Fish kills are graphic evidence of serious problems in a lake or stream. If the kill is related to the presence of toxic chemicals, there may be human health concerns, in addition to the obvious damage to the ecosystem and the fisheries resources. Depending on the cause of a fish kill, legal and economic ramifications may be

involved. If the kill is caused by human or corporate actions, litigation is likely to follow, with possible court-awarded damages and assessed costs for cleanup and restoration. This manual is intended to help fisheries biologists and others to prepare for a fish kill investigation.

Flatiron Books
Construction Equipment Management for Engineers, Estimators, and Construction Managers, Second Edition has been extensively rewritten to not only bring it up to date with the state of current

practice, but also to serve as a textbook for university courses in construction engineering and management. The authors advanced the previous edition's practical, hands-on approach and added material on the future of construction equipment fleet management, which they believe will require a new technology-based skillset to maximize the cost-effectiveness of construction equipment operations. As such, the book covers the latest construction equipment technologies. Features: Examines emergent technologies in the field,

including automated machine guidance systems, intelligent compaction operations, and equipment-related civil integrated management tools. Provides information on how to reduce an equipment fleet's environmental impact, decreasing greenhouse gas emissions through enhanced equipment management and optimization practices. Discusses estimating equipment ownership, operating costs, economic life and optimal replacement timing. Demonstrates how to maximize profit by determining the optimum equipment mix and estimating productivity. Illustrates the use of production-based linear scheduling and stochastic simulations to maximize project cost and schedule certainty. This new edition will serve as an essential textbook for students as well as a valuable reference for a wide range of professionals within the construction, architecture, and engineering industries.

A fully revised and updated second edition, including new research and skills in the areas of trauma and compassion Disruptive behavior in the classroom, poor academic performance, and out-of-control emotions: if you work with adolescents, you are well-aware of the challenges this age group presents, as well as how much time can be lost on your lessons while dealing with this behavior. What if there was a way to calm these students down and arm them with the mindfulness skills needed to really excel in school and life? Written by mindfulness expert and licensed clinical psychologist Patricia C. Broderick, *Learning to Breathe* is a secular program that tailors the teaching of mindfulness to the developmental needs of adolescents to help them understand their thoughts and feelings and manage distressing emotions. Students will be empowered by learning important mindfulness meditation skills that help

them improve emotion regulation, reduce stress, improve overall performance, and, perhaps most importantly, develop their attention. Since its publication nearly a decade ago, the L2B program has transformed classrooms across the US, and has received praise from educators, parents, and mental health professionals alike. This fully revised and updated second edition offers the same powerful mindfulness interventions, and includes compelling new research and skills in the areas of trauma and compassion. The book integrates certain themes of mindfulness-based stress reduction (MBSR), developed by Jon Kabat-Zinn, into a program that is shorter, more accessible to students, and compatible with school curricula. This easy-to-use manual is designed to be used by teachers, but can also be used by any mental health provider teaching adolescents emotion regulation, stress reduction and mindfulness skills. The book is structured around six themes built upon the acronym BREATHE, and each theme has a core message: Body, Reflection, Emotions, Attention, Tenderness, and Healthy Mind Habits, and Empowerment. Along with The

Learning to Breathe Student Workbook, this is the perfect tool for empowering students as they grapple with the psychological tasks of adolescence. Make this new edition a part of your professional library today!

Jill Winger, creator of the award-winning blog The Prairie Homestead, introduces

her debut *The Prairie Homestead Cookbook*, including 100+ delicious, wholesome recipes made with fresh ingredients to bring the flavors and spirit of homestead cooking to any kitchen table. With a foreword by bestselling author Joel Salatin *The Pioneer Woman Cooks* meets *100 Days of Real Food*, on the Wyoming prairie. While Jill produces much of her own food on her Wyoming ranch, you don't have to grow all—or even any—of your own food to cook and eat like a homesteader. Jill teaches people how to make delicious traditional American comfort food recipes with whole ingredients and shows that you don't have to use obscure items to enjoy this lifestyle. And as a busy mother of three, Jill knows how to make recipes easy and delicious for all ages. "Jill takes you on an insightful and delicious journey of becoming a homesteader. This book is packed with so much easy to follow, practical, hands-on information about steps you can take towards integrating homesteading into your life. It is packed full of exciting and mouth-watering recipes and heartwarming stories of her unique adventure into homesteading. These recipes are ones I

know I will be using regularly in my kitchen." - Eve Kilcher These 109 recipes include her family's favorites, with maple-glazed pork chops, butternut Alfredo pasta, and browned butter skillet corn. Jill also shares 17 bonus recipes for homemade sauces, salt rubs, sour cream, and the like—staples that many people are surprised to learn you can make yourself. Beyond these recipes, *The Prairie Homestead Cookbook* shares the tools and tips Jill has learned from life on the homestead, like how to churn your own butter, feed a family on a budget, and experience all the fulfilling satisfaction of a DIY lifestyle.

When the groom's ex is found dead before the "I Do"s, Sophie Winston vows to catch the killer before her sister's wedding ends in disaster in the second Domestic Diva mystery. Sophie Winston's sister, Hannah, is getting married—again! And if you ask Sophie, her future brother-in-law is no prince. But is he a killer? That's the question on everyone's mind when his ex-wife is found hanging from a pergola. This is one event Sophie and her sister hadn't planned on. As hidden family secrets begin to come to light, Sophie finds the list of suspects is almost as long as the list of wedding guests. Will the real killer be

seated on the groom's side or the bride's? Or will he be standing at the altar? Either way, Sophie must solve the murder in time to stop her sister from making the biggest—and possibly the last—mistake of her life. Includes delicious recipes and entertaining tips!
