*Gamayun Tales I* Springer Science & Business Media

This book critically interrogates emerging interconnections between religion and biomedicine in Africa in the era of antiretroviral treatment for AIDS. Highlighting the complex relationships between religious ideologies, practices and organizations on the one hand, and biomedical treatment programmes and the scientific languages and public health institutions that sustain them on the other, this anthology charts largely uncovered terrain in the social science study of the Aids epidemic. Spanning different regions of Africa, the authors offer unique access to issues at the interface of religion and medical humanitarianism and the manifold therapeutic traditions, religious practices and moralities as they co-evolve in situations of AIDS treatment. This book also sheds new light on how religious spaces are formed in response to the dilemmas people face with the introduction of life-prolonging treatment programmes.

A thousand years ago, a young Japanese girl embarked on a journey from deep in the countryside of eastern Japan to the capital. Forty years later, with the long account of that journey as a foundation, the mature woman skillfully created an autobiography that incorporates many moments of heightened awareness from her long life. Married at age thirty-three, she identified herself as a reader and writer more than as a wife and mother; enthralled by fiction, she bore witness to the dangers of romantic fantasy as well as the enduring consolation of self-expression. This reader's edition streamlines Sonja Arntzen and Moriyuki Itô's acclaimed translation of the Sarashina Diary for general readers and classroom use. This translation captures the lyrical richness of the original text while revealing its subtle structure and ironic meaning, highlighting the author's deep concern for Buddhist belief and practice and the juxtaposition of poetic passages and narrative prose. The translators' commentary offers insight into the author's family and world, as well as the style, structure, and textual history of her work.

John Yolton seeks to allow readers of Locke to have accessible in one volume sections from a wide range of Locke's books, structured so that some of the interconnections of his thought can be seen and traced. Although Locke did not write from a system of philosophy, he did have in mind an

overall division of human knowledge. The readings begin with Locke's essay on Hermeneutics and the portions of his Essay Concerning Human Understanding on how to read a text. The rest of the selections are organized around Locke's division of human knowledge into natural science, ethics, and the theory of signs. Yolton's introduction and commentary explicate Locke's doctrines and provide the reader with the general background knowledge of other seventeenth-century writers and their works necessary to an understanding of Locke and his time.

Since 1989, there have been over 200 post-conviction DNA exonerations in the United States. On the surface, the release of innocent people from prison could be seen as a victory for the criminal justice system: the wrong person went to jail, but the mistake was fixed and the accused set free. A closer look at miscarriages of justice, however, reveals that such errors are not aberrations but deeply revealing, common features of our legal system. The ten original essays in *When Law Fails* view wrongful convictions not as random mistakes but as organic outcomes of a misshaped larger system that is rife with faulty eyewitness identifications, false confessions, biased juries, and racial discrimination. Distinguished legal thinkers Charles J. Ogletree, Jr., and Austin Sarat have assembled a stellar group of contributors who try to make sense of justice gone wrong and to answer urgent questions. Are miscarriages of justice systemic or symptomatic, or are they mostly idiosyncratic? What are the broader implications of justice gone awry for the ways we think about law? Are there ways of reconceptualizing legal missteps that are particularly useful or illuminating? These instructive essays both address the questions and point the way toward further discussion. *When Law Fails* reveals the dramatic consequences as well as the daily realities of breakdowns in the law's ability to deliver justice swiftly and fairly, and calls on us to look beyond headline-grabbing exonerations to see how failure is embedded in the legal system itself. Once we are able to recognize miscarriages of justice we will be able to begin to fix our broken legal system. Contributors: Douglas A. Berman, Markus D. Dubber, Mary L. Dudziak, Patricia Ewick, Daniel Givelber, Linda Ross Meyer, Charles J. Ogletree, Jr., Austin Sarat, Jonathan Simon, and Robert Weisberg.

This is a book of five plays by Josef Topol translated into English, only two of which have been produced in the USA. Josef Topol and Vaclav Havel are considered the best Czech living playwrights. The five plays chosen for this volume are representative of Topol's chamber plays, dealing with such universal themes as youth, love and parting, life and death in language that is very contemporary and often incredibly poetic. The title of the book *The Voices of Birds* was chosen because it is the last play Josef Topol has written and indicates that the playwrights' newer works are included.

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of*

a Slave Girl, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

From the New York Times Bestselling Author and Co-Star of Fox's *American Grit* comes a rare and powerful book on the art of being a sniper. *Way of the Reaper* is a step-by-step accounting of how a sniper works, through the lens of Irving's most significant kills - none of which have been told before. Each mission is an in-depth look at a new element of eliminating the enemy, from intel to luck, recon to weaponry. Told in a thrilling narrative, this is also a heart-pounding true story of some of The Reaper's boldest missions including the longest shot of his military career on a human target of over half a mile. In Iraq and Afghanistan, Nick Irving earned his nickname in blood, destroying the enemy with his sniper rifle and in deadly firefights behind a .50 caliber machine gun. He engaged a Taliban suicide bomber during a vicious firefight, used nearly silent sub-sonic ammo, and was the target of snipers himself. *Way of the Reaper* attempts to place the reader in the heat of battle, experiencing the same dangers, horrors and acts of courage Irving faced as an elite member of the 3rd Ranger Battalion, 75th Ranger Regiment, while also examining the personal ramifications of taking another life. Readers will experience the rush of the hunt and the dangers that all snipers must face, while learning what it takes to become an elite manhunter. Like the Reaper himself, this explosive book blazes new territory and takes no prisoners.
