How Power Works in Our Hyperconnected World--and How to Make It Work for You Penguin

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Coaching Leaders: Leverage the Power of Your Inner Voices to Become a Leader Packt Publishing Ltd

From two influential and visionary thinkers comes a big idea that is changing the way movements catch fire and ideas spread in our highly connected world. For the vast majority of human history, power has been held by the few. "Old power" is closed, inaccessible, and leader-driven. Once gained, it is jealously guarded, and the powerful spend it carefully, like currency. But the technological revolution of the past two decades has made possible a new form of power, one that operates differently, like a current. "New power" is made by many; it is open, participatory, often leaderless, and peer-driven. Like water or electricity, it is most forceful when it surges. The goal with new power is not to hoard it, but to channel it. New power is behind the rise of participatory communities like Facebook and YouTube, sharing services like Uber and Airbnb, and rapid-fire social movements like Brexit and #BlackLivesMatter. It explains the unlikely success of Barack Obama's 2008 campaign and the unlikelier victory of Donald Trump in 2016. And it gives ISIS its power to propagate its brand and distribute its violence. Even old power institutions like the Papacy, NASA, and LEGO have tapped into the strength of the crowd to stage improbable reinventions. In *New Power*, the business leaders/social visionaries Jeremy Heimans and Henry Timms provide the tools for using new power to successfully spread an idea or lead a movement in the twenty-first century. Drawing on examples from business, politics, and social justice, they explain the new world we live in—a world where connectivity has made change shocking and swift and a world in which everyone expects to participate.

The Power Broker: Robert Moses and the Fall of New York McGraw Hill Professional

Power to Become Sons of God is a book that is written to help believers understand the essence of their salvation in Christ Jesus. It is an eye opener especially to young believers, to believe their faith in whom they have accepted as their Lord and Savior. In these days, the Word of God is being watered down by many who are expected to teach the undiluted Word of God. These are the days described in the Bible that there would be famine of bread, which is the Word of God. We need to go back to the basis of our salvation in order to be what God has called us to be, not what your parents, friends, or society want you to be. It is obvious you cannot do that if you do not know the purpose of your salvation. Many today want to be like their pastors, or so called mentors. Christ is our standard in all things, not men. This book would help you in setting your priorities.

Brian Tracy has studied the journeys of exceptional men and women to try to find out what makes them special. The only thing he has found in common, the secret of successful people, is self-

confidence. Self-confidence means accepting to take risks by trusting oneself rather than one's fears. It allows you to set yourself goals that are much higher than you usually dare to do and to achieve them. It is also about following a path that really suits you and not staying in your safe zone. When fire fell from heaven on Elijah's sacrifice, it didn't start as a "spark to get the fire going." It fell in a consuming fire, not demonstrating a reward for Elijah's faithfulness but demonstrating God's power. Throughout the Bible, when God showed up, everyone knew it. And so can you-today! Drawing on Scripture, church history, personal
