Passive programming is a cheap, quick, fun way to make all library customers feel like part of the community. It can support reading initiatives, foster family

engagement, encourage visit frequency, and coax interaction out of library lurkers-while barely making a dent in your programming budget. Passive programming can be targeted at children, teens, adults, or seniors; used to augment existing programs; and executed in places where staff-led programming can't reach. It can be light-footed, spontaneous, and easily deployed to reflect and respond to current news, media, library events, and even the weather. But even passive programming pros run out of ideas sometimes, and when that happens, they want a fresh, funny source of inspiration.

The origins of a remarkable number of everyday words and phrases are anchored in our seafaring past. *Three Sheets to the Wind: The Nautical Origins of Everyday Expressions* is an entertaining compilation revealing the maritime roots of common English expressions. The original "slush fund" was the fatty scraps from boiled meat that the ship's cook secretly stashed away to sell at port to candle makers. The man who originally "turned a blind eye" was Admiral Nelson. In one of Naval

history's most famous acts of insubordination, Nelson, in the heat of battle, raised his telescope to his blind eye and announced he could not see the signal flag commanding him to break off action. The perfect companion for etymology lovers, factophiles, ocean dreamers, and the conversationally curious, *Three Sheets to the Wind* features 200 words and expressions that are nautically inspired. Alphabetically organized (from A to Sea) readers can also enjoy 100 original illustrations as well as relevant excerpts from the great novels of Melville, Forester, O'Brian, and others. These passages illustrate how such literary giants reached for these expressions in their classic masterpieces. Our everyday speech is peppered with language used by sailors when someone says they are "pooped" because they stayed to the "bitter end" of "happy hour".

There is a need in the higher education arena for a book that responds to the need for using technology in a classroom of tech-savvy students. This book is filled with illustrative examples of questions and teaching activities that use classroom response systems from a variety of disciplines (with a discipline index). The book also incorporates results from research on the effectiveness of the technology for teaching. Written for instructional designers and re-designers as well as faculty across disciplines. A must-read for anyone interested in interactive teaching and the use of clickers. This book draws on the experiences of countless instructors across a wide range of disciplines to provide both novice and experienced teachers with practical advice on how to make classes more fun and more effective.”--Eric Mazur, Balkanski Professor of Physics and Applied Physics, Harvard University, and author, *Peer Instruction: A User’s Manual* “Those who come to this book needing practical advice on using ‘clickers’ in the classroom will be richly rewarded: with case studies, a refreshing historical perspective, and

much pedagogical ingenuity. Those who seek a deep, thoughtful examination of strategies for active learning will find that here as well—in abundance. Dr. Bruff achieves a marvelous synthesis of the pragmatic and the philosophical that will be useful far beyond the life span of any single technology.” --Gardner Campbell, Director, Academy for Teaching and Learning, and Associate Professor of Literature, Media, and Learning, Honors College, Baylor University
