GALVAN REYES

Atlas Al-sīrah Al-Nabawīyah Stanford University Press

This integrated analysis of conflict and conciliation in protracted insurgency and civil war in societies divided on ethnicity, language and nationality, combines exposition of conflict management theory with detailed examples and case studies on the Northern Ireland peace process, the Israeli-Palestinian conflict, the Bosnian war, and others.

Ottoman Population, 1830-1914 Oxford University Press

Presents a comprehensive introduction to analysing quantitative linguistic data. Starting with an definition of quantitative data, and how it differs from qualitative data, Seb Rasinger examines what the student linguist is trying to find out through analysing data, and how quantitative techniques can help arrive at meaningful and accurate conclusions. This expanded, 2nd edition now also includes a discussion of Analysis of Variance (ANOVA) and MANOVA, and provides a brief introduction to statistical meta-analysis. A companion website allows readers to download crib sheets and Excel templates for the main statistical tools. The book introduces: -using statistics -variables -reliability of data -describing data -analysing data -testing hypotheses -dealing with problematic data. Each chapter includes graphs and figures explaining theory through worked examples, chapter summaries, and exercises to aid student understanding. An appendix containing a summary of statistical formulae, excel commands and statistical tables is included and is an invaluable resource. Presenting a down-to-earth and readable introduction to quantitative research, this book is a useful how-to guide for students encountering quantitative data for the first time, or for postgraduates embarking on linguistic research projects.

The Myth of Lasgush New York : Van Nostrand Reinhold Company

In *The Spirit Level*, as ever with Seamus Heaney, personal memory and humble domestic objects -- a whitewash brush, a sofa, a swing -- are endowed with talismanic significance, and throughout the collection he addresses his growing concerns, which inevitably include the political situation in his native Northern Ireland, in a poetry that never ceases to be fluid, alert, and completely truthful.

Politics and History Routledge

This book argues that in "Christian Europe," the question of the enemy has for millennia been structured by the historical relation of Europe to both Arab and Jew. It provides a philosophical understanding of the background of the current conflict in the Middle East.

Sociology, the Human Science Transaction Publishers

'That which puzzled and fascinated me whenever I met Lasgush was this sensation of the impossible. It was impossible to get on with him as you did with others. The moment you were at him, or rather, the moment you knocked at his door, suddenly all became another thing. There was another logic, another code, other words, wrapped up in another meaning. .when you went to Lasgush's, it was more than going abroad. You believed you dropped somewhere beyond our time,

beyond the everyday way of looking at things. One more step and it looked as if you would cross the borders of life and would find yourself in Dante's nothingness. .He was unpredictable, corrosive like acid, creepy, startling. His laugh was like as if beyond our life, mirthless, and his sadness had no grief. As for his anger, it was such as well, luxurious, cold, whereas his contempt was radiating from afar, as if adorned with silver.' (Kadare, In *My Studio*. pp 207, 208, 209. My translation) -All this Saussurean lava of meaning has its own matchless 'crater' from where it erupts and reaches us time and again, endlessly. Lasgush's Word has its own individual suspension, chiselled by the hand of a true master. It is breathlessly succinct and, in all probability, on a par with the best ever created. Lasgush says that his Word is: 'Mystery that burns in a thread of lightning.' (My Fiery Tongue)

The Spirit Level Peter Lang Incorporated, International Academic Publishers

For more than a generation now, there has been a competition between two alternative theories of the nature of power in Western democracies: the pluralist model and the critical or elite model (including Marxism). Etzioni-Halevy develops a third or democratic- elite model, based on historical and comparative perspectives. Annotation(c) 2003 Book News, Inc., Portland, OR (booknews.com)

Communicator-in-Chief Farrar, Straus and Giroux

A Stanford University Press classic.

Late Ottoman Society Psychology Press

Upon her arrival in Tirana, Albania, in April 1994, the author found a city unlike any other she had experienced. Rotting trash was piled in the center of the streets, animals shared the rutted roads with cars, and housing, when it could be found, was crowded and crumbling. But she found a people full of optimism, particularly the women. Despite the subservient role forced by tradition on nearly all Albanian women, they have increasingly become the foundation upon which the country exists. Not only are they responsible for caring for extended households, these women are now also becoming vital parts of the country's economy. Most importantly, however, they maintain a faith in Albania that belies the country's turbulent past and widely predicted future. Through interviews with over 200 Albanian women, this work is an insightful, often poignant, look at a country that remains a mystery to most in the West.

Fragile Democracy Upfront Publishing

Highlighting themes, issues, and trends that define initial teacher education in the Mediterranean, 14 presentations from a June 2000 seminar of the same title are presented by Sultana (education, U. of Malta). Each chapter explores teacher education in a separate country of the region, with some the contributions looking at the broad aspects of teacher education while others explore training for specific teacher roles such as physics instruction or the like. Studies focus Albania, Cyprus, Greece, Israel, Jordan, Lebanon, Malta, Palestine, Slovenia, Spain, Tunisia, and Turkey. Annotation copyrighted by Book News, Inc., Portland, OR.

Sacrifice and Modern Thought McFarland

Communicator-in-Chief: How Barack Obama Used New Media Technology to Win the White House examines the fascinating and precedent-setting role new media technologies and the Internet

played in the 2008 presidential campaign that allowed for the historic election of the nation's first African American president. It was the first presidential campaign in which the Internet, the electorate, and political campaign strategies for the White House successfully converged to propel a candidate to the highest elected office in the nation. The contributors to this volume masterfully demonstrate how the Internet is to President Barack Obama what television was to President John Kennedy, thus making Obama a truly twenty-first century communicator and politician. Furthermore, Communicator-in-Chief argues that Obama's 2008 campaign strategies established a model that all future campaigns must follow to achieve any measure of success. The Barack Obama campaign team astutely discovered how to communicate and motivate not only the general electorate but also the technology-addicted Millennial Generation - a generational voting block that will be a juggernaut in future elections.

Standard Albanian McGraw-Hill Companies

Anthropologists and historians have shown us that 'male' and 'female' are variously defined historically and cross-culturally. The contributions to this volume focus on the voluntary and involuntary, temporary or permanent transformation of gender identity. Overall, this volume provides powerful and compelling illustrations of how, across a wide range of cultures, processes of gender transformation are shaped within, and ultimately constrained by, social and political context. From medical responses to biological ambiguity, legal responses to cases brought by transsexuals, the historical role of the eunuch in Byzantium, the social transformation of gender in Northern Albania and in the Southern Philippines, to North American 'drag' shows, English pantomime and Japanese kabuki theatre, this volume offers revealing insights into the ambiguities and limitations of gender transformation.

Cold Counsel Cambridge Scholars Publishing

Reviews the biography of the Prophet (pbuh) and tracks the places honored by his visits, the battles he fought, and the expeditions and envoys he directed. This atlas gives the Seerah in a brief form, and includes maps, diagrams and photographs to show the places and directions of various events that took place in the life of Prophet degree (S).

Conflict and Peace Building in Divided Societies Darussalam

Although scholars have long been aware of the crucial roles that gender plays in music, and vice versa, the contributors to this volume are among the first to systematically examine the interactions between the two. This book is also the first to explore the diverse, yet often strikingly similar, musics of the areas bordering the Mediterranean from comparative anthropological perspectives. From Spanish flamenco to Algerian raï, Greek rebetika to Turkish pop music, Sephardi and Berber songs to Egyptian belly dancers, the contributors cover an exceedingly wide range of geographic and musical territories. Individual essays examine musical behavior as representation, assertion, and sometimes transgression of gender identities; compare men's and women's roles in specific musical practices and their historical evolution; and explore how music and gender relate to such issues as ethnicity, nationality, and religion. Anyone studying the musics or cultures of the Mediterranean, or more generally the relations between gender and the arts, will welcome this book. Contributors: Caroline Bithell, Joaquina Labajo, Jane C. Sugarman, Carol Silverman, Goffredo Plastino, Gail Holst-Warhaft, Edwin Seroussi, Marie Virolle, Terry Brint Joseph, Deborah Kapchan, Karin van Nieuwkerk, Svanibor

Pettan, Martin Stokes, Philip V. Bohlman

Trials of those responsible for large-scale state brutality have captured public imagination in several countries. Prosecutors and judges in such cases, says Osiel, rightly aim to shape collective memory. They can do so in ways successful as public spectacle and consistent with liberal legality. In defending this interpretation, he examines the Nuremberg and Tokyo trials, the Eichmann prosecution, and more recent trials in Argentina and France. Such trials can never summon up a "collective conscience" of moral principles shared by all, he argues. But they can nonetheless contribute to a little-noticed kind of social solidarity. To this end, writes Osiel, we should pay closer attention to the way an experience of administrative massacre is framed within the conventions of competing theatrical genres. Defense counsel will tell the story as a tragedy, while prosecutors will present it as a morality play. The judicial task at such moments is to employ the law to recast the courtroom drama in terms of a "theater of ideas," which engages large questions of collective memory and even national identity. Osiel asserts that principles of liberal morality can be most effectively inculcated in a society traumatized by fratricide when proceedings are conducted in this fashion. The approach Osiel advocates requires courts to confront questions of historical interpretation and moral pedagogy generally regarded as beyond their professional competence. It also raises objections that defendants' rights will be sacrificed, historical understanding distorted, and that the law cannot willfully influence collective memory, at least not when lawyers acknowledge this aim. Osiel responds to all these objections, and others. Lawyers, judges, sociologists, historians, and political theorists will find this a compelling contribution to debates on the meaning and consequences of genocide.

Klan Routledge

How have regimes used the agencies of criminal justice for their own purposes? What characterizes the linkage of politics and justice? Drawing on a wealth of foreign and domestic source material, Otto Kirchheimer examines systematically the structure of state protection, the nature of a strictly "political" trial, including the trial by fiat of the successor regime, and the forms of legal repression that states have used against political organizations. He analyzes the Nuremberg trials, the Communist purge trials, and a number of Smith Act trials. In two highly original chapters he also explores the political and judicial nature of asylum and clemency. This study of the uneasy balance between abstract justice and political expediency is a contribution to constitutional and criminal law, political science, and social psychology. Originally published in 1961. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Macedonia Princeton University Press

This volume combines the efforts of leading practitioners and academics in criminology to address the challenges of such persistent international problems as organized crime and illegal immigration. This book offers the most current and detailed account of new international cooperative initiatives.

Changing Sex and Bending Gender Arcade Publishing

The concept of disparity has long been a topic of obsession and argument for philosophers but Slavoj Žižek would argue that what disparity and negativity could mean, might mean and should mean for us and our lives has never been more hotly debated. *Disparities* explores contemporary 'negative' philosophies from Catherine Malabou's plasticity, Julia Kristeva's abjection and Robert Pippin's self-consciousness to the God of negative theology, new realisms and post-humanism and draws a radical line under them. Instead of establishing a dialogue with these other ideas of disparity, Slavoj Žižek wants to establish a definite departure, a totally different idea of disparity based on an imaginative dialectical materialism. This notion of rupturing what has gone before is based on a provocative reading of how philosophers can, if they're honest, engage with each other. Slavoj Žižek borrows Alain Badiou's notion that a true idea is the one that divides. Radically departing from previous formulations of negativity and disparity, Žižek employs a new kind of negativity: namely positing that when a philosopher deals with another philosopher, his or her stance is never one of dialogue, but one of division, of drawing a line that separates truth from falsity.

Spektër Bloomsbury Publishing

From the fall of Constantinople in 1453 until the eighteenth century, many Western European writers viewed the Ottoman Empire with almost obsessive interest. Typically they reacted to it with fear and distrust; and such feelings were reinforced by the deep hostility of Western Christendom towards Islam. Yet there was also much curiosity about the social and political system on which the huge power of the sultans was based. In the sixteenth century, especially, when Ottoman territorial expansion was rapid and Ottoman institutions seemed particularly robust, there was even open admiration. In this path-breaking book Noel Malcolm ranges through these vital centuries of East-West interaction, studying all the ways in which thinkers in the West interpreted the Ottoman

Empire as a political phenomenon - and Islam as a political religion. *Useful Enemies* shows how the concept of 'oriental despotism' began as an attempt to turn the tables on a very positive analysis of Ottoman state power, and how, as it developed, it interacted with Western debates about monarchy and government. Noel Malcolm also shows how a negative portrayal of Islam as a religion devised for political purposes was assimilated by radical writers, who extended the criticism to all religions, including Christianity itself. Examining the works of many famous thinkers (including Machiavelli, Bodin, and Montesquieu) and many less well-known ones, *Useful Enemies* illuminates the long-term development of Western ideas about the Ottomans, and about Islam. Noel Malcolm shows how these ideas became intertwined with internal Western debates about power, religion, society, and war. Discussions of Islam and the Ottoman Empire were thus bound up with mainstream thinking in the West on a wide range of important topics. These Eastern enemies were not just there to be denounced. They were there to be made use of, in arguments which contributed significantly to the development of Western political thought.

Acceptability in Language Walter de Gruyter GmbH & Co KG

An old woman is awoken in the dead of night by knocks at her front door. The woman opens it to find her daughter, Doruntine, standing there alone in the darkness. She has been brought home from a distant land by a mysterious rider she claims is her brother Konstandin. But unbeknownst to her, Konstandin has been dead for years. What follows is chain of events which plunges a medieval village into fear and mistrust. Who is the ghost rider?

International Police Cooperation Lexington Books

Love is a very long word explores the parallel, ambiguous realms of freedom and love -- much coveted yet unnatural states of the human mind. Combining the tradition of Balkan lyricism with narrative modernist techniques, these bold poems witness the cross-cultural world of their subjects - from wounds to hope, struggle to wry triumph. The striking cover image for *Love is a very long word* is by photographer Marsida Lekaj.
