This book is the first academic contribution that deals with international taxation of income sources from

sports events. Using an interdisciplinary approach, with in-depth analysis of both sports law and international tax law, it is notably the first academic work to conduct a thorough analysis in the fields of international taxation of eSports, sports betting as well as illegal/unlawful income sources that may be obtained in relation to a sporting event, such as kickback payments. After describing the general methodologies of income tax and VAT from an international standpoint, defining key terms such as 'eSports' and 'bidding procedure', the book examines in detail the taxation of the services that are rendered and the goods that are sold, thereby the income obtained, in

relation to an international sports event from both income tax and VAT perspectives. Also analysed are government funding in the sports sector, along with its taxation modalities, as well as specific tax exemption regulations enacted for the purposes of mega sporting events. Highlighting the absence of an acceptable level of certainty in the field of taxation of international sports events, the work makes pertinent suggestions as to the future of international sporting event taxation law. With international appeal, this comprehensive book constitutes essential reading for tax and sports law scholars.

Cristiano Ronaldo
Bloomsbury Publishing Over the past decade, European football has seen tremendous changes impacting upon its international framework as well as

local traditions and national institutions. Processes of Europeanization in the fields of economy and politics provided the background for transformations of the production and consumption of football on a transnational scale. In the course of such rearrangements, football tournaments like the UEFA Championship or the European Champions League turned into mega-events and media spectacles attracting ever-growing audiences. The experience of participating in these events offers some of the very few occasions for the display and embodiment of identities within a European context. This volume takes the 2008 EUROS hosted by

Austria and Switzerland as a case study to analyze the political and cultural significance of the tournament from a multidisciplinary angle. What are the special features and spatial arrangements of a UEFAesque Europe, in comparison to alternative possibilities of a Europe? Situating the sport tournament between interpretations of collective European ritual and European spectacle, the key research question will ask what kind of Europe was represented in the cultural, political and economic manifestations of the 2008 EUROS. This book was published as a special issue of *Soccer and Society*.

'They've kicked it away again, for God's sake!', 'You halfwit!', there's nothing traditional about Brian Moore's style of commentary but then there's not much that's traditional about the man. Brian Moore made his name, of course, as a take-no-prisoners hooker at the heart of the England rugby team's pack, one of the game's original hard men at a time when rugby was still an amateur sport. And since his retirement he has earned a reputation as a similarly unforgiving pundit, never afraid to

tell it like it is and give an earful to anyone unlucky enough to meet with his disapproval. In this controversial, funny and forthright collection of thoughts and writings, Brian Moore sets the world to rights in his own inimitable fashion. Ranging from the problems with the England rugby team today to the 'soap opera' that is the FA, the feeble state of British tennis and the threats posed by corruption and drug-taking, Brian shares his unique insights and not-so-unique frustrations about the world of sport and beyond. The Thoughts of Chairman Moore is an engaging and outspoken collection of articles from one of our most admired

commentators. National Geographic Kids Everything Soccer Icon Books Ltd
