International Predictions Oxford
University Press, USA

This consultation paper considers options for reform of the current law in relation to the property and financial rights of cohabiting couples (either opposite-sex or same-sex couples) when a relationship ends. Although the paper does discuss the situation in relation to when one of the partners dies, it focuses on whether a new scheme is needed to provide financial remedies on separation when a relationship breaks down.

Amongst the provisional proposals, the Committee identifies the need for the introduction of new statutory remedies

to address the separation of cohabiting couples who have children; however the situation for cohabitants without children is found to raise more difficult social policy questions and the views of consultees are sought about their eligibility within the proposed scheme. Other proposals include: that courts should be given discretion in determining financial claims on separation (rather than having fixed rules for property division) based on principles of the contributions of both parties to the joint household and to the welfare of dependent children both before and after separation; with the provision for an opt-out agreement for couples under the proposed statutory scheme. Responses to the proposals should be received by 30th September

2006 and a final report is due to be published by August 2007. An overview document summarising the key issues considered is available separately (ISBN 011730266X).

A Simple Guide Family Law (Scotland) Act 1985

This book deals with a subject that has recently been the focus of debate and law reform in many jurisdictions: how much scope should spouses have to conclude agreements concerning their financial affairs - and under what circumstances should such agreements be binding and enforceable? These marital agreements include pre-nuptial, post-nuptial and separation agreements. The book is the result of a British Academy-funded research project which investigated and compared the relevant

law of England and Wales, Australia, Austria, Belgium, France, Germany, Ireland, the Netherlands, New Zealand, Scotland, Singapore, Spain, Sweden and the jurisdictions of the United States. In addition to chapters on these jurisdictions, the book includes a chapter on the 'English practitioner's view'. It also provides a comparative analysis of the different matrimonial property regimes and the rules on marital agreements that explores underlying themes and principles and makes recommendations for regulating marital agreements. A key theme is the function and effect of marital agreements in the different jurisdictions. Thus, each chapter first explains the underlying 'default' rules for ancillary relief/matrimonial property and

maintenance. It then analyses the current rules for marital agreements, and gives a brief account of the private international law rules. The book provides a comprehensive source of reference on ancillary relief/matrimonial property and maintenance and the rules on pre-nuptial, post-nuptial and separation agreements in 14 jurisdictions. It offers guidance for academics and practitioners dealing with international matters, and a basis for discussions on law reform. 'I applaud the vision and perseverance of Jens Scherpe in having conceived this book and, with so much distinguished help, in now bringing it to birth. I will be using it for many years and I warmly invite my fellow family lawyers across the world to do likewise.' Foreword by The Rt Hon

Lord Wilson of Culworth, Justice of the Supreme Court of the United Kingdom
The Future of Child and Family Law Text, Cases and Materials

Child and family law tells us much about how a society operates, since it touches the lives of everyone living in that society. In this volume, a variety of experts examine child and family law in thirteen countries - Australia, Canada, China, India, Israel, Malaysia, The Netherlands, New Zealand, Norway, Russia, Scotland, South Africa and the United States. Each chapter identifies the imperatives and influences that have prevailed to date and offers informed predictions of how it will develop in the years to come. A common chapter structure facilitates comparison of the jurisdictions, and in the introduction the

editor highlights common trends and salient differences. The Future of Child and Family Law therefore provides practitioners, academics and policy-makers with access not just to an overview of child and family law in a range of countries around the world, but also to insights into what has shaped it and options for reform.

Text, Cases, and Materials Edward Elgar Publishing

The Changing Concept of 'Family' and Challenges for Domestic Family Law explores the changing concept of 'family', with the current social, political, medical and scientific challenges for domestic family law discussed in over 20 European jurisdictions. National reports describe the current law and legal development for 'horizontal' (the law of

relationships between adults such as marriage, divorce, cohabitation, same-sex relationships), 'vertical' (the law governing the relationships between adults and children, such as parentage including artificial reproductive techniques and surrogacy, parental responsibility and adoption) and 'individual' (the law of names and recognition of gender identity) family law. They show that, while considerable legal and societal diversity still exists within Europe, family law, in many areas, is developing along similar lines, with a convergence towards a European family law. This book, and the others in the set, will serve as an invaluable resource for anyone interested in family law. It will be of particular use to students and scholars of comparative and

international family law, as well as family law practitioners.

The Legal Relevance of Gender

Bloomsbury Publishing

The Family Law (Scotland) Act 1985 is one of the most important pieces of legislation in many years, particularly in the area of financial provision on divorce. It constructed a new legal framework for the financial and property aspects of family relationships, including the shift away from treating marriage as a relationship of regulated dependency, to one of partnership. Contained within The Family Law (Scotland) Act 1985 is a full text copy of the Act, supplemented with authoritative section by section commentary by an acknowledged expert in family law - Anne Hall Dick. Extensive notes and explanations of the legislation

and provisions are provided to aid ease of understanding. In addition, three important cases are reproduced as an Appendix to the Act: McConnell v. McConnell (No. 2); Jackson v. Jackson; and R v. R. Particularly useful for practitioners involved in litigation in the area of family law as there are ever increasing numbers of cases arising from issues raised by this Act, Family Law (Scotland) Act 1985 in the Annotated Acts series is an essential guide for family law practitioners and students, providing you with an excellent, portable companion and working tool.

This detailed analysis of the content and configuration of civil codes in diverse jurisdictions also examines their relationship with some branches of

private law as: family law, commercial law, consumer law and private international law. It analyzes the codification, decodification and recodification processes illuminating the dialogue between current codes – and private law legislation in general – with Constitutions and International Conventions. The commentary elucidates the changing requirements of civil law as it shifted from an early protection of patrimony to a support for commercial and contractual law. It also explains the varying trajectories of civil law, which in some jurisdictions was merged with religious legal tenets in its codification of familial relations, while in others it was fused with commercial law or, indeed, codified from scratch as a discrete legal corpus. Elsewhere, the

volume provides material on differing approaches to consumer law, where relevant legislation may be scattered across numerous statutes, and also on private international law, a topic of increasing relevance in a world where business corporations have interests in multiple jurisdictions (and often play one off against another). The volume features invited contributions from leading scholars in the field of private law brought together for an in depth analysis of the current regulatory attitude in this field of the law in jurisdictions with diverse legal systems and traditions. In current times we are witnessing the adoption of diverging regulatory solutions. Through the analysis of the past and present of private law regulation, the volume

unveils the underlying trends and relevance of the codification method across the world.

Placing key judgments and expert commentary at your fingertips, *Family Law: Text, Cases, and Materials* presents everything the undergraduate student needs in one volume. Drawing on their extensive experience, the authors offer a detailed and authoritative exposition of family law illustrated by materials carefully selected from a wide range of sources. The book has two principal aims: to provide readers with a thorough understanding of the law relating to the family, and to do so in a way that stimulates critical reflection on that law. Readers are encouraged to consider how and why the law has developed as it has, what policies it is seeking to pursue, whether it achieves the right balance between the rights and interests of individual family members and the wider

public interest, and how it operates in practice. Online Resource Centre The text is supported by a substantial Online Resource Centre, which features regular updates on the law, further reading suggestions, and revision questions to accompany each chapter. The website also features supplementary coverage on the following topics: Introduction to family law Family relationships between adults Family property and finances Domestic violence Financial and property provision for children Property and finances when relationships end Child protection

A Guide to the Family Law BRILL

Family justice requires not only a legal framework within which personal obligations are regulated over the life course, but also a justice system which can deliver legal information, advice and support at times of change of status or family stress, together with mechanisms for negotiation, dispute management and resolution, with adjudication as the last resort. The past few years have seen unparalleled turbulence in the way family justice systems function. These changes are associated with economic constraints in many countries, including England and Wales, where legal aid for private family matters has largely disappeared. But there is also a change in ideology in a number of jurisdictions, including Canada, towards what is sometimes called neo-liberalism,

whereby the state seeks to reduce its area of activity while at the same time maintaining strong views on family values. Legal services may become fragmented and marketised, and the role of law and lawyers reduced, while self-help web based services expand. The contributors to this volume share their anxieties about the impact on the ability of individuals to achieve fair and informed resolution in family matters. [The Family Law \(Scotland\) Act 1985 \(Commencement No. 2\) Order 1988 EUP](#) This important collection of essays is at the cutting edge of contemporary research on Roman law, comparative law, and legal history. The international and distinguished group of authors address some of the most lively contemporary problems in their

respective fields, and provide new perspectives and insights in a wide range of areas. With a firm focus on texts and contexts, the papers come together to provide a coherent volume dedicated to one of the greatest contemporary Romanists, legal historians and comparative lawyers. The book covers Professor Watson's main fields of interest in a clear and accessible form, while also making available the scholarship of some individuals who do not normally publish in English. This fully-indexed volume will be of interest to all scholars and

students of Roman law, ancient Jewish and Chinese law, legal history and comparative law, and will be useful for teaching and research in these fields. Annotations to Family Law (Scotland) Act 2006 W. Green & Son
