CAYDEN KARTER

Seizure Penguin

With her son's illness in complete remission, New York City medical examiner Laurie Montgomery returns to work-and finds her first case back to be a dangerous puzzle of the highest order, involving organized crime and two start-up biotech companies caught in a zero-sum game...

Coma Penguin

Death Benefit G.P. Putnam's Sons

Foreign Body Penguin

Coma is the breakthrough novel from author and master of the medical thriller Robin Cook. It began with two patients undergoing routine 'minor surgery' in Boston's greatest hospital but Nancy Greenly, Sean Berman and a dozen others - all admitted to Boston Memorial Hospital for routine procedures - were victims of the same inexplicable, hideous tragedy on the operating table. They never regained consciousness. Up against the scorn of the medics and the hostility of the establishment, one girl medical student starts to probe the coma cases, steadily

uncovering something unbelievably hideous . . .

Death Benefit Penguin

In this electrifying medical thriller from New York Times bestselling author Robin Cook, a family's exposure to a rare yet deadly virus ensnares them in a growing danger to mankind—and pulls back the curtain on a healthcare system powered by profit and greed. Trying to find some normalcy during the Covid-19 pandemic, Brian Murphy and his family are on a summer excursion in Cape Cod when his wife, Emma, comes down with concerning flu-like symptoms. But their leisurely return home to New York City quickly becomes a race to the local hospital as she suddenly begins seizing in the car. At the ICU, she is diagnosed with eastern equine encephalitis, a rare and highly lethal mosquito-borne viral disease seemingly caught during one of their evening cookouts. Complicating the situation further, Brian and Emma's young daughter then begins to exhibit alarming physical and behavioral symptoms, too. Emma's harrowing hospital stay becomes even more fraught when Brian receives a staggering hospital bill full of outrageous charges and murky language. To add insult to injury, his health insurance company refuses to cover any of the cost, citing dubious clauses in Brian's policy. Forced to choose between the ongoing care of family and

bills he can never pay, and furious at a shockingly indifferent healthcare system, Brian vows to seek justice. But to get to the bottom of the predatory practices targeting his loved ones and countless others, he must uncover the dark side of an industry that has strayed drastically from its altruistic roots—and bring down the callous executives preying on the sick and defenseless before the virus can claim even more people . . .

Death Benefit: A Pia Grazdani Novel 1 Penguin

Launching a private investigation when their mentor dies under suspicious circumstances, medical students Pia Grazdani and George Wilson uncover a sinister operation through which private life insurance policies are being manipulated to allow investors to benefit from the deaths of others.

Abduction Penguin

Coma—reimagined for the twenty-first century from the undisputed king of medical thrillers. Lynn Peirce, a fourth-year medical student at South Carolina's Mason-Dixon University, thinks she has her life figured out. But when her otherwise healthy boyfriend, Carl, enters the hospital for routine surgery, her neatly ordered life is thrown into total chaos. Carl fails to return to consciousness after the procedure, and an MRI confirms brain death. Devastated by Carl's condition, Lynn searches for answers. Convinced there's more to the story than what the authorities are willing to reveal, Lynn uses all her resources at Mason-Dixon—including her initially reluctant lab partner, Michael Pender—to hunt down evidence of medical error or malpractice. What she uncovers, however, is far more disturbing. Hospitals associated with Middleton Healthcare, including the Mason-Dixon Medical Center, have unnervingly high rates of unexplained anesthetic complications and patients contracting serious and terminal illness in the wake of routine hospital admissions. When Lynn and Michael begin to receive death threats, they know they're into something bigger than either of them anticipated. They soon enter a desperate race against time for answers before shadowy forces behind Middleton Healthcare and their partner, Sidereal Pharmaceuticals, can put a stop to their efforts once and for all.

Host Penguin

New York City cab driver Yuri Davydov is a disgruntled Russian emigre poised to lash out at the adoptive nation he believes has denied him the American Dream. A former technician in the Soviet biological weapons system, Biopreparat, Yuri possesses the knowledge to wreak havoc in his new home. But before he executes his planned piece de resistance of vengeance, he experiments first on his suspicious live-in girlfriend, then on a few poor-tipping fares.... Dr. Jack Stapleton and Dr. Laurie Montgomery (both last seen in *Chromosome 6*) begin to witness some unusual cases in their capacity as forensic pathologists in the city's medical examiner's office: a young, healthy black woman dies of respiratory failure, a Greek immigrant succumbs to a sudden, overwhelming pneumonia. At the same time, the pair are pressured from above to focus on a high-profile string of suspicious deaths of prisoners in police custody. When an unexpected breakthrough persuades Jack that these seemingly unrelated deaths are really connected murders, his colleagues and superiors are skeptical. Only Laurie is somewhat convinced. But the question soon becomes whether the pair will solve the puzzle before Yuri unleashes into the streets of New York the ultimate terror: a modern bioweapon. With signature skill, Robin Cook has crafted a page-turning thriller rooted in up-to-the-minute biotechnology. *Vector* is all-too-plausible fiction at its terrifying best.

Toxin Penguin

It should have been a routine childbirth. But somehow, the mother died in the delivery, the baby was born brain-damaged,

and Jeffrey Rhodes, the anesthesiologist, is running for his life. Charged with malpractice, he is found guilty of harmful intent and reckless disregard for human life. To clear his name, Rhodes must follow a fugitive trail into the heart of medical nightmare. A trail that, for some, may end in suicide--and for others, in the most shocking conspiracy of our time...

Death Benefit Penguin

After a tumultuous year in which her mentor is murdered and her estranged father comes back into her life, Pia Grazdani, the embattled medical student from 'Death Benefit', decides to take a year off from her medical studies and escape New York City. Intrigued by the promise of the burgeoning field of medical technology and the chance to clear her head, Pia takes a job at Nanobots. When Pia encounters a fellow employee on a corporate jogging path, suffering the effects of a seizure, she soon realizes she may have literally stumbled upon Nanobot's human guinea pigs. Is the tech giant on the cusp of one of the biggest medical discoveries of the twenty-first century - a treatment option for millions - or have they already sold out to the highest bidder?

Charlatans Penguin

Future doctor Adam Schonberg loved his wife. That was why he took a job with the giant drug firm Arolen, for the money he needed for their coming baby. His wife, Jennifer, felt she would get the best of care at the Julian Clinic as her pregnancy progressed. It seemed a happy coincidence that the Julian Clinic was owned by Arolen...until Adam Schonberg slowly began to suspect the terrifying truth about this connection...and about the hideous evil perpetrated on the wife he loved by the doctor she helplessly trusted...

Vector Penguin

New York City medical examiners Laurie Montgomery and Jack Stapleton return in this stunning new novel from the 'master of the medical thriller' (New York Times) a ripped-from-the-headlines tale of an innovative doctor's dangerous downward spiral.

Three Complete Novels : Terminal, Fatal Cure, Acceptable Risk Penguin

An ancestry database holds the key to catching a killer in this explosive medical thriller from New York Times-bestselling author Robin Cook. When the body of social worker Kera Jacobsen shows up on Chief New York City Medical Examiner Laurie Montgomery's autopsy table, it appears she was the victim of a drug overdose. But for Laurie and her new pathology resident, the brilliant Dr. Aria Nichols, little things aren't adding up. Kera's family and friends swear she never touched drugs. Administrators from the hospital where Kera worked insist the case be shrouded in silence. And although Kera was ten weeks pregnant, nobody knows who the father was--or what he might now about Kera's final moments alive. With Laurie temporarily sidelined by a medical emergency, impulsive Aria turns to a controversial new technique: collaborating with experts at a start-up ancestry website to trace the fetus's DNA in the hopes of identifying the mystery father. But when Kera's fellow social worker is murdered, it becomes clear that someone doesn't want Kera's secrets to come to light . . . and if Aria gets any nearer to the truth, she and Laurie might find themselves a killer's next targets.

Robin Cook Palgrave Macmillan Australia

A lavishly funded, security-conscious nanotechnology institute in the foothills of the Rockies, Nano is ahead of the curve in the competitive world of molecular manufacturing, including the construction of microbivores, tiny nanorobots with the ability to gobble up viruses and bacteria. But when Pia Grazdani takes a job there, she's shocked by the secretive corporate culture. She's warned by her boss not to investigate the other work being done at the gigantic facility, nor to ask questions about the source of

the seemingly endless capital that funds the institute's research. And when Pia encounters a fellow employee on a corporate jogging path suffering the effects of a seizure, she soon realizes she may have literally stumbled upon Nano's human guinea pigs. Is the tech giant on the cusp of one of the biggest medical discoveries of the twenty-first century—a treatment option for millions—or have they already sold out to the highest bidder?

Godplayer Penguin

Dr. Cassandra Kingsley is about to discover that neither her marriage nor her job is what she thought. And when she sets out to find the truth, it may just kill her.

Marker Penguin

Death Benefit is an explosive thriller from New York Times bestselling author and master of the medical thriller Robin Cook. Pia Grazdani is an exceptional yet aloof medical student working closely with Columbia University Medical Center's premier scientist. Their cutting edge research could revolutionize health care; creating replacement organs. Through her work with the brilliant molecular geneticist Dr Tobias Rothman, Pia knows she will not only be given the chance to fulfil her professional ambitions – but also maybe finally all push aside memories of her difficult, abusive childhood. However, tragedy strikes in the lab. Pia, with the help of infatuated classmate George Wilson, launches an investigation into the unforeseen calamity in the hospital's supposedly secure biosafety lab. Meanwhile, two ex-Wall Street whiz-kids think they have found another lodestone in the nation's multi-trillion dollar life insurance industry, and race to find ways to control the data – and make a killing. And as Pia and George dig deeper into the events at the lab, matters become increasingly suspicious . . .

Nano: A Pia Grazdani Novel 2 Penguin

The explosive new thriller from New York Times–bestselling author and master of the medical thriller, Robin Cook. Lynn Peirce, a fourth-year medical student at South Carolina's Mason-Dixon University, thinks she has her life figured out. But when her otherwise healthy boyfriend, Carl, enters the hospital for routine surgery, her neatly ordered life is thrown into total chaos. Carl fails to return to consciousness after the procedure, and an MRI confirms brain death. Devastated by Carl's condition, Lynn searches for answers. They soon enter a desperate race against time for answers before shadowy forces behind Middleton Healthcare and their partner, Sidereal Pharmaceuticals, can put a stop to their efforts once and for all.

Death Benefit Penguin

The world's bestselling master of the medical thriller, Robin Cook skillfully combines human drama and high-tech thrills with the latest breakthroughs and controversies of modern medicine.

Now, in his most daring novel yet, a mysterious transmission from the bottom of the Atlantic Ocean leads a crew of oceanographers and divers to a phenomenon beyond scientific understanding - a discovery that will change everything we know about life on Earth...

Viral G.P. Putnam's Sons

Newly divorced surgeon Dr. Kim Regis is determined to remain a good father to his only son, Seldon. On a special night out, Kim takes Seldon to his favorite fast-food restaurant for a feast of burgers and fries. But the good time turns to tragedy: the young boy becomes gravely ill and dies as a result of poisoning by E. coli. bacteria found in the meat. Was Seldon's death a result of shoddy food-handling practices? Or was it a sophisticated case of product tampering - by a rival fast-foot giant or a disgruntled employee? Or perhaps by someone with a score to settle with Kim? Taking a leave from his surgical practice, Kim devotes his energies to solving the mystery full time. But he immediately hits a brick walls: a code of silence more impenetrable than anything he has ever encountered in his medical career. Instead of a cold-shoulder reception, however, Kim is soon met with a boot and a fist as thugs attempt to quash his inquiry. Aided by his ex-wife, Kim pursues a trail of deadly evidence, uncovering complicity and guilt stretching from the slaughterhouse floor to the corporate boardroom. Racing against time before more are poisoned, the two come face-to-face with the shocking and elusive truth. And in their life-and-death search for answers, they rediscover the reasons they first fell in love. With trademark pulse-pounding flair, Robin Cook delivers a cutting-edge thriller, borrowing from today's fears and tomorrow's medical technology.

Critical Penguin

A fast-spreading disease with no cure takes the United States by storm in Robin Cook's "most harrowing medical horror story" (The New York Times). Murder and intrigue reach epidemic proportions when a devastating plague sweeps the country. Dr. Marissa Blumenthal of the Atlanta Centers for Disease Control investigates—and soon uncovers the medical world's deadliest secret...

Cell Pan Macmillan

A doctor's life gets turned upside by a dangerous new technology in this thought-provoking medical thriller from #1 New York Times bestselling author Robin Cook. George Wilson, M.D., a radiology resident in Los Angeles, is about to enter a profession on the brink of an enormous paradigm shift, foreshadowing a vastly different role for doctors everywhere. The smartphone is poised to take on a new role in medicine, no longer as a mere medical app but rather as a fully customizable personal physician capable of diagnosing and treating even better than the real thing. It is called iDoc. George's initial collision with this incredible innovation is devastating. He awakens one morning to find his fiancée dead in bed alongside him, not long after she participated in an iDoc beta test. Then several of his patients die after undergoing imaging procedures. All of them had been part of the same beta test. Is it possible that iDoc is being subverted by hackers—and that the U.S. government is involved in a cover-up? Despite threats to both his career and his freedom, George relentlessly seeks the truth, knowing that if he's right, the consequences could be lethal.
