Legislative Development in Africa W. W. Norton

It has been estimated that more than three million political ads were televised leading up to the elections of 2004. More than \$800,000,000 was spent on TV ads in the race for the White House alone and presidential candidates, along with their party and interest group allies, broadcast over a million ads -- more than twice the number aired before the 2000 elections. What were the consequences of this barrage of advertising? Were viewers turned off by political advertising to the extent that it dissuaded them from voting, as some critics suggest? Did they

feel more connected to political issues and the political system or were they alienated? These are the questions this book answers, based on a unique, robust, and extensive database dedicated to political advertising. Confronting prevailing opinion, the authors of this carefully researched work find that political ads may actually educate, engage, and mobilize American voters. Only in the rarest of circumstances do they have negative impacts. Law, Politics, and Regulatory Policy Cambridge University Press
During the 1980s, superpower rivalry and regional conflicts decimated the Central American economies and eroded political systems within the region. Recent years, however, have witnessed remarkable political change, and since 1990 popularly elected presidents have held office in all seven countries. This book offers a comprehensive analysis of the

Political Marketing in the United States explores how politicians and parties utilize marketing concepts and tools, providing an up-to-date and broad overview of how marketing permeates U.S. politics. The volume focuses on current and recent elections and leaders, and covers a range of topics, including market research, marketing parties and volunteers, strategy and branding, communications, delivery, and marketing in government. The main themes and objectives of the book are to cover: New and emerging trends in political marketing practice Analysis of a broad range of political marketing aspects Empirical examples as well as useful theoretical frameworks Discussion of state/local level as well as presidential politics This is the first comprehensive treatment of the subject available and captures the field as it is rapidly growing. It is a must-read for students and scholars of political parties, political communication, applied politics, and elections.

How Democracies Die ABC-CLIO

A grassroots look at the future of US politics as the next generation of progressive organizers—sparked by the unstoppable rise of Alexandria Ocasio-Cortez—leads us toward a new direction The AOC Generation examines the resurgent young left—including groups like Justice Democrats, the Democratic Socialists of America and Brand New Congress—and documents

how and why they got active and energized in political organizing, the success and limitations of their approaches—and through their stories, it tells the history and the future of a generation. In 2018, the country watched as Alexandria Ocasio-Cortez rose from unknown part-time bartender to the halls of Congress at the age of 29 and became a household name for her progressive, passionate politics. With firsthand accounts detailing the final days of her campaign, which he spent beside her as she fought for every last vote, Freedlander connects her ample political talents and ability to command the media and the public's attention to the newfound political awakening of millennial activists. Inspired in part by the Bernie Sanders campaign, and furthered by a series of critical issues including catastrophic climate change, a rigid political system, and widening income inequality, these young people organized into new groups that became a conduit for their energy, ideas, and passions. And all of their activity isn't just political. They've created their own media eco-system, with podcasts, streaming networks, and even dating sites that cater to their interests. With this new generation gaining traction, with little signs of backing down and securing crucial political seats as Ocasio-Cortez did in 2018, *The AOC Generation* presents a thoughtful analysis of how they came of age in an America they are determined to reshape. The AOC Generation W W Norton & Company Incorporated A contemporary reader with an analytical approach to American politics.

The American Political System Crown

Why our workplaces are authoritarian private governments—and why we can't see it One in four American workers says their workplace is a "dictatorship." Yet that number almost certainly would be higher if we recognized employers for what they are—private governments with sweeping authoritarian power over our lives. Many employers minutely regulate workers' speech, clothing, and manners on the job, and employers often extend their authority to the off-duty lives of workers, who can be fired for their political speech, recreational activities, diet, and almost anything else employers care to govern. In this compelling book, Elizabeth Anderson examines why, despite all this, we continue to talk as if free markets make workers free, and she proposes a better way to think about the workplace, opening up space for discovering how workers can enjoy real freedom.

A contemporary framework without the fluff, updated through the 2018 elections

Principles and Practice of American Politics: Classic and Contemporary Readings, 5th Edition Routledge

Following one of the most contentious and truth-challenged presidential administrations and elections in U.S. history, there has never been a greater need for an American government text like this--evidence-based, critically thoughtful, and contemporary in tone and touch. This text teaches students to think analytically by presenting current political science theories and research in answering the engaging, big questions facing American politics today. It serves as an introduction to the discipline—covering the Constitution, political behavior, formal and informal institutions, and public policy--by reflecting the theoretical developments and types of empirical inquiry conducted by researchers. For introductory courses in American government, this text covers theory and methods as well. New to the Fourth Edition Provides 2020 election data updates throughout and examines policy implications of the ensuing changes in election laws across the country. Recaps controversial Trump administration policies and looks into the Biden administration's early days. Offers strategic updates on the Covid-19 pandemic and the resulting economic crisis both in terms of questions of federalism as well as public policy. Considers the rise of new interest groups and social movements as well as the reckoning with racial injustice. Examines contemporary questions of social justice in light of civil rights and liberties as well as in terms of policy. Covers the death of Supreme Court Justice Ruth Bader Ginsberg, the battle to confirm her replacement, the addition of Justice Coney Barrett, and the policy implications of the shift in the ideological balance of the Court. For the fourth edition, a new co-author comes to the book with award-winning experience in diversity and teacher education as well as research interests in the presidency, women

and politics, and foreign policy.

Analyzing American Democracy W. W. Norton

The new edition of this leading overview of comparative politics once again blends theory and evidence across democratic systems to provide unparalleled coverage. The student-friendly structure and clear, concise writing ensure that complex issues are clearly explained and students engage with the key theories. The third edition is updated throughout, with a new chapter, 'Public Spending and Public Policies', increased coverage of defective democracies, and revised coverage of e-democracy and the power of the media. The pedagogy is simplified with a focus on 'Briefings' and 'Controversies' that feature examples from across the globe, alongside clear key terms, 'What We Have Learned' and 'Lessons of Comparison' sections, and a wealth of online materials to complete a rich teaching and learning package.

Classic and Contemporary Readings in American Politics SAGE

How do Americans think about foundational political questions?

Covering the full span of U.S. history, *American Political Thought: An Invitation* offers a lively yet sophisticated overview of the

nature and dynamics of American Political Thought for students and general readers alike. Award-winning scholar Ken Kersch's engaging introduction situates the key debates in their historical, political and cultural context. He introduces the touchstone frameworks and ideas that are both deeply ingrained and yet have been actively re-made in a country that has spent 250 years of shifting circumstances battling over their real-world implications. Covering thinkers ranging from Jefferson to Rawls, Du Bois to Audre Lorde, he examines the ambiguities of the purportedly 'consensus' American principles of liberty, equality,

and democracy as well as addressing questions ranging from 'What are the foundations of a legitimate political order?' and 'What is the appropriate role of government?' to 'What are the appropriate terms of full civic membership?' - and beyond. Politically balanced and inclusive, *American Political Thought* introduces the contested terrain concerning these core political
