INTRODUCTION Belief in the existence of God is part of the inbuilt knowledge of man, in harmony with his most basic nature. Even before we were created in our present states, acknowledgement of this was carved into our nature. Allah is absolute and so too are His qualities. While created beings may have a claim to many of these attributes, the reality of our limited selves and our properties in contrast to His infiniteness (in Being and qualities) means that the similarity ends in the names. We may have knowledge, for example, and Allah also is the Knowing, but our knowledge is so restricted and bound by quantity, detail, time, dimension and memory that there can be no comparison with the absolute knowledge that is Allah's. His attributes, then, have been mentioned to us merely to give us a glimpse of His limitless vastness and completeness; no mind can ever fully comprehend infinity. The bottom line in understanding the Being of Allah is, therefore, "there is nothing like unto Him" (42:11). This booklet is a very brief attempt to present before those who wish to know God, a concise guide to these most beautiful Names. They have been compiled in the light of what God has said of Himself in the Qur'an and what His beloved Messenger, who knew Him best said of Him in the Ahadith. Still, it is humbling to bear in mind that Allah is One so boundless in Self and Qualities that even the vast oceans could not do justice to Him.

In the first volume of the Sacred names series : "The 72 Names of God: The 72 keys to Transformation" I discuss the power of the name. Knowing a name gives you power.In this book we will discuss the 99 names of Allah, what they are, and how to use them to instill in yourself with the power of God. Throughout the mystical traditions of the world, several traditions stand out as luminaries. One of these luminous traditions is Sufism. Sufism is the mystical tradition of the Muslim faith. Like any spiritual tradition, mystical interpretations are often hinted at in the main body of religious texts, but other books are needed to decipher the inner mysteries of an established canon. This applies to Islam as well.Islam's main holy book is the Quran. A beautifully written and deep tome. Often , in the west we do not see the depth of Islam because it has been shrouded in the deeds of a few radical people who have lost the true spirit of the Quran. This is a shame because the Quran is quite a deep book. It is much more than a book on how to conduct ones life. It is a manual for divine enlightenment. Its deeper mysteries are hidden in the text and voluminous works like the Hadith are used to tease them out. In the Hadith it discusses the 99 names of God. These names are essentially 99 qualities that God possess. These names are meant as guides in our own life. If you have ever seen picture of Muslims holding beads in their hands , those beads are used to chant the 99 names of Allah. This tradition is very much embedded in Islamic tradition. In this book, we will learn how to tap into the 99 names of Allah and acquire the 99 divine qualities.
