Two exes wake up together with wedding bands on their fingers—and no idea how they got there. They have just one New Year’s Eve at the end of 1999 to figure it out in this big-hearted and nostalgic rom-com from New York Times bestselling author Allison Winn Scotch. When college sweethearts Frankie and Ezra broke up before graduation, they vowed to never speak to each other again. Ten years later, on the eve of the new millennium, they find themselves back on their snowy, picturesque New England campus together for the first time for the wedding of mutual friends. Frankie’s on the rise as a music manager for the hottest bands of the late ’90s, and Ezra’s ready to propose to his girlfriend after the wedding. Everything is going to plan—they just have to avoid the chasm of emotions brought up when they inevitably come face to face. But when they wake up in bed next to each other the following morning with Ezra’s grandmother’s diamond on Frankie’s finger, they have zero memory of how they got there—or about any of the events that transpired the night before. Now Frankie and Ezra have to put aside old grievances in order to figure out what happened, what didn’t happen...and to ask themselves the most troubling question of all: what if they both got it wrong the first time around?

It is estimated that one out of every seven people in the world suffer from one or more of the Cluster B personality disorders. No matter if they suffer from anti-social, borderline, histrionic or narcissistic personality disorder; all emotional abusers have this in common: unhealthy, superficial, inappropriate or completely nonexistent human emotions and extremely abusive, erratic, dysfunctional and toxic behavior.

Emotional abusers use anger, aggression, deceit, exaggeration, seduction, manipulation and excessive emotion to get what they want and to hide who they really are. Most are so good at what they do, and so relentless at pursuing and achieving what they desire, that most of the time their victims won’t truly realize what is happening to them until they become so isolated, hurt, confused, and disoriented, that they lose all sense of reality and self-identity. Emotional abuse can happen to anyone, but it is a personal hell through which no one should ever have to suffer. Honest, open, insightful and thoughtfully written from the first-hand experience and perspective of an abuse survivor, this book will not only help you identify behaviors that can lead to emotional abuse, but it will also give you the ability to recognize, avoid, escape and recover from its various forms, in all of its subtlety and expressions. It also provides an understanding of why people with Cluster B disorders do what they do, simultaneously shedding light on these disorders that are so often behind mental and emotional abuse.
