Rosen's Emergency Medicine - Concepts and Clinical Practice, 2-Volume Set CRC Press
 Is Narendra Modi's government innovative and free of vote-bank politics? How did Narendra Modi bring 24-hour, three-phase domestic power supply to 18,000 villages in Gujarat? How did Modi turn the forlorn Kutch into a top tourist destination? One of the most hotly debated topics in this general elections has been the development and governance of Narendra Modi's government in Gujarat. In Centrestage, Uday Mahurkar tries to present a balanced assessment of Narendra Modi's government by uncovering and analysing the Modi mantra of governance. With chapters on energy, technology, agriculture, finance, and innovation to name a few, Mahurkar aims at understanding and revealing the ground reality through facts and research beyond the media hype. Has Gujarat really made progress under Narendra Modi? Is Narendra Modi really a visionary and a good administrator? Read Centrestage to find out and get an insider's view of Narendra Modi's governance from a man who has followed him closely for the past three decades.

In *Marching with a Billion*, Uday Mahurkar analyses the Modi government's first term in power against the backdrop of years of policy paralysis and corruption before he took office, leaving him with a tough task and high expectations. Focusing on key areas of governance like infrastructure, foreign affairs, power, the social sector, finance, digital technology and agriculture, the author showcases the work of the present government and the monumental changes the prime minister has brought about. This includes digital innovation and the elimination of the middleman, which has resulted in transparency and last-mile delivery. He also points out some of the shortfalls of Modi's government, subjecting it to critical evaluation. Will Modi become a great institution builder, a prerequisite to becoming a nation builder? What can we expect from the second term? This book has the answers.

With deep thought and inspiring examples, this updated book engages readers by increasing their understanding and awareness of what sustainability means conceptually, practically, personally, and professionally. It provides readers with the tools and techniques to improve the social, environmental, and economic performance of their organizations in both the short and long term. Since sustainability is not achieved in a siloed environment, everyone has a critical role to play on this journey. The Sustainable Enterprise Fieldbook, with full companion materials at <https://TheSustainableEnterpriseFieldbook.com>, engages today's managers and leaders of organizations, in both the private sector and civil society, who are being challenged as never before to find ways to play a proactive role in understanding and addressing the risks and opportunities of sustainability. It teaches them how to apply systems thinking to turn our most intractable problems into exciting business opportunities, and offers ground breaking frameworks in new chapters on globalization, strategy, metrics, and sustainability models for collaboration, technology, and community. That is why this book is structured to be a fieldbook to provide practitioners the Activities, Cases, and Tools that they can use to help move their enterprise through progressively higher performing stages of sustainability. Readers will also gain access to the innovative Living Fieldbook : an online community forum filled with supporting materials.

This book is about media content analysis in the English language print media in South Asia, with reference to certain contemporary issues. It is written from the perspective of the need to analyze media discourses and the ways in which their circulation creates a 'common sense' view of the world. The focus is on English language papers and news magazines; additionally, some Hindi, Urdu, and Sindhi newspapers are examined. The highlight is on the ways in which English language publications contribute to and function within middle class matrices of modernity, consumption, conflict, and conservatism in India.
