This edition includes transactions under the Convention of International Sales of Goods. This book is built around carefully selected and edited cases, author notes, and selected problems. Though including

landmark cases, the authors emphasize cases decided since 1990. These newer cases offer both a more sophisticated discussion of problems than usually found in earlier cases, as well as more current analyses of Code ambiguities and conflicting approaches to certain Code sections. Each chapter begins with advice on reading the relevant sections of the UCC and Convention of

International Sales of Goods, making the statutes more understandable for students. Major topics covered include Underlying Code Principles, Sales, Commercial Paper and Electronic Transfers, Banking and Bank-Customer Relations, Documents of Title, and Secured Transactions. **How to Restore Classic John Deere Tractors** Motorbooks
