Don't miss the latest book in the Arkady Renko series, THE SIBERIAN DILEMMA by Martin Cruz Smith, 'the master of the international thriller' (New York Times) - available to order now! AN ARKADY RENKO NOVEL: #7 'One of those writers that anyone who is serious about their craft views with respect bordering on awe' Val McDermid 'Makes tension rise through the page like a shark's fin'

Independent \*\*\* Investigator Arkady Renko has been suspended from the Moscow prosecutor's office for smashing through the corruption of Russia's underbelly to uncover unpleasant truths. Despite this, he strives to solve a final case: a young woman is found dead in a work shed on the perimeter of Moscow's main rail hub, and Renko is the only one who recognises it to be more than a simple drug overdose. The case quickly unveils itself as an entangled web of murder, money and madness that stretches from the lowest of street urchins to the powerful billionaires, uncovering the extent of corruption and fear in an emergent Russia. Praise for Martin Cruz Smith 'The story drips with atmosphere and authenticity - a literary triumph' David Young, bestselling author of Stasi Child 'Smith not only constructs grittily realistic plots, he also has a gift for characterisation of which most thriller writers can only dream' Mail on Sunday 'Smith was among the first of a new generation of writers who made thrillers literary' Guardian 'Brilliantly worked, marvellously written . . . an imaginative triumph' Sunday Times 'Martin Cruz Smith's Renko novels are superb' William Ryan, author of The Constant Soldier

What does "Europe" mean as we enter the 21st century? A rapidly-expanding club of nation states? A large single market in which labour, goods and services can move freely? A centralizing superstate run by unelected bureaucrats? An economic giant but a political pygmy on the world stage? Romano Prodi, President of the European Commission, tackles these and other questions in this important new book. It offers both a political vision and a personal statement by one of the most important political figures in Europe today. Central to Prodi's vision of Europe - what it can and should be - are the ideals of the European Union's founding fathers: Adenauer, De Gasperi, Monnet, Schuman. Their goal was a peaceful democratic Europe in which all the peoples of our continent could live together in security, freedom, justice and equality. The path towards that goal, argues Prodi, is inextricably bound up with economics. As the EU's Member States voluntarily pool their national sovereignty, especially monetary sovereignty, that dream - that vision of Europe - is gradually coming true. This book will be of great interest to anyone concerned with Europe and its future.

The Blood books center around three main characters: Vicki Nelson, a homicide cop turned private detective, her former partner Mike Celluci, who is still on the force, and vampire Henry Fitzroy, who is the illegitimate son of Henry VIII and makes his living as a writer of bodice rippers. Not only are the three of them caught in a love triangle, but they are, time and again, involved in mysteries with a supernatural slant—from demons, to werewolves, to mummies—and inevitably must join forces to solve crimes and defeat supernatural enemies. Now all of Tanya Huff's short stories about Henry, Vicki, and Mike are being released in this collection entitled Blood Bank. As an added bonus for fans of the TV series, Blood Bank includes the actual screenplay for "Stone Cold," the episode Tanya herself wrote for the Blood Ties series along with a special introduction by Tanya, detailing her own experiences with the show.

The world is an increasingly complicated place, but one rule has held true for centuries: People who have financial security control the destiny of people who don't. People who are financially secure live longer and healthier lives. They have the freedom and independence to pick what they want to do for a living, where they want to live and to create a financial legacy for their families and causes they support. So why do so many people who "have it made" run through their money and wind up broke? Why do the majority of lottery winners, injury victims, professional athletes and people who receive an inheritance run through it all so quickly? A better question: How do you keep it from happening to you? How do you protect your retirement, injury settlement or inheritance in a way that will keep you financially secure for life? In his fourth book, best-selling author and financial guru Don McNay offers concrete solutions to those questions. McNay draws upon his internationally recognized expertise on what to do when you win the lottery and his 30 years experience as a structured settlement consultant to show people how money can provide them with happiness, security and peace of mind. Although McNay has a strong academic background with two master's degrees and four financial professional designations, the book is written in a style that everyone can grasp and understand. He breaks the book into five sections, based on the five rules of thumb that he gave to lottery winners in his 2008 bestseller, *Son of a Son of a Gambler: Winners, Losers and What to Do When You Win the Lottery*. McNay said that his book is about financial freedom. "Real freedom means stability, security and independence," he said. "It means never running out of money. It means never having to work at a job you hate, because you can't afford to quit. It means never becoming a slave to your creditors. It means having control and stability in your life." *Life Lessons from the Lottery: Protecting Your Money in a Scary World* is the road map to finding that kind of freedom.
