The Slaves Have Names Beacon Press

Newbery Honor Book Coretta Scott King Author Honor Book Coretta Scott King Illustrator Honor Book
 Using original slave auction and plantation estate documents, Ashley Bryan offers a moving and powerful picture book that contrasts the monetary value of a person with the priceless value of life experiences and dreams that a slave owner could never take away. Imagine being looked up and down and being valued as less than chair. Less than an ox. Less than a dress. Maybe about the same as...a lantern. This gentle yet deeply powerful way goes to the heart of how a slave is given a monetary value by the slave owner, tempering this with the one thing that can't be bought or sold: dreams. Inspired by the actual will of a plantation owner that lists the worth of each and every one of his "workers," the author has created collages around that document, and others like it. Through fierce paintings and expansive poetry, he imagines and interprets each person's life on the plantation, as well as the life their owner knew nothing about—their dreams and pride in knowing that they were worth far more than an overseer or madam ever would guess. Visually epic, and never before done, this stunning picture book is unlike anything you've seen.

Forty Million Dollar Slaves Harvard University Press

At last a clear manual for managing slaves the Roman way. *How to Manage your Slaves* offers practical answers to every question you're likely to have and guidance on every problem you're likely to encounter. Marcus Sidonius Falx shows where and how to buy the slaves for the purposes you have in mind and how to get the best out of them once you've got them. He explains how to tell a good slave from a bad, offers guidance on the punishment of miscreants, and reveals the secrets of command and authority. He covers the delicate subjects of when you should let your slaves have sex with each other and whether to engage in sex with them yourself - and considers when to set them free. Armed with this guide you will be master in your own home: your household will be a comfort to your family and its running the envy of your neighbours. Up to now ancient slavery may have been difficult to fathom: this Roman's-eye view takes us to the heart of the matter and, based on a wealth of original sources, lets us understand just why slaves meant so much to the Romans.

Masters and Management Schwartz & Wade

This speech was said to have been delivered by Willie Lynch on the bank of the James River in the colony of Virginia in 1712. Lynch was a British slave owner in the West Indies. He was invited to the colony of Virginia in 1712 to teach his methods to slave owners there.

How to Manage Your Slaves by Marcus Sidonius Falx Fantagraphics Books

NEW YORK TIMES BESTSELLER • “An explosive and absorbing discussion of race, politics, and the history of American sports.”—*Ebony* From Jackie Robinson to Muhammad Ali and Arthur Ashe, African American athletes have been at the center of modern culture, their on-the-field heroics admired and stratospheric earnings envied. But for all their money, fame, and achievement, says New York Times columnist William C. Rhoden, black athletes still find themselves on the periphery of true power in the multibillion-dollar industry their talent built. Provocative and controversial, Rhoden's \$40 Million Slaves weaves a compelling narrative of black athletes in the United States, from the plantation to their beginnings in nineteenth-century boxing rings to the history-making accomplishments of notable figures such as Jesse Owens, Althea Gibson, and Willie Mays. Rhoden reveals that black athletes' "evolution" has merely been a journey from literal plantations—where sports were introduced as diversions to quell revolutionary stirrings—to today's figurative ones, in the form of collegiate and professional sports programs. He details the "conveyor belt" that brings kids from inner cities and small towns to big-time programs, where they're cut off from their roots and exploited by team owners, sports agents, and the media. He also sets his sights on athletes like Michael Jordan, who he says have abdicated their responsibility to the community with an apathy

that borders on treason. The power black athletes have today is as limited as when masters forced their slaves to race and fight. The primary difference is, today's shackles are invisible. Praise for *Forty Million Dollar Slaves* “A provocative, passionate, important, and disturbing book.”—*The New York Times* Book Review “Brilliant . . . a beautifully written, complex, and rich narrative.”—*Washington Post* Book World “A powerful call for more black athletes to give back to their communities.”—*Los Angeles Times*

The Roman Guide to Slave Management Aladdin

Slaves to Fashion is a pioneering cultural history of the black dandy, from his emergence in Enlightenment England to his contemporary incarnations in the cosmopolitan art worlds of London and New York. It is populated by sartorial impresarios such as Julius Soubise, a freed slave who sometimes wore diamond-buckled, red-heeled shoes as he circulated through the social scene of eighteenth-century London, and Yinka Shonibare, a prominent Afro-British artist who not only styles himself as a fop but also creates ironic commentaries on black dandyism in his work. Interpreting performances and representations of black dandyism in particular cultural settings and literary and visual texts, Monica L. Miller emphasizes the importance of sartorial style to black identity formation in the Atlantic diaspora. Dandyism was initially imposed on black men in eighteenth-century England, as the Atlantic slave trade and an emerging culture of conspicuous consumption generated a vogue in dandified black servants. “Luxury slaves” tweaked and reworked their uniforms, and were soon known for their sartorial novelty and sometimes flamboyant personalities. Tracing the history of the black dandy forward to contemporary celebrity incarnations such as Andre 3000 and Sean Combs, Miller explains how black people became arbiters of style and how they have historically used the dandy's signature tools—clothing, gesture, and wit—to break down limiting identity markers and propose new ways of fashioning political and social possibility in the black Atlantic world. With an aplomb worthy of her iconographic subject, she considers the black dandy in relation to nineteenth-century American literature and drama, W. E. B. Du Bois's reflections on black masculinity and cultural nationalism, the modernist aesthetics of the Harlem Renaissance, and representations of black cosmopolitanism in contemporary visual art.

Roman Slavery and Roman Material Culture Simon and Schuster

Our origins as a slave species and the Anunnaki legacy in our DNA • Reveals compelling new archaeological and genetic evidence for the engineered origins of the human species, first proposed by Zecharia Sitchin in *The 12th Planet* • Shows how the Anunnaki created us using pieces of their own DNA, controlling our physical and mental capabilities by inactivating their more advanced DNA • Identifies a recently discovered complex of sophisticated ruins in South Africa as the city of the Anunnaki leader Enki Scholars have long believed that the first civilization on Earth emerged in Sumer some 6,000 years ago. However, as Michael Tellinger reveals, the Sumerians and Egyptians inherited their knowledge from an earlier civilization that lived at the southern tip of Africa and began with the arrival of the Anunnaki more than 200,000 years ago. Sent to Earth in search of life-saving gold, these ancient Anunnaki astronauts from the planet Nibiru created the first humans as a slave race to mine gold--thus beginning our global traditions of gold obsession, slavery, and god as dominating master. Revealing new archaeological and genetic evidence in support of Zecharia Sitchin's revolutionary work with pre-biblical clay tablets, Tellinger shows how the Anunnaki created us using pieces of their own DNA, controlling our physical and mental capabilities by inactivating their more advanced DNA--which explains why less than 3 percent of our DNA is active. He identifies a recently discovered complex of sophisticated ruins in South Africa, complete with thousands of mines, as the city of Anunnaki leader Enki and explains their lost technologies that used the power of sound as a source of energy. Matching key mythologies of the world's religions to the Sumerian clay tablet stories on which they are based, he details the actual events behind these tales of direct physical interactions with "god," concluding with the epic flood--a perennial theme of ancient myth--that wiped out the Anunnaki mining operations. Tellinger shows that, as humanity awakens to the

truth about our origins, we can overcome our programmed animalistic and slave-like nature, tap in to our dormant Anunnaki DNA, and realize the longevity and intelligence of our creators as well as learn the difference between the gods of myth and the true loving God of our universe.

The Reader of Acheron Simon and Schuster

New York Times Bestseller • TIME Magazine's Best Nonfiction Book of 2018 • New York Public Library's Best Book of 2018 • NPR's Book Concierge Best Book of 2018 • Economist Book of the Year • SELF.com's Best Books of 2018 • Audible's Best of the Year • BookRiot's Best Audio Books of 2018 • The Atlantic's Books Briefing: History, Reconsidered • Atlanta Journal Constitution, Best Southern Books 2018 • The Christian Science Monitor's Best Books 2018 • "A profound impact on Hurston's literary legacy."—New York Times "One of the greatest writers of our time."—Toni Morrison "Zora Neale Hurston's genius has once again produced a Maestrapiece."—Alice Walker A major literary event: a newly published work from the author of the American classic *Their Eyes Were Watching God*, with a foreword from Pulitzer Prize-winning author Alice Walker, brilliantly illuminates the horror and injustices of slavery as it tells the true story of one of the last-known survivors of the Atlantic slave trade—abducted from Africa on the last "Black Cargo" ship to arrive in the United States. In 1927, Zora Neale Hurston went to Plateau, Alabama, just outside Mobile, to interview eighty-six-year-old Cudjo Lewis. Of the millions of men, women, and children transported from Africa to America as slaves, Cudjo was then the only person alive to tell the story of this integral part of the nation's history. Hurston was there to record Cudjo's firsthand account of the raid that led to his capture and bondage fifty years after the Atlantic slave trade was outlawed in the United States. In 1931, Hurston returned to Plateau, the African-centric community three miles from Mobile founded by Cudjo and other former slaves from his ship. Spending more than three months there, she talked in depth with Cudjo about the details of his life. During those weeks, the young writer and the elderly formerly enslaved man ate peaches and watermelon that grew in the backyard and talked about Cudjo's past—memories from his childhood in Africa, the horrors of being captured and held in a barracoon for selection by American slavers, the harrowing experience of the Middle Passage packed with more than 100 other souls aboard the *Clotilda*, and the years he spent in slavery until the end of the Civil War. Based on those interviews, featuring Cudjo's unique vernacular, and written from Hurston's perspective with the compassion and singular style that have made her one of the preeminent American authors of the twentieth-century, *Barracoon* masterfully illustrates the tragedy of slavery and of one life forever defined by it. Offering insight into the pernicious legacy that continues to haunt us all, black and white, this poignant and powerful work is an invaluable contribution to our shared history and culture.

Never Caught Prabhat Prakashan

This volume is concerned with the histories of freed slaves in a variety of slave societies in the ancient and modern world, ranging from ancient Rome to the southern States of the US, the Caribbean, and Brazil to Africa in the aftermath of emancipation in the twentieth century.

Incidents in the Life of a Slave Girl (EasyRead Super Large 20pt Edition) BRILL

Although much has been written on Greek and Roman slavery, slave resistance has typically been dismissed as historically insignificant and those revolts that are documented are portrayed as wholly exceptional and resulting from peculiar historical circumstances that had little to do with the intrinsic views or organizational capabilities of the slaves themselves. In this book Theresa Urbainczyk challenges the current orthodoxy and argues that there were many more slave revolts than is usually assumed and they were far from insignificant historically. She carefully dissects ancient and modern interpretations to show that there was every reason for the writers who recorded and re-recorded the slave rebellions and wars to repress or to reconfigure any larger-scale slave resistance as something other than what it was. Further, she shows that we often have the accounts that we do because of the happenstance of certain ancient authors having been particularly interested in creating accounts of them for their own interests. Urbainczyk argues that we need to look beyond the canonical sources and episodes to see a bigger history of long-term resistance of slaves to their enslavement.

Runaway Slaves to Mexico and the Road to the Civil War Duke University Press

Having spent most of his life managing his servants—many of them prisoners from Rome's military conquests—he decided to write a kind of owner's manual for his friends and countrymen. The result, *The Roman Guide to Slave Management*, is a sly, subversive guide to the realities of servitude in ancient Rome. Cambridge scholar Jerry Toner uses Falx, his fictional but true-to-life creation, to describe where and how to Romans bought slaves, how they could tell an obedient worker from a troublemaker, and even how the ruling class reacted to the inevitable slave revolts. Toner also adds commentary throughout, analyzing the callous words and casual brutality of Falx and his compatriots and putting it all in context for the modern reader. Written with a deep knowledge of ancient culture—and the depths of its cruelty—this is the Roman Empire as you've never seen it before.

Living M/S; A Book for Masters, Slaves, and Their Relationships Open Road Media

#1 New York Times Bestseller - Winner of the Pulitzer Prize - Winner of the National Book Award - Winner of the Andrew Carnegie Medal for Excellence in Fiction - Longlisted for the Man Booker Prize One of the Best books of the Year: The New York Times, The Washington Post, NPR, The Boston Globe, The Seattle Times, HuffPost, Esquire, Minneapolis Star Tribune Look for Whitehead's acclaimed new novel, *The Nickel Boys*, available now Cora is a young slave on a cotton plantation in Georgia. An outcast even among her fellow Africans, she is on the cusp of womanhood—where greater pain awaits. And so when Caesar, a slave who has recently arrived from Virginia, urges her to join him on the Underground Railroad, she seizes the opportunity and escapes with him. In Colson Whitehead's ingenious conception, the Underground Railroad is no mere metaphor: engineers and conductors operate a secret network of actual tracks and tunnels beneath the Southern soil. Cora embarks on a harrowing flight from one state to the next, encountering, like Gulliver, strange yet familiar iterations of her own world at each stop. As Whitehead brilliantly re-creates the terrors of the antebellum era, he weaves in the saga of our nation, from the brutal abduction of Africans to the unfulfilled promises of the present day. The Underground Railroad is both the gripping tale of one woman's will to escape the horrors of bondage—and a powerful meditation on the history we all share.

They Were Her Property Oxford University Press, USA

The visionary author's masterpiece pulls us—along with her Black female hero—through time to face the horrors of slavery and explore the impacts of racism, sexism, and white supremacy then and now. Dana, a modern black woman, is celebrating her twenty-sixth birthday with her new husband when she is snatched abruptly from her home in California and transported to the antebellum South. Rufus, the white son of a plantation owner, is drowning, and Dana has been summoned to save him. Dana is drawn back repeatedly through time to the slave quarters, and each time the stay grows longer, more arduous, and more dangerous until it is uncertain whether or not Dana's life will end, long before it has a chance to begin.

Wake Basic Books

The incredible true story of the last ship to carry enslaved people to America, the remarkable town its survivors founded after emancipation, and the complicated legacy their descendants carry with

them to this day—by the journalist who discovered the ship's remains. Fifty years after the Atlantic slave trade was outlawed, the *Clotilda* became the last ship in history to bring enslaved Africans to the United States. The ship was scuttled and burned on arrival to hide evidence of the crime, allowing the wealthy perpetrators to escape prosecution. Despite numerous efforts to find the sunken wreck, *Clotilda* remained hidden for the next 160 years. But in 2019, journalist Ben Raines made international news when he successfully concluded his obsessive quest through the swamps of Alabama to uncover one of our nation's most important historical artifacts. Traveling from Alabama to the ancient African kingdom of Dahomey in modern-day Benin, Raines recounts the ship's perilous journey, the story of its rediscovery, and its complex legacy. Against all odds, Africatown, the Alabama community founded by the captives of the *Clotilda*, prospered in the Jim Crow South. Zora Neale Hurston visited in 1927 to interview Cudjo Lewis, telling the story of his enslavement in the New York Times bestseller *Barracoon*. And yet the haunting memory of bondage has been passed on through generations. *Clotilda* is a ghost haunting three communities—the descendants of those transported into slavery, the descendants of their fellow Africans who sold them, and the descendants of their American enslavers. This connection binds these groups together to this day. At the turn of the century, descendants of the captain who financed the *Clotilda*'s journey lived nearby—where, as significant players in the local real estate market, they disenfranchised and impoverished residents of Africatown. From these parallel stories emerges a profound depiction of America as it struggles to grapple with the traumatic past of slavery and the ways in which racial oppression continue to this day. And yet, at its heart, *The Last Slave Ship* remains optimistic – an epic tale of one community's triumphs over great adversity and a celebration of the power of human curiosity to uncover the truth about our past and heal its wounds.

Ancestors of my Home Andi Cumbo-Floyd

The Invisibles chronicles the African American presence inside the White House from its beginnings in 1782 until 1862, when President Abraham Lincoln issued the Emancipation Proclamation that granted slaves their freedom. During these years, slaves were the only African Americans to whom the most powerful men in the United States were exposed on a daily, and familiar, basis. By reading about these often-intimate relationships, readers will better understand some of the views that various presidents held about class and race in American society, and how these slaves contributed not only to the life and comforts of the presidents they served, but to America as a whole.

The Hidden History of Women-Led Slave Revolts Farrar, Straus and Giroux

A brilliant and surprising account of the coming of the American Civil War, showing the crucial role of slaves who escaped to Mexico. The Underground Railroad to the North promised salvation to many American slaves before the Civil War. But thousands of people in the south-central United States escaped slavery not by heading north but by crossing the southern border into Mexico, where slavery was abolished in 1837. In *South to Freedom*, historian Alice L. Baumgartner tells the story of why Mexico abolished slavery and how its increasingly radical antislavery policies fueled the sectional crisis in the United States. Southerners hoped that annexing Texas and invading Mexico in the 1840s would stop runaways and secure slavery's future. Instead, the seizure of Alta California and Nuevo México upset the delicate political balance between free and slave states. This is a revelatory and essential new perspective on antebellum America and the causes of the Civil War. **A Fine Dessert: Four Centuries, Four Families, One Delicious Treat** ReadHowYouWant.com They lived with professors and waited on former presidents. They were masons and nurses, school teachers and field hands, 246 people owned by a man who struggled with the institution of slavery. Yet, almost no one knows their names. When a white woman begins to study the history of the plantations these people built, the plantations where she was raised, she discovers that the silence around these people's lives speaks of a silence in her country's history . . . and in her own life. A creative nonfiction, history book about American slavery and its legacy in the United States. If you appreciate knowing the untold stories, if you get excited about a delve into justice, if you know that history affects every bit of the way we live today, then *The Slaves Have Names* is the book for you. Buy it today and disappear into the lives of these amazing people.

A Treatise by Nobleman Marcus Sidonius Falx The Nazca Plains Corporation

A New York Times Best Illustrated Book From highly acclaimed author Jenkins and Caldecott Medal-winning illustrator Blackall comes a fascinating picture book in which four families, in four different cities, over four centuries, make the same delicious dessert: blackberry fool. This richly detailed book ingeniously shows how food, technology, and even families have changed throughout American history. In 1710, a girl and her mother in Lyme, England, prepare a blackberry fool, picking wild blackberries and beating cream from their cow with a bundle of twigs. The same dessert is prepared by an enslaved girl and her mother in 1810 in Charleston, South Carolina; by a mother and daughter in 1910 in Boston; and finally by a boy and his father in present-day San Diego. Kids and parents alike will delight in discovering the differences in daily life over the course of four centuries. Includes a recipe for blackberry fool and notes from the author and illustrator about their research.

Kindred Routledge

The Roman Guide to Slave Management A Treatise by Nobleman Marcus Sidonius Falx Abrams

Freedom Over Me Routledge

Part graphic novel, part memoir, *Wake* is an imaginative tour-de-force that tells the story of women-led slave revolts and chronicles scholar Rebecca Hall's efforts to uncover the truth about these women warriors who, until now, have been left out of the historical record. Women warriors planned and led slave revolts on slave ships during the Middle Passage. They fought their enslavers throughout the Americas. And then they were erased from history. *Wake* tells the story of Dr. Rebecca Hall, a historian, granddaughter of slaves, and a woman haunted by the legacy of slavery. The accepted history of slave revolts has always told her that enslaved women took a back seat. But Rebecca decides to look deeper, and her journey takes her through old court records, slave ship captain's logs, crumbling correspondence, and even the forensic evidence from the bones of enslaved women from the "negro burying ground" uncovered in Manhattan. She finds women warriors everywhere. Using in-depth archival research and a measured use of historical imagination, Rebecca constructs the likely pasts of Adono and Alele, women rebels who fought for freedom during the Middle Passage, as well as the stories of women who led slave revolts in Colonial New York. We also follow Rebecca's own story as the legacy of slavery shapes life, both during her time as a successful attorney and later as a historian seeking the past that haunts her. Illustrated beautifully in black and white, *Wake* will take its place alongside classics of the graphic novel genre, like Marjane Satrapi's *Persepolis* and Art Spiegelman's *Maus*. The story of both a personal and national legacy, it is a powerful reminder that while the past is gone, we still live in its wake.
