Tamamo-chan's a Fox! Vol. 1 DC Comics

Panda Love is a collection of incredible images of these gentle giants. Ami Vitale's stunning photographs, taken on location in China, document the efforts to breed pandas and release them back into the wild. Ami was given unprecedented access to the pandas and her photos give an amazing insight into the bears' lives in both the sanctuaries and their natural habitat. Fluffy

panda cubs tumble out of baskets and play hide-and-seeK with their carers, while the adult pandas curiously explore the forest and climb trees. The giant panda is everyone's favorite bamboo-munching bear. China may be on its way to successfully saving its most famous ambassador, and Panda Love lovingly documents the process of putting the wild back into an icon.

Otaku: Nerd; geek or fanboy. Originates from a polite second-person pronoun meaning "your home" in Japanese. Since the 1980s it's been used to refer to people who are really into Japanese pop-culture, such as anime, manga, and videogames. A whole generation, previously marginalized with labels such as "geek" and "nerd," are now calling themselves "otaku" with pride. The Otaku Encyclopedia offers fascinating insight into the subculture of Cool Japan. With over 600 entries, including common expressions, people, places, and moments of otaku history, this is the essential "A to Z" of facts every Japanese pop-culture fan needs to know. Author Patrick W. Galbraith has spent several years researching deep into the otaku heartland and his
