Financial Management Council for Economic Educat This is the seventh edition of a long-selling book (first edition 1991) that was translated into Italian, French, Chinese, Portuguese, Spanish, English. In the last ten years, stress echocardiography has exploded in its breadth and variety of applications. From a one-fits-all approach (wall motion by 2D-echo in the patient with known or suspected coronary artery disease), the field has progressed to an omnivorous, next-generation laboratory employing a variety of technologies (from M-Mode to 2D, from pulsed, continuous, color and tissue Doppler to lung ultrasound) on patients covering the entire spectrum of severity (from elite athletes to patients with end-stage heart failure) and ages (from children with congenital heart disease to the elderly with aortic stenosis). This new edition is enriched with over 300 figures, 150 tables and video-clips. In a societal and economic climate of

increasing pressure for appropriate, justified and optimized imaging, stress echocardiography offers the great advantages of being radiation-free, relatively low cost, with minimal environmental impact, and with a staggering versatility: we can get more (information) with less (cost and risk). The volume will be a tremendous aid to current best practices for all health operators who intend to use stress echocardiography and ultrasound for diagnosis and guidance of optimal management in their patients.

 The Association of Chartered Certified Accountants (ACCA) is the global body for professional accountants. With over 100 years of providing world-class accounting and finance qualifications, the ACCA has significantly raised its international profile in recent years and now supports a BSc (Hons) in Applied Accounting and an MBA. BPP Learning Media is an ACCA Official Publisher. Paper P3 is called Business Analysis, but it covers the whole field of business and corporate strategy, including the choice and implementation of courses of action. For accountants, the overall purpose of studying this subject is to be able to make proper contributions to the strategic management of whatever organisations they find themselves working in. To do this requires the acquisition and considered use of theory lying well outside the mainstream of financial and accountancy topics. In addition to the core material relating to business strategy, there are strong links to the fields of economics,

marketing and human behaviour. The P3 Study Text is based on the primary authorities specified in the official syllabus reading list; it is supplemented by a wide range of other material that extends, amplifies and, in some cases, clarifies the basic references. The study material is thus selected and presented in an easily used form that has been approved by the Examiner. The syllabus emphasises the integrated nature of the subject and the Study Text points up the links between the various topics. The ability to discern and use these links is likely to be of great importance in the examination.
