Overview - Nordson Product

Nordson is a company engaged in engineering, manufacturing, and marketing of differentiated products used for dispensing adhesives, coatings, polymers, sealants, biomaterials, medical components, and other fluids. It operates through three segments: Adhesive Dispensing Systems, Advanced Technology Systems, and Industrial Coating Systems. Nordson Company Profile - Office Locations, Competitors ... Nordson SEALANT EQUIPMENT has been supporting the aerospace, aircraft, helicopter and tier-1 assembly industry build quality products for over 25 years. We

continue this support by engineering and testing new products for advanced applications such as automated dispensing applications for two-component Aerospace Dispense Systems - Nordson Aerospace Solutions provides Staffing, Engineering, and Technical Publications services for the aerospace and technology industries.
